Owners of lands to which patents have been granted will not defeat the county of their share of taxes this year. In listing the property of the county this year. Assessor Nelson is extremely vigilant. and is overlooking nothing having ussessable value. He has visited the land office in this city and by investigating the records has discovered more than 6000 acres of land to which patents bace been issued, but the deeds to these lands having never been filed for second, the owners have escaped paying taxes. A reasonable valuation is being placed on all such lands which will be listed and made liable for taxes. Assessor Nelson is also in correspondence with the clerk of the school land office at Salem with reference to the sales of Ciackamas county lands by the state. The minute the title to these lands passes from the state, the property becomes liable for taxation. Many acres of school land have been sold and as is the case with and density of the timber growth. Tim- the patents, the deeds have not been ra stroke. The court on Thursday made a slight and form a club in time that the women ent classifications. First quality timber paying their just share in taxes. The total value of all assessable property in oud grade is assessed at \$5, while the this county on the roll for 1902 was \$4,-third and least valuable of these lands is 923,444. Assessor Nelson says the ag-assessed at \$5, Assessor Nelson con-tends that the speculators, who control county on the roll that is now being pra-the large m-jority of timberlands, should pared will exceed \$10,000,000. KEEP YOUR BLOOD CLEAN

KIDNEY CURE.

There is no disease so insinuating, so slow but sure, as kidney dis-case, or so wide-spread. The symptoms are so slight as to generally

escape notice. The first indications appear in the urine, with varied effects. The quantity may be increased or de-creased; it is likely to be highly colored and scalding; it may be pale or thin, or thick and milky with a sediment. Later on more pronounced symptoms will be present, such as dizziness, bloating, etc., with marked bladder and urinary disorders.

Gisorders. Poissoness wasts malter is collected by the blood from all parts of the sys fem and carried to the kidneys, where it is separabed and cast out through the urino. The kidneys deal with the blood only developed convictions. These urino. The kidneys deal with the blood only, deriving nourishment there-from. Hence, if the blood is bad the kidneys are not only overworked, bu underfed. How necessary is it, there-fore, that the purity and vitabity of the blood abouid be maintain ed. It is plain why the great blood purifier and strengthener-Dr. Harter's from Tonic-has been successfully used in treating kidney diseases and in preventing some, in purifying the blood the kidneys are greatly rolleved, while, at the same time, new strength and vitabity are given these errans. The following letter tells a very old arous?

PINE KNOT, KY., June 25, 1902. The Dr. Harter Medicine Co., Dayton, O. GENTLEMEN: I had a severe case o typhoid fever six years ago, which left my kidneys in bad order. I have tried number of remedies and taken treatment from doctors, but Dr. Harter's Iron Fonic has done me more good than everything else. C. CORDELL, Merchant and Mine Operator.

There are thousands of just such es as the above that are treated without results because they are wrongly treated. Mr. Cordell's condition resulted from an exhausting fever; the kidneys, as well as the rest of the system, had been wasted by disease. No wonder Dr. Harter's Iron Tonic promptly cured, scause it purified and enriched the blood, and such blood carried new strength and vitality directly to the kidneys and to all the organs.
