THE BANK OF OREGON CITY

will give it careful attention. This message applies to the men and the women alike.

Oregon City Enterprise TOLD IN SIDEHEADS.

TRIED FOR DIPLOMAS.—A class of forty-four young people took the regular quarterly teachers' examination in this city. Of the number, County Superintendent Zinser reports that 35 tried for county certificates, while the other nine were applicants for state certificates. This class is of average size.

CAPACITY IS INCREASED.—The Portland General Electric Company has about completed the installation of two additional generators to its large plant in this city. By this addition the capacity of the plant is increased and the company will be better prepared to meet the demand for its services during the coming Lewis & Clark Fair. By the time the Lewis & Clark exposition opens the facilities of the Portland plant in this city will be second to no other plant of its size in the country.

BROUGHT THE PROOF WITH HIM.—J. F. Clark has returned from a month's outing in the mountains beyond Lebanon, Linn county. He reports a very successful and enjoyable trip and relates that his company found an abundance of all kinds of game. Now, John's word was never doubted, but the abstractor decided that for once in his life at that rate he would back up his statements by indisputable evidence, sufficient in quantity to satisfy the most doubtful of his acquaintances. So he brought home with him a generous supply of the finest quality of dried venison, which he distributed among his friends. The writer is prepared to testify as to the quality of the delicacy.

TOOK A SHOT AT THEM.—Night Police Officer Noblitt fired at two fleeing hobos last Friday night, but no one was hurt. The noise of the explosion only accelerated the movements of the tramps, who escaped. Seven hobos were gathered together at the Southern Pacific passenger depot by Officer Noblitt, who started with the men for the city jail. In passing the station, two of the men took to their heels. They disregarded the command of the officer to halt and managed to make their escape through the crowd at the depot, the evening overland train having just arrived. The other five men were detained at the city jail for the night. Later in the night, the two runaways were taken into custody by P. S. Finocan, who at the time was a special officer for the city.

A WESTERN MARRIAGE.—This is the way the editor of a Western country paper recently wrote up a marriage ceremony in his native town: "Would that our pen had been plucked from some bird of paradise and dipped in the eye of a rainbow, that we might fittingly describe the beautiful marriage scene enacted at the residence of Mr. and Mrs. A. C. Davis. Just as the day god, clothed in majestic splendor, had started on his downward course toward the Western sea, shedding his galaxy of quivering, golden beams over the rejoicing earth—it was then that the cords of confidence, hope and love, binding the hearts of Eli Frederick Guernsey and Beatrice Davis were indelibly traced upon the scroll of life, and the sacred seal of matrimony placed thereon."

OPERATING THE ALBANY MILLS.—The Albany Woolen Mills, which have been lying idle for several weeks, resumed work yesterday. All the mill was not placed in operation, however. The carding and dyeing departments are now at work but the weaving department is yet idle. The mills are being run by the Oregon City Woolen Mill Company and the company is using only the departments here that were burned in the fire which recently destroyed part of their mill. As they are using the weaving department in their Oregon City mill they will use only the other departments here. The mills will be run by the Oregon City Company three months and then the entire mill will be placed in operation by the Bannockburn Company of Portland, who recently purchased the property.—Herald.

MAY HAVE A STATE BUILDING.—The general feeling of the Lewis & Clark Fair commission a short time ago was unfavorable to a state building, but since receiving some recent reports from Commissioners Albert and Flanders, it seems that some center where information concerning Oregon, and Oregon alone, can be had, is necessary to the best advertising of our resources. The difficulty about a building is the lack of funds, but as the Lewis and Clark Corporation will also want to advertise extensively at St. Louis, the state commission will no doubt get them to assist in the construction of an Oregon building. A fac-simile of old Fort Clatsop was strongly urged as a suitable plan for such building.

log, should one be constructed. A committee was appointed to report on the style of building and the approximate cost at the next meeting, when the matter shall be definitely settled.

IS PORTLAND FOR A FIRE.—C. H. Williams, who has been so competently serving as local correspondent for the Portland Telegram, has been called to the city for a few days' work on the force of news gatherers for that publication in that city. He expects to return within a few days and resume his work in this city, which in the meantime is being covered by a representative of the Telegram sent up from Portland.

OF GREAT HISTORICAL INTEREST.—The Quarterly of the Oregon Historical Society for June, 1903, has been received. As usual every article it contains is of vital interest to every student of Oregon history, as the following table of contents indicates: "Oregon and Its Share in the Civil War," by Robert T. Platt; "The Great West and the Two Easts," by Henry E. Reed; "Social and Economic History of Astoria," by Alfred A. Cleveland; "A Pioneer Captain of Industry in Oregon," by Prof. James K. Robertson. In addition a number of documents relating to Dr. Marcus Whitman, the emigration of 1842-3 and the earlier conditions of the Oregon Country. Copies of the quarterly may be secured by applying at the Society Rooms, City Hall, Portland, Oregon.

HOSE TEAM GOES TO ASTORIA.—The members of the Oregon City fire department left Monday afternoon for Astoria where the local hose team will participate in the races that have been arranged in the firemen's tournament that is to be held in connection with the tenth annual regatta. Manager Lawrence Ruconich and Captain C. W. Pope accompanied the team which is composed of the following named volunteer firemen of this city: F. T. Brown, W. Peters, L. C. Miller, R. W. Kroitz, R. C. Hall, E. Williams, A. Cox, O. Thompson, M. F. McGinnis, S. J. Burford, Dr. C. L. Love, George Helmer and George Brown. This team has been training diligently for several weeks and expects to return with a good share of the purse money that has been offered as prizes by the regatta management.

OREGON ENGLISH WALNUTS.—Dr. Gouche planted about one hundred English walnut trees on his foothill farm last spring, and intends setting a larger number next year, and in order to secure profit from the land while they are growing, he will plant alfalfa between the rows of walnut trees. English walnuts grow and mature to perfection in this climate. There are a number of trees throughout the valley that were planted some years ago merely for ornament and without any regard for profit. They are now paying ground rent for themselves. There is a tree in Mrs. S. Cozine's garden in this city that commenced bearing when four years old, and is so heavily laden this summer that all the lower branches have pings under them swaying to the ground. This tree has always matured its fruit and this fact alone has contributed much toward inducing other people to engage in the culture of the English walnut.—Yamhill Reporter. (McMinnville.)

STATION A SHUTS DOWN.—Because of the extreme low stage of the Willamette river, the management of the Willamette Pulp & Paper Mills has found it necessary to close down Station A, which is located on this side of the river. It is in this mill that the pulp is prepared by which the paper is manufactured in the mills on the West Side. The closing down of Station A, however, will not interfere in any way with the operation of the main mills of the corporation since there is a sufficient supply of pulp on hand to keep the mills going for several weeks. By the suspension of operations in Station A thirty five men are thrown out of employment but these laborers will readily find work in the harvest fields or hop yards. It is expected that the stage of the river will be such that work can be resumed in Station A by September 15.

TOOK THE WRONG TEAM.—Peter Burgess is a wood-bauler who lives on the Abernethy road about three miles from this city and when not duly sober, it is said mistakes other people's property for his own. Such was the case Monday of this week. Burgess came to town and before he was ready to start home he is said to have felt rather hilarious. Instead of taking his own team he untied the horse belonging to Mr. Hargreaves and getting into the buggy drove to his home. Chief of Police Burns was notified and recovered the property and also brought Burgess to this city where he was lodged in the city jail charged with larceny. An investigation of the case showed that Burgess was intoxicated at the time he took the horse and buggy and it was decided not to prosecute the case in the courts.

FELL FROM STREET CAR.—A young woman, named Ruslake, fell from the Portland Oregon City street car near Sellw. on Monday evening and narrowly escaped serious injuries. The car was approaching the point where the young woman desired to dismount, and she signalled the conductor on the trailer where she was riding. He sounded his whistle, but the conductor on the closed car did not hear the signal, which was repeated in a few seconds, but before the cars came to a standstill Miss Ruslake stepped from the moving cars. She fell upon her head and was rendered unconscious. It was fully twenty minutes before she regained her senses, and for a time it was feared that she was seriously hurt, but other than being badly bruised and shaken up, the passenger escaped uninjured.

Not Over Wise

There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to build a family cellar, and neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by G. A. Harding.

Bear in mind that at the Kackot Store they are selling goods below cost while they last.

WILL BUILD AT ONCE.

Woolen Mills Company Expects to Resume Work October 15.

The Oregon City Manufacturing Company has asked for bids for the construction of buildings at its woolen mill plant in this city to replace the ones that were burned last month. Structures for the accommodation of the boiler room, dye house, pulley and other outside buildings will be erected. The cost will approximate \$30,000. Most of the buildings will be of wood and corrugated iron and the principal structures will be three stories high, and will be directly connected to the main building. The management of the mills expects to have the improvements all completed and resume the operations of the plant in this city by October 15. In the meantime, the local company has leased the woolen mills at Albany and is running that plant until the Oregon City mills are again ready.

In replacing the buildings that were burned, the Oregon City Manufacturing Company proposes to guard against further loss by fire. The main building and also the adjoining departments of the big factory will be equipped with an automatic water sprinkling system that will cost the company \$10,000 to install. It consists of a series of water pipes that are distributed throughout the buildings and from which is released a bountiful supply of water whenever the pipes become heated above a normal temperature. The pipes are so arranged about the ceiling that the flowing of water, simultaneously, from all of the pipes, will reach and protect every foot of space within the building.

Have Moved Into New Quarters.

Oregon City now has a first class gun and bicycle store. Lamb & Sawyer, proprietors of the Oregon City Gun & Bicycle shop, have removed their business from their old quarters to the store room recently vacated by McKittrick, the shoe dealer, in the Oregon City Bank building. They have purchased the stocks heretofore carried by Huntley Bros. and Burmeister & Anderson and are better prepared than ever to serve the trade. Bicycle, gun and general repairing is a specialty with the firm. August 28.

TO ASTORIA REGATTA.

Special Excursion Rates From Portland to Astoria and Return for Astoria Ninth Annual Regatta, Held August 19, 20, 21.

During regatta week the Astoria and Columbia River Railroad Company will sell round-trip excursion tickets from Portland to Astoria and return at rate of \$2 for round trip. Tickets on sale for evening train of Aug. 18th, and all trains of Aug. 19th, 20th and 21st, good to return Aug. 24th. Call for tickets at 248 Alder street and Union depot.

Crowds Going to the Circus.

Intense interest has been aroused in this community by the announcement that Ringling Brothers' immense circus is to exhibit in Portland Monday and Tuesday, August 24 and 25. Several big excursions will go from this vicinity and local people will be well represented at the big show. Those who go from here should make every effort to arrive in time to see the magnificent new free street parade, which is given in the morning preceding the opening performance. Three miles of parade glories are divided into thirty sections, and each section is a show in itself—a parade such as the world has never seen before. In this wonderful display are shown 108 beautiful dens, lairs and cages of rare wild animals, a herd of forty big and little elephants, fifty horses, and over one thousand people. One section of the procession is devoted to magnificent and costly floats representing Germany, Russia, England, France, India, Persia, Scotland, the United States, and other countries. The performance that follows, and which includes the superb spectacular production of Jerusalem and the Crusades, is the most magnificent display of aerial wonders ever presented by any amusement enterprise in America. The menagerie is filled with over-flowing with rare beasts and birds, including the only baby elephant bred and successfully raised in the United States, the only rhinoceros in captivity and the last living pair of giraffes.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail from Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

GREAT CLEAN-UP SALE

We will offer to the public for the next 30 days record breaking bargains, in odds and ends, of our immense stock of up-to-date merchandise. Note a few of our many specials:

50 pair of W. L. Douglas celebrated \$3.50 shoes and Oxfords to go at \$3.00. 25 two-piece Outing suits, regular price ranging from \$8.50 to \$12.00, reduced to \$6.25. Many up-to-date styles of the reputable Mallory \$3.00 hat reduced to \$2.25.
