BLACK-DRAUGHT

THE ORIGINAL

IVER MEDICINE

A sallow complexion, disziness,

ousness and a coated tongue

are common indications of liver and kidney diseases. Stomach and

bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles,

though less painful at the start, are much harder to cure. Thedford's Black-Draught never fails to bene-fit diseased liver and weakened kid-

neys. It stirs up the torpid liver

to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of

the kidneys. With kidneys re-inforced by Thedford's Black-

Draught thousands of persons have

dweit immune in the midst of yel-

low fever. Many families live in

perfect health and have no other doctor than Thedford's Black-

Draught. It is always on hand for

use in an emergency and saves many expensive calls of a doctor.

THE WRITERS.

Gertrude Atherton, who has returned to New York from her visit to Denmark, is to branch out as a dramatist. Tolstol believes that the best time for literary work is between 9 a. m. and 3 p. m., and he seldom writes at other times.

Radyard Kipling is probably the first poet to have one of his works form an item in a government's cable bill. His "Our Lady of the Snows" was, it is said, cabled at a shilling a word from London to Ottawa at the expense of the Canadlan government.

A German author, Friedrich Venz, wrote a letter to another author named Carl Hartmann, in which he used expressions reflecting on the German emperor. Hartmann made the contents known, and Venz has been condemned to two months' imprisonment.

them. They might help some other poor, suffering woman,"

Mrs. Shearer's case is a fair example of the average cure effected by the use of "Favorite Prescription" both in the completeness and quickness of the cure. Of course, in complicated and chronic cases the cure may be slower but it is none the less sure if the medicine is faithfully used as directed. The records show that ninety-eight women in every show that ninety-eight women in every hundred who have given "Pavorite Pre-scription" a fair and faithful trial have been perfectly and permanently cured.

UNNATURAL CONDITIONS.

Every woman should remember that a diseased condition is unnatural. The natural condition of the womanly organism is a condi-tion of health and "Fa vorite Prescription" works with nature on nature's lines to re-estab-lish that condition of perfect health.

"I never courted newspaper notoriety," writes Mrs. E. A. Bender, of Keene, Coshocton Co., Keene, Coshocton Co., Ohio, "yet I am not atraid to speak a good word for 'Pavorite Prescription' and 'Pleasant Pellets,' Over a year ago I suffered terribly for nearly four weeks with prolapsus and weak with prolapsus and weak best. After using one bottle of 'Pavorite Prescription' and one of 'Pellets' I was a well woman. I have taken no medicine since and to medicine since and have had no symptoms of my former trouble. Have used the 'Favorite Prescription' at different times for more than four years and find it has no equal."

When the womanly health is re-established, the general health at once improves. There is no more backache or headache. The nerves are quiet, the sleep is sound and the appetite.

natural. Dr. Pierce's Favorite Prescription establishes regularity, dries Prescription establishes regularity, dries the drains which weaken women, heals inflammation and ulgeration and cures female weakness. It is the best preparative for maternity, giving muscular strength and elasticity and rendering the baby's advent practically painless. As a tonic for weak and "run-down" women it is unequaled, and nursing mothers will find it superior to beer or any of the medicines or beverages commonly believed to have a tonic and strengthening value. "Favorite Prescription" contains value. "Favorite Prescription" contains no alcohol, neither opium, cocaine or any other narcotic.
