

**Oregon City Enterprise**  
**TOLD IN SIDEHEADS.**

**Mrs. PRIESTER DEAD.**—Mrs. Annetta Priester, wife of Conrad Priester, died at the home of her mother, Mrs. Z. Sharp, at Stafford, Saturday afternoon, of consumption. Mrs. Priester was 29 years of age, and leaves a husband, 3-year-old child, mother, two brothers, six sisters and a large circle of friends to mourn her loss. The funeral was held Monday afternoon at Stafford.

**REMEMBER EIGHT OFFICERS.**—Wednesday, Nov. 13, of Redman, at a meeting held Saturday evening, elected the following officers to serve for the ensuing year: Grant Olds, warden; J. George, senior sargeant; G. P. Puffitt, junior sargeant; W. Little, prophet; J. H. Howard, keeper of records; C. Hartman, keeper of wampum; J. Bradley, trustee. After the meeting, light refreshments were served, and short talks were made by the different members present. The order is steadily growing, and now has a membership of 123. One candidate was initiated at the meeting held Saturday night.

**WANT MORE COWS.**—P. K. Miller, the Silverton creameryman, says: "The country in the vicinity of Silverton is in fine condition. Business is very good and everybody has money. Those who had hopes to sell were especially fortunate and are making arrangements to increase their average next season. The creamery business is good and all the cream that is brought is eagerly bought up by the creameries. I think that the creamery business is destined to be one of the most profitable in the state, and farmers would do well to keep a few more cows on hand. There is always a demand for cream—the supply being far short of the consumption."

**ELECTRIC SAWMILL.**—Preparations are being made on the quiet to establish in Portland soon a large sawmill, the motive power of which will be electricity. A prominent man said: "I am well acquainted with the person having the venture in hand, but he does not want the matter to become public yet. He is a capitalist and is a practical sawmill man. It will be one of the largest concerns in the city. He is now looking around for a site on which to build. This will be a welcome acquisition to the city. At present there is not enough lumber turned out there to meet the demand, although every mill is kept running at full blast."

**FOOTBALL TEAM.**—Another football team is being organized in this city, the line-up being as follows: Center, Will Stokes; L. G., Claude Butler; R. G., C. Mettichie; L. T., C. Kelley; R. T., L. Confer; L. E., G. Case; R. E., N. Humphreys; Q. B., W. Cahill; L. H., G. Reddick; captain, R. H., O. Tonkin; F. B., E. Cahill. The average weight of the members of this team is 150 pounds, and the determination with which they are entering into their practice games indicates that they expect to be able soon to not only play a good game, but come out victorious in all they play. Manager George Cahill is arranging for a game with Columbia University, of Portland. Challenges will be issued to Portland High School, B. S. A. team and Salem High School team.

**BILLS OF EXCHANGE**

WE issue Bills of Exchange payable in nearly every country on the Globe.

**BANK OF OREGON CITY**  
OREGON CITY, OREGON

**Go THROUGH A BRIDGE.**—The band of 200 horses being driven from the range in Lake county to the railroad at Marysville, for shipment to California and Mexico, mention of which was made in these columns last week, met with disaster at a place known as Peck's bridge, which crosses Pit river. The bridge forms a part of the highway between Burney and Cayton valleys, and has a length of over two hundred feet. The weight and tramp of the band of two hundred horses proved too much for the structure and it went down with a crash, sending the frightened horses into the swollen waters of Pit River. The frightened animals after striking the water struck out for the banks and swam to shore, all succeeding in landing safely but three. Considering the confusion into which the entire band was thrown, that only three of the animals were lost, is most remarkable.

**HOLDING TIMBER CLAIMS.**—The Oregon Hop Growers' Association has taken 2,300 bales of hops off the market at the present prices, the owners of these hops having signed an agreement not to sell them for less than 30 cents a pound, and the secretary says the number will be increased to at least 3,000 bales before the end of the present week. He estimates the number of bales now left in the hands of the growers of this state at 13,000. If this estimate is correct, only 10,700 can be had now at a lower price than 30 cents a pound, and there are probably a number of individual growers among the holders who are expecting 30 cents or better. As all the hops left in the hands of growers will be needed by the American consumers before the next harvest, and as hops are constantly going to England, the market situation looks like a strong one.

**PROFIT IN GROWING FRUIT.**—The best sale of apples in the Rogue river valley this season, according to reliable reports, was made by W. H. Norcross, a well known and successful orchardist of Central Point, who disposed of a straight ten carloads at the fancy price of \$1.50 per box l. o. b. Central Point. The shipment of the apples, which went direct to New York city, was completed a few days ago, and they are reported to be as fine a lot of fruit as ever went out of the state—absolutely free from any blemishes or pests, and as perfectly beautiful as any apples could be. There were 6000 boxes in the lot of ten carloads sold at this price, which netted \$9,000, and Mr. Norcross produced them from 21 acres of orchard, a return of \$425 to the acre. This was an exceptional sale of exceptionally

choice fruit, but it goes to show what careful work in the fruit business in this state will do. Many of the apple growers sold their crop at from \$1.15 to \$1.25 per box. Horticultural Commissioner A. H. Carson, of that district, estimates that the yield of apples in that valley for export for the two years 1901 and 1902 has amounted to 350,000 boxes, or over 550 carloads. This estimate he has carefully made for use in his forthcoming biennial and official report.

**GOSTEDED TIMBER CLAIMS.**—There is said to be about one hundred persons residing in Albany, who have filed on timber claims in Klamath and Lake counties, and whose filings will be a matter for investigation, among others, by the committee which it is expected Secretary of the Interior Hitchcock will have appointed under his recent order. These Albany people have proved up on their claims during the past year in the Lakeview district, under the law for timber land entries. They now maintain that it would be an injustice to them for the investigating committee to take evidence in the case at Lakeview, thus necessitating a long trip overland, entailing expenses which many of them are not in a position to meet. At a meeting of a number of interested people last week it was decided to ask the Oregon delegation in Congress to exert every effort to have evidence taken in Albany for the people residing there.

**School Report.**

Following is the report of the school in district No. 12, at Garfield, for the month ending November 12th, 1902:  
The following pupils were on the roll of honor: Henry and Quilla Boyer and Fred Covey.  
Number of days attendance 440½; number of days absence 20½; number of times tardy 2; average daily attendance 22; average enrollment 23.  
Patrons and friends are cordially invited to visit the school.  
ANNIE I. HICINOTHEN,  
Teacher.

The new-to-day column of The Enterprise contains many readers of interest to the general public. Something new every week. If you want employment or require help, if you want to borrow money or have money to loan, if you have anything to sell, use the new-to-day column.  
Styles and quality in millinery combined with rock bottom prices. Miss Goldsmith.

Hart Schaffner & Marx  
Hand Tailored

**The H S & M Varsity**

The Hart Schaffner & Marx "Varsity" Suit, which has been so long a favorite among young men—fellows who want "snappy" clothes—is as usual a popular style this fall.

It is so good a style that the tendency is to make all the sack suits like the Varsity model. There's a difference, though; you'll see it at a glance if you will look at the clothes.

Glad to show 'em to you anytime; and plenty of other suits and overcoats.
