

Oregon City Enterprise

TOLD IN SIDEHEADS.

A CORRECTION.—In his eagerness to print good readable matter last week, the local editor of the Enterprise overstepped his bounds a little and stated that the Willamette mills across the river were about to build oil tanks to take the place of wood which innovation, it was stated, would curtail expenses at least 1/3. This statement was obtained from an unauthentic source and is a mistake.

Another big boom of logs went down the river Monday for Salt Lake City, Utah. There were about six hundred logs in the boom and they were all of the very best kind. They are being sent East to be used for bridge piling and many more are being put in readiness to send. The boom on Monday was one of the largest and finest sent to Salt Lake in a long time.

THE SOUTH END ROAD.—Many persons living along the right of way of the proposed South End road are anxiously awaiting a chance to go to work on the grade. The committee in charge of the project are to call on Messrs. Koehler and Fenton, of the Southern Pacific, this week, to see what the railroad company is willing to do toward constructing a tunnel beneath its track at the crossing near town. The underneath crossing is much in favor, as it would render the grade much lighter and the junction of the county road and railroad less dangerous.

A DANGEROUS PRACTICE.—Many of the school children have been seen walking on the high railings of the walks around the Barclay school. These little folks don't realize the danger attached to the sport and their desire for adventure causes them to do this kind of thing. The railing is twenty feet from the ground and if the little folks should fall, they could not but be seriously hurt. Several years ago a child fell from one of the railings and was picked up for dead and was so near killed by the fall that several hours of work on the part of the doctors were required to bring her back to life. This is a word of warning to the parents of these children.

NEARING COMPLETION.—The Methodist church, which has been for so long under a state of construction, is now rapidly nearing completion, and before very long Mr. Block will take possession of the spacious apartments and order will be restored out of chaos. The store room will undoubtedly be of the very best in the city and will afford one of the very best show windows. The room is about as large as the down stairs apartments in the Garde building and will be one of the very best in the city. Considerable work is being done upstairs in the church toward mending the plaster down by the work of moving the building, and before the people can use the structure these details must be looked after.

HAVE INCORPORATED.—The Oregon City Placing Mill Company was incorporated Friday with F. S. Baker, Margaret Baker and J. L. Barry as incorporators. The capital stock is \$2500, divided into 250 shares at \$10 per share. The principal place of business is Oregon City and the objects of the corporation are to engage in lumbering, logging and general contracting and building business; to acquire, operate and sell water rights and franchises; to buy and sell sawmills, planing mills and lumber yards; to manufacture, deal in and sell building material of every description; to raft, drive, tow and boom logs and other timber products for itself and others and for that purpose to clear out and improve rivers in Oregon and elsewhere. The principal stockholder of the company, F. S. Baker, has been in the planing mill and contracting business in this city for several years past.

DEATH OF MRS. MELLIN.—Saturday night Mrs. Edith L. Mellin passed away at her home in this city after a long illness. Mrs. Mellin leaves a husband, six children and two brothers to mourn her death. The deceased was 40 years, 7 months old and has lived in Oregon City for 4 years, coming here from Portland. The deceased a few months ago was seriously sick with typhoid fever, and from this malady never fully recovered. A few days ago, feeling that her health would be improved by going into the country, she visited her brother, Fred Rugg, at Gresham, but was obliged to come home on account of a change in her condition for the worse. She returned home and on Saturday night passed away. The deceased leaves two brothers—Fred Rugg, of Gresham, and Frank Rugg, of Montavilla. All through her life she has tried to live a Christian life and her example has ever been in accord with her precept. Her death leaves many saddened hearts and many friends will entertain for her kind memory. The funeral services were held at the Presbyterian Church Tuesday afternoon under the auspices of Rev. A. J. Montgomery and Rev. Frank A. Mixell.

DEATH OF MRS. G. R. H. MILLER.—Mrs. Mary Ann Miller, wife of G. R. H. Miller, died at her home in the city Sunday night of a complication of diseases. The funeral was held at 10:30 Tuesday morning from the Presbyterian church, Rev. W. S. Grim, pastor of the Methodist Episcopal church officiating. The interment will be in Mountain View cemetery. The deceased was born in Independence, Mo., August 30, 1841, and crossed the plains with her parents, Rev. Theophilus Powell and wife, in 1855. They were members of the company of emigrants who came near starving to death in the celebrated Meek cut-off. Upon their arrival in Oregon, the family settled in the Waldo Hills, Marion County. Mrs. Miller became a resident of Oregon City 31 years ago. In 1875 she married G. R. H. Miller and they have one daughter, Mrs. J. E. Jack, of this city. Three children, by her first husband, survive Mrs. Miller: Charles and Eugene Roberts, of Oregon City, and Mrs. C. A. Beale, of Tacoma, Wash. She has two brothers living: Dr. J. W. Powell, of this city, and Rev. J. J. Powell, of Wasco County. Mrs. Miller became a member of the Methodist church at the age of 14 years and was a member of that church at the time of her death.

SAFER AND BETTER

Never send money by mail. A bank draft is always safer; it is also better in other ways. We sell the drafts: they are good throughout the United States and Canada. Our charges are low.

THE BANK OF OREGON CITY

OREGON TY. OREGON.

The latest veillings and ready-to-wear hats. Miss C. Goldsmith. Mch 27.

NEW SURVEYS.—The demand for the specific locations of farm boundaries has grown apace with the frequency of transfers, and County Surveyor Meldrum has four deputies locating corners, where two years ago there was hardly work for one. Mr. Meldrum attributes this to the number of newcomers who are purchasing homes here. Eastern people do not take things for granted when it comes to farm boundaries, so records must be hunted up and the lines carefully re-located. Formerly no resurvey was necessary when land changed hands, as neighbors took each other's word for it, and so there was little use for the county surveyor.

TROUBLE ON CAR.—A few days ago a scene somewhat out of the ordinary took place on the electric car. T. W. Fouts and Rob Adams were the principals in the transaction, and it all was the result of a misunderstanding as to where Mr. Fouts was to get off the car. The conductor, it seems, took Mr. Fouts past the place where he usually alights, and growing angry Mr. Fouts started to use his cane on the conductor. This kind of procedure wasn't the most pleasant on Adams' back, so he and his brother seized the man and put him off the car. In the commotion and excitement Fouts was thrown to the ground and his face considerably bruised.

A GREAT SOCIAL.—A few days ago, at Bull Run the young people held a social at their school house which netted them something like \$110. This, as will be seen on the face of it, is a record breaker and was the result of an earnest effort on the part of the young people to raise some money. Besides having a basket social there was a pound social in connection with the affair and though there were but thirty baskets sold and but a few pounds of sweets disposed of, the sum of \$110 was taken in. Seldom in the history of socials is there such a sum as this realized from baskets and this liberl patronage on the part of those people indicate the earnestness with which these people work.

RAISED \$12.25.—The Oregon City Academy held an interesting entertainment in the Y. M. C. A. rooms Friday night to a crowded house. The entertainment consisted of a contest between two sides and resulted in a spirited bit of rivalry. The two leaders were C. W. Fogue and Howard M. Brownell, and each man had the very best talent in the school on his side. The program consisted of instrumental music by Miss Pearl Corrin, an essay on "Character" by Miss Dickey, and a recitation by Charles Robinson. The debate was, "Resolved, That Women Ought to Have the Right of Suffrage." The speakers on the affirmative were C. W. Fogue and Marcus Sugarmann, and those of the negative were Miss Bessie Davis and Howard M. Brownell. The judges were Messrs. Willson, Hornsby and Shively, and rendered a decision in favor of the negative. Another feature on the program was an address by Mr. Haines on the subject of the Monroe Doctrine. Every number on the program was of an exceedingly high order, and in the debate, while the affirmative lost the decision, the speeches by Fogue and Sugarmann were very strong and to the point. The best thing about the whole affair, however, was the goodly sum taken in as receipts, which amounted to \$12.25. The money is to go to the organ fund, and will nearly complete the payments on it. It is the intention of Prof. Davis to have another entertainment in the near future.

STEER CHASE ON RIVER.—Water Bailiffs W. W. Smith and O. F. Jones had an exciting experience Saturday night in a chase for fishermen, who were violating the state law by fishing for salmon during the close season. They started out on a patrol at 8 o'clock Saturday night and did not return until 8 o'clock Sunday morning. Going down the Willamette they captured four set nets. Spring a boat with three men in it, they gave chase and overhauled the boat. Two of the men ran the boat ashore and fled to the brush and the third was captured, but was released and allowed to take his boat and net. All three of the men are known and their cases will come before the deputy district attorney upon his return from Southern Oregon on Monday. Later at night the bailiffs sighted another boat with two men in it and pulled away after it. For four miles up and down and across the river the bailiffs pulled and at one time were within ten feet of their intended prey, but the fishermen were in a light boat and when the bailiffs would gain on them down stream, the pursued would put about and up the river they would go, giving the laugh to the officers. Finally one of the bailiffs gave out and the men got away. There have been many violations of the fish law during the past few weeks, and the bailiffs are determined that illegal fishing must be stopped. Fishing has been carried on in the Clackamas river and some of the fishermen are known to the bailiffs, who will exhaust every effort to catch the offenders. Violations of the law are becoming so flagrant that the water bailiffs are going to adopt measures that will insure the prevention of fishing for salmon out of season. A short time ago they came upon a trap-gun on the banks of the Clackamas river. They tripped a string and the gun was fired point blank at them from the brush. They examined the weapon, which proved to be in the nature of a small cannon. A large galvanized gas pipe had been fastened between two blocks of wood and filled with powder, and the discharge frightened them out of several years' growth.

William Logos, whose famous hit with "Who is Who," has become known to theatrical men in general and has received a very flattering offer from the manager of Bostock's Animal Arena, now playing at the Chutes at San Francisco, Cal.

BRIDGE WORK COMPLETED.—The work of repairing the bridge is finished. After two weeks of assiduous work the bridge is in as good shape as it ever was. A good part of the piers were rotted out and had to be replaced with new material.

WILL ORGANIZE UNIONS.—A number of our loyal Textile Union men who are employed in various places in the city will go to Sellwood Saturday night and there organize a Textile Union. At Sellwood, as all in these parts know, is a large woolen mill and many of the employees will join the Union.

Henry Jewell filed a suit in the circuit court on Thursday to foreclose a mortgage of \$650, principal and interest, against Annie M. Whitlock, W. T. Whitlock and Edward B. Whitlock, and for a decree authorizing the sale of lots 6 and 7, of block 49, Oregon City, to satisfy the mortgage. Plaintiff asks for \$75 attorneys' fee, and for the costs and disbursements of the suit. G. B. Dimick and Geo. L. Story appear as attorneys for the plaintiff.

WOODCHOPPERS BUSY.—A camp of woodchoppers, near the Miller tract on the west side of the river, is turning out considerable wood for the Oregon City mills at present. The choppers are paid 80 cents a cord, and each man averages 32 per day of nine hours. The choppers consider this work more remunerative and pleasanter than in the mills, as they make 25 cents more a day and each man is his own boss. Woodchoppers are paid 80 cents a cord for delivering the fuel at the mills, and the stumpage, 40 cents a cord, brings the total cost to the consumer up to \$2 per cord.

SUIT TO CANCEL TAX DEED.—A suit was commenced in the circuit court on Monday by N. R. Graham against P. H. Marlay and Jesse K. Marlay to cancel a tax deed to about 55 acres of land located on Elliott Prairie. The plaintiff demands judgment against the defendants for a decree compelling them to set up their answer the nature of their pretended claim; that the same be canceled and held for naught; that plaintiff recover from the defendants his costs and disbursements of the suit. G. B. Dimick and G. L. Story are attorneys for plaintiff.

CLASS COLORS.—The wide-awake eighth grade of the Barclay school has chosen its class colors crimson and white, and now they are ready for the initiatory work of preparing for their graduating exercises. The colors are very artistic and produce a most pleasing effect. All the members are wearing them, and the closing exercises will be impressive and enjoyable. Mrs. Godfrey is teacher of the eighth grade and she takes a great deal of pride in her pupils and in their efforts for self-improvement.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE "MUM" SOCIAL.—The "mum" social held at the residence of Mr. and Mrs. A. Luelling last Friday night was one of the hits of the season and well attended. Everybody tried to keep "mum" but their efforts proved futile and the laughter and merry-making which their efforts provoked was very enjoyable. These socials are for the benefit of the parsonage fund and as spring opens up many more will be given.

PILING ON THE WAY.—Mrs. A. Wells, the man who has been furnishing the railroad many piling at Salt Lake City for the last year, is now about to start down the Clackamas with two more rafts of five fir logs. All winter, when the weather was not too inclement, he has had a crew of fifteen men at work up the Clackamas cutting piling out of the timber until he now probably has 2000 long piling ready for the river. The piling is being shipped to Salt Lake City, where the O. R. & N. is building thirty-five miles of trestle work along the lake. It takes 5000 piling to the mile to make the trestle, as the plans and specifications require. Mr. Wells has till May in which to send these piling east, after which time the contract will probably be closed. He has already shipped about 2900 logs.

NEURAL GASTRITIS.—A remedy to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the public, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size. Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

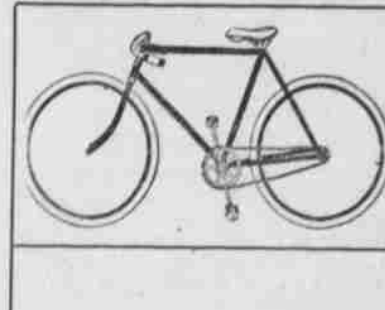

Announcement.—To accommodate those who are partial to the use of ointments in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the syring tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

DON'T ARREST.—There has been some talk of arresting parties suspected of poaching in the Clackamas river, but the officials here think it would be difficult to convict them, as public sentiment along the river is not very severe on people who catch salmon for their own use. Prosecuting Attorney Campbell has been spoken to in regard to the matter and said: "So long as alleged cold-storage salmon are sold in Portland during the close season it would be very difficult to convict people who fish at night along the Clackamas. The fish laws are openly violated on the Lower Columbia, and last year there was a strike among the fishermen down there in the so-called close season. The only way to effectively put a stop to illicit fishing is to prohibit the sale of salmon altogether during the close season. Those people who fish along the Clackamas at night evidently catch fish for their own immediate use, and so it would be very difficult to convict."

The best pill 'neath the stars and stripes. It cleanses the system and never grieves. Little Early Risers of wordly repute—Ask for DeWitt's, take no substitute. A small pill, easy to buy, easy to take and easy to act, but never failing in results. DeWitt's Little Early Risers arouse the secretions and act as a tonic to the liver, curing permanently. Geo. A. Harding.

Grand Millinery Opening Monday Tuesday, March 30-31 and following days. Miss Goldsmith. Mch 27.
