Ninety-Thousand Prescriptions
Prepared as the Doctor Ordered

This is a record to be proud of—It has always been our ambition to make ours the **Model Drug Store of Oregon City**—a place where your medicine would be as carefully and as intelligently prepared as in any drug store in the state. To this end we have everything obtainable in the way of modern appliances for doing this work successfully.

We buy all the new drugs and chemicals as they come out in order to meet the first demands of the physicians. We also buy everything possible direct from the manufacturer in order that there may be no question as to freshness and quality. These may seem small items but in reality they mean much to the patient.

For over a dozen years we have been carrying out your doctor's orders to the letter, during this time we have filled prescriptions written in every state in the Union, as well as thousands written by the physicians of Oregon City. We have compounded them carefully and honestly and we believe every doctor will say he always gets what he writes for when his prescription goes to Huntley's. If you trust us with your prescription we will fill it exactly as it is written (no matter by whom written) at a price so reasonable that you will come again.

Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.
