Fresh Drugs

The thing that most contributes the freshness of drugs in any drug store is the rapidity with which stocks are handled. The finest drugs will be found in stores with the largest trade; because in such stores the drugs are kept moving and have no chance to get old. Huntley's is such a store—goods coming and going all the time. Few druggists could keep drugs as fresh as ours no matter how hard they tried.

Take your prescriptions to Huntley's. HALF of all the REGISTERED DRUGGISTS in Oregon City with its 5 drug stores are at Huntley's.

We give the same careful attention to every Prescription—no matter what doctor writes it—no matter what druggists name is on it.

There is at least one staunch advocate of the proposed South End road. That person is Wm. Druschel, a substantial citizen of Canby, who was in the city yesterday. Mr. Druschel says the building of the South End road over the route that has been proposed will be a decided

advantage to the citizens of the south end of the county. He says there is no question but it will induce a great per cent of the trade to come to Oregon City that now goes to Canby. He is positive that the south road, if established, will shorten the distance between this city and Canby by fully a mile. Mr. Druschel is enthusiastic in the matter and reports that great interest is being taken by all people in the southern part of the county over the project. They are watching the matter closely.

A vigorous cross-examination of C. O. T. Williams in one of the condemnation suits before Judge McBride Thursday afternoon failed to shake the statements of the witness in the slightest particular. Mr. Williams was asked if he thought he could drive with a load of hay through a 12x16 foot tunnel that the Street Railway Company proposed to construct in its embankment where extensive fills are being made. He replied that he thought he could. "Well, would not you have to get off the load and lead your horses through the tunnel?" questioned the attorney. This time the witness answered negatively. "How would you manage it then, Mr. Williams?" questioned the attorney. "Oh, I would throw off part of the load and make two trips." The witness was too determined in his views and the inquisitive attorney had to dismiss the school clerk without accomplishing much along the line of cross-examination.
