TOLD IN SIDEHEADS.

BUILDING A WHARF.—The East Side Railway company is building a wharf at Canemah for the accommodation of its business interests at that point.

A SIX FOOTER.—Fred Kalkle, of Canemah, recently killed an eagle of the bald headed variety, that measured six feet from tip to tip. This was an exceptionally large bird.

SENT TO ASYLUM.—Theodore W. Fouts was committed to the state insane asylum at Salem Monday evening after an examination before County Judge Ryan. Mr. Fouts has received treatment at the asylum once before. His deranged mental condition is largely due to excitement over political affairs.

CALL FOR WARRANTS.—Clackson county has made a payment of \$12,000 on its state taxes and County Treasurer Cahill expects soon to issue a call for outstanding warrants. Road warrants protested to January 1903 will be redeemed and those of the general fund will be called in up to October, 1900.

STEPPED ON A NAIL.—G. C. Fields, assistant superintendent of the Oregon Water Power & Railway Company, experienced a painful injury Monday when he stepped upon a nail that penetrated his foot. Mr. Fields will be somewhat of a cripple for a few days, but no serious consequences are expected from the mishap.

RURAL MAIL ROUTE.—The petition of the Viola, Logan and Redland, people for a free daily rural mail delivery route, has been favorably received at Washington and it is likely that the route will be established soon. The starting of this route will likely dispense with the post offices that are now maintained at Logan, Viola and Redland.

WORTH TRYING FOR.—The Main street harness shop has on display in the window the fancy riding bridle that the firm has offered in connection with the county school exhibit that is to be held in June for the best drawing by any pupil in the intermediate division of the schools of the county. It is a very serviceable gift and is well worth the effort.

CLEANING THE BASIN.—The board of water commissioners is having the basin at the head of Main street cleared of all rubbish and logs that have accumulated during the winter. This refuse is also being removed from the entrance to the flumes of the water works, factory and the different mills, and will improve the water power service.

BENEFIT OF PARSONAGE.—The young people of the Y. P. S. C. E. of the Presbyterian church of this city, have engaged Shively's opera house for this evening and will give an entertainment. The program will consist of music, recitations and dialogues. This society recently pledged \$75 to the fund for a new parsonage and it is to raise a part of this fund at least that the exercises will be given this evening.

THE NEGATIVE WON.—Howard Brownell, of this city, received the decision over Henry S. Westbrook, of Portland, in the joint debate at the Oregon City Academy Saturday night. The subject for discussion was the abolishment of capital punishment. Mr. Brownell presented the negative side of the argument. The discussion was enjoyed by a large number of people.

GRANTED A DIVORCE.—It required just two days for Princi May Linn, of this city, to get a divorce from her husband, Timothy Linn, to whom she was married about five years ago. Cruelty was alleged in the complaint. The father was awarded the custody of the 4-year-old boy, and the mother given the young daughter. Geo. C. Brownell appeared for the plaintiff and the defendant was represented by U'Ren & Schuebel.

MORE MACHINERY.—Patzliff & Moe-hnke, of the Oregon City Lumber Company, have just installed in their plant on the West Side a considerable amount of new and modern improved milling machinery that adds greatly to the equipment of their property. The principal addition to the plant at this time consists of a Fay & Egan planer. These enterprising citizens have constantly enlarged and added to their plant until they are now in a position to supply all kinds of building lumber and in almost any quantity.

GUARDIAN APPOINTED.—After investigating the matter, County Judge Ryan last Monday appointed W. T. Gardner, superintendent of the Boys' and Girls' Aid Society, guardian for Mary Siegfried, aged 16 years. On complaint of Mr.

Gardner, Jacob Siegfried, of Barlow, had been cited to appear Monday and show cause why he should not be deprived of the care, custody and control of his two daughters, Mary, aged 16 years, and Clara, aged 14 years. The court took no action, so far as the younger daughter is concerned, but will see if another home cannot be provided for the girl.

IN NEW QUARTERS.—J. P. Lovett started his ice and cold storage plant in this city Monday morning. This valuable manufacturing concern has a capacity of 25 tons daily and has just been installed in larger and more commodious quarters in the old Charman building on Main street. Thos. E. Gault superintended the installing of the plant and will be in charge as chief engineer. It will be his purpose to manufacture not only a superior quality of ice but also in such quantities that the population of Oregon City and vicinity may be able to keep cool during the summer months so near at hand.

DIED IN PORTLAND.—John W. Mallinson of this city, died in Portland Sunday from the effects of an operation that was performed for appendicitis. The deceased was an estimable young man aged thirty years and is survived by a wife. Mr. Mallinson and wife came to this city last October from Canada although their original place of residence was at Silbertville, Massachusetts, and to this place the body was taken Monday for burial. While in this city both Mr. and Mrs. Mallinson were employed in the woolen mills. Mr. Mallinson was a good tenor singer and for some time was a member of the choir of the First Congregational church.

WITH FISH HATCHERY.—Leighton Kelly, a former Oregon City boy, is visiting with his parents and renewing old acquaintances in this city. Mr. Kelly is now interested in the fish industry on the Coast and is employed at the Baker Lake Hatchery in the state of Washington. He reports that the catch of steelhead salmon in that locality this season has been the largest in years. Eggs of the steelhead variety are being shipped from the Washington hatcheries to England to be planted in the streams of that country. The shipment of these eggs so great a distance is quite an undertaking. They are well packed in ice and make the trip as far as New York in a decidedly frigid state. Equal care is exercised in preserving the eggs for the remainder of the trip by ocean steamer.

THEY FAILED TO STOP.—The gang of greasy-looking Gypsies that visited this city about two weeks ago, passed through this city last Saturday afternoon, going south. They had evidently not forgotten the place and the welcome they received here before, for they drove through the city at a rapid rate and did not even stop to water their animals. Since they were driven out of this city a fortnight ago, this company of nomadic grablers has been preying on the people of Portland and vicinity. While in the metropolis, one of the gang got a young fellow so much interested in his promising future that she managed to torch him for about \$20. The woman's ardent followed and, upon being fined \$50 in the Portland police court, she produced the entire amount of the assessment in five and ten cent pieces.

SALMON ARE PLENTIFUL.—"Salmon of the delicious Chinook variety are more plentiful in the Willamette river at this point this year than they have been in ten years," said a local dealer today in discussing the subject of fish supply. Salmon are not only plentiful, reports the dealer, but there are many large ones to be caught. Some have been landed this season that will weigh 50 pounds, although the general average in weight is from 25 to 30 pounds. There are also a great many half-salmon included in the catches, which are the largest in years. Oregon City fishermen supply the local market and also ship to Portland and the cannery. Some of the boats this season have returned with as many as a thousand pounds of fish. This is unusually large, but it is not uncommon for a crew to return with from 600 to 800 pounds, representing a night's fishing.

HAD TARGET PRACTICE.—Night Officers Shaw and Noblett had a little entertainment of their own Monday night. In keeping with the custom of the police officers of the city, they went to the Southern Pacific station that night to invite all transient persons arriving on the southbound train to either continue their journey or accept the accommodations of the jail for the night. About ten men dismounted as the train pulled into the station, and the large majority of them failed to make connection with their Pullman as the train pulled out. The gang was taken into custody without any trouble, save that one fellow started on the run. He was cautioned to stop, but failed to heed the admonition, when Officer Noblett produced his gun and fired at random, in hopes the escaping hobo would stop, but the more the officer discharged his fire-piece the more rapidly the fellow ran. No one was hurt in the mixup, which caused some excitement at the time.

PATRONIZE HOME INDUSTRY.—There has been considerable talk locally with reference to people going away from town and purchasing things that are to be had in Oregon City. But merchants should not criticize the general public for making outside purchases when they themselves do not follow their own doctrine. During the past week the city was visited by a representative of a Chicago publishing house, who received encouragement in the way of orders for stationery from some of the leading merchants of this city. When the orders are received here, it will be discovered that the quality of not only the materials employed, but also the workmanship itself, will be cheap and inferior. When the freight or express charges are considered in addition to the original cost of the order, it will prove an expensive experience that will probably not be repeated. Commercial printing of all kinds, up-to-date in style, of right quality and at reasonable prices, is to be had of dealers right here in Oregon City. Merchants should practice as well as preach.

MORE CELEBRITIES.—H. E. Cross, secretary of the Willamette Valley Clam-tanqua Association, reports that the services of Robert J. Burdette, the noted lecturer, have been engaged for two lectures. Mrs. Burdette will also be in attendance for the last six days of the Assembly. She writes as follows: "I will come to you on July 20th and remain

during the week, giving one public lecture, and being at the service of the ladies as you suggest during that time and in any way possible entering into the success of the Assembly." Mrs. Marguerite Longacre, of Waterman Hall, Byamore, Illinois, has been secured and will give two readings, and will also sing two numbers, appearing only on two programs, however. Mrs. Longacre is a former Oregon girl and after being graduated from the Columbia School of Oratory of Chicago, she has been engaged in eloquent work in that state. She was strongly recommended to the Clam-tanqua people by Ex-United States Senator Joseph Simon.

WILL HONOR THE DEAD.

Memorial Day Will be Observed in Oregon City.

At a meeting Sunday afternoon of the members of Meade Post, No. 2, G. A. R., arrangements were made for the appropriate observance of Decoration day in this city. Geo. A. Harding, L. W. Ingram, C. H. Dauchy, Frank Redner and J. Doremus were appointed a committee to formulate a program of exercises for the day. Dr. C. P. Mars was elected grand marshal of the day and will appoint four aides.

After forming, the street procession will pass over the suspension bridge strewn with flowers in the Willamette river in honor of the sailor dead. Counter-marching the line of march will proceed to Shively's opera house where the services of the day will be held. The formal memorial day address will be given by Mrs. William Galloway. This is probably the first time in the history of the state that the honor of delivering such an address has been bestowed upon a woman. After the exercises at the opera house, the members of the Grand Army Post and the Ladies of the Relief Corps will proceed to Mountain View cemetery where they will decorate the graves of deceased comrades.

The schools of this vicinity will be visited by committees from the G. A. R. as follows: West Oregon City and Willamette schools, Wednesday, May 27; Barclay and Eastham school, Thursday, May 28; St. John's and Parkplace schools, May 29.

TAX ON BEQUESTS.

Heirs Must Pay the Tax—State Treasurer Collects It.

County Clerk Sleight has received a copy of the new session laws. Among other laws enacted at the last legislative session, and embodied in the new volume is the inheritance tax law, which goes into effect about the 29th of May.

The tax is levied against the sum that heirs receive, but does not affect estates whose total value is under \$10,000. In case there is reason to believe that the administrator's appraisal is low, provision is made for an independent appraisal, and for taking testimony relative to the value of the property in the estate. When the estate goes to heirs of first degree—that is, a wife, husband, daughter, son, and the like—the levy is one per centum against the portion of each heir. It is collected by the state treasurer, and placed in the general fund. In the case of uncles, aunts, and other relatives or other heirs of the second degree, the taxation is two per cent of all above \$2000. In relationship further removed, or in case of bequests to corporate bodies, the rate is three per cent from \$500 to \$5000; four per cent from \$5000 to \$20,000; five per cent to \$50,000, and six per cent on bequests above the latter figure.

The law provides that the county clerk shall provide the state treasurer with copies of appraisal and many other papers filed by the administrator in estates subject to the tax, and establishes a complete system that seems to make it impossible for the payment of the tax to be avoided. A similar law is in successful operation in nearly all other states.

A Little Early Riser

now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that cure by the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by Geo. A. Harding.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

RIGHT SUMMER CLOTHES...

Here's the sort of Summer Suit you've been looking for; one that has style and finish, that fits and stays fit all summer; a summer suit made to wear, not simply to look at.

They're Hart Schaffner & Marx

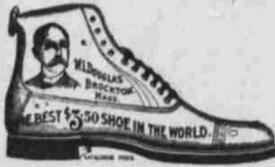

make, and perfect tailoring which the clothes gets makes them equal to the best custom work. We also carry a complete line of Geo. P. Ide & Co. men's shirt waists, the newest thing for the sunny days.

Our shoe line need no introduction as we have just received an immense spring line of W. L. Douglas celebrated Shoes for men and Rich's famous Julia Marlowe shoes for women in all the latest styles. A glance at our stock will convince you that we are the only up-to-date store in town.

DEALER IN

Watches, Clocks, Jewelry and Spectacles.

All kinds of Repairing neatly done and warranted.

CANBY, OREGON

—Oregon City office at—
Harding's Drug Store.

There's No Good Reason

WHY you should not own one of those fine gold watches we are now displaying in our show windows. After many years of experience in the watch business we found out, that almost every person who is not wearing a watch, would purchase one at once, if they knew how reasonable a good watch can be bought and how easy it is to pay for one. Most of them say that they will not own a Waterbury or some other cheap time piece and that they are not able to invest in a good watch

We sell good reliable Watches in Nickel Case from \$5.00 up. Fine Boss Filled Watches from \$12.00 up. Solid Silver Watches \$6.00 up and Solid Gold from \$22.00 up

It is very easy to buy one of our high-grade watches on the installment plan. A person hardly ever feels able to pay the full amount at one time, therefore we adopted this plan in selling these on weekly or monthly payments. If you have a few moments to spare we would like to have you come in and look at our watches and we will explain our method of selling them on the installment plan. We do all kinds of Watch and Jewelry repairing.
