the women alike.

Oregon City Enterprise

TOLD IN SIDEHEADS.

IN INTEREST OF ORGANIZED LABOR.—George Estes, of Chicago, president of the United Brotherhood of Railway Employees, will address the laboring people of Oregon City at Willamette hall next Monday evening. It is expected that State Labor Commissioner Hoff will be in attendance at the meeting and deliver an address also. The meeting will be held under the auspices of the organized trades unions of this city. Mr. Estes is making a tour of the West in the interest of organized labor.

THE EDITORS ARE INVITED.—President Prael, of the Multnomah Amateur Athletic Club, has extended a cordial invitation to the newspaper men of the state to attend the big Fall Carnival in Portland, September 14 to 26, inclusive, and asking them to make the club their headquarters while in the city. The Multnomah Club's home is the handsomest on the coast, and the organization stands for pure athletics. It is safe to say that the big Fall Carnival will be the best ever given in Portland.

POPULAR PLACE OF RECREATION.—The attractions at Canemah Park Sunday included a program by the Ladies Band of Portland, and an eleven inning game of baseball between the Canemah and West Side teams. It resulted in a victory for Canemah, the score being 5 to 4 and was one of the most interesting amateur games that has been played here. There were no particularly brilliant features in the game which was well played throughout by both teams. The attendance at the park Sunday was even larger than ever. Canemah Park is becoming one of the most popular resorts in the state for Sunday recreation.

CAUGHT A PORCUPINE.—William Jennings, who lives on a farm a short distance north of this city, reports having killed one day this week, a full grown porcupine on his premises. The animal weighed about thirty pounds. This is the first porcupine that has been killed in this section of the county in fifteen years. These animals are very rare in the Willamette Valley now although Mr. Jennings reports evidences of another porcupine on his ranch. They subsist almost entirely on wild berries and fir burrs. The specimen captured by Mr. Jennings was driven into a tree stump by a dog where it was clubbed to death.

FROOD OF HIS NEW WAGON.—Chris Hartmann, local representative for the Weinhard brewery, is putting on all sorts of airs lately but he is the same big-hearted Chris just the same. Last week he spent a few days at Astoria taking in the sights incident to the regatta and when he returned he brought with him a brand new red wagon of improved make and attractive pattern to be used in distributing his company's beverages to local patrons. The wagon is suited to the needs of the service for which it is intended and is a durable vehicle. Chris has every reason to feel proud of his new possession.

MORE ROADS TO BE BUILT.—“The building of the Springwater branch of the Oregon Water Power & Railway Company will necessitate the expenditure by Clackamas county of a considerable amount of money in the building of new roads in that section,” said County Judge Ryan who returned last Friday night from a road and bridge inspecting trip to Boring and vicinity. “Before the building of this branch of the electric railway, all roads led to Portland and now with the establishing of trading points along the company's railway, the people desire that highways be provided by which these points may be reached from the old established roads. The building of the roads in this section will necessarily be expensive since the country through which they will pass is heavily timbered.” Some action looking to the building of these roads will likely be taken at the September meeting of the county court.

RETURNED WITH SECOND MONEY.—Manager Ruconich, Captain Pope, and the other members of the Oregon City hose team returned Saturday evening from Astoria, where they went to participate in the hose races at the regatta. In every event for which they contested, the Oregon City boys received second money amounting in all to about \$200. While of course they would have been better pleased had they captured the larger purses in those events, they say they did the best they could do. In the initial race of the tournament, the first money was awarded the Astoria team by a fifth of a second over the Oregon City contestants. This is considerably closer figuring than the local team had been accustomed to. Rather than declare for the Astoria team by so close a margin, it occurs to the average person that the

management of the regatta could more gracefully have declared the race a tie, and caused the event to be given again. At any rate, there could have been little satisfaction to the Astoria team in taking the money under the conditions. It is not an impossibility that the firemen of this city may arrange to give a tournament in this city next year.

WILL CEASE SHAVING OTHERS.—William Griffith and son, G. E. Griffith, of this city, have sold their Broadway group of mines in the Bohemia District to the Oregon Surety Company. It is understood that the consideration was \$30,000. The purchased property adjoined other mining claims owned by the Oregon Surety Company and this made the Griffith mines a desirable purchase. G. E. Griffith has for a number of years conducted a barber shop in this city but with the competency he has realized from the sale of his mining interests, he will retire as a tonorialist.

NEW TEACHER ELECTED.—Miss Shannon, of the Canemah public school, has been elected a teacher in the Oregon City schools to succeed Miss Taylor, who has resigned to accept a position in California. The school board is having thirty new seats installed in the Eastham building for the accommodation of the increased attendance that is expected this fall. Sanitary conditions at both the Barclay and Eastham buildings are being improved by the making of sewer connections that will cost the district nearly \$1000. The Oregon City public schools will open Monday, September 21.

OREGON FISH AT ST. LOUIS.—Hon. Geo. T. Meyers, the superintendent of the fisheries exhibit at the St. Louis Exposition, has already made his report on space, as he is thoroughly familiar with this line of work, but he says it will be impossible to keep tanks with live salmon, trout and other native fishes in them at St. Louis. He contemplates keeping a hatchery in the space he requires, showing the egg and little salmon after it is able to take care of itself. Mr. Meyers took to Chicago an 82 pound salmon, frozen in a block of clear ice; but the ice melted so rapidly that it was on exhibition for only a few days, and its keeping and transportation cost nearly \$1200. It will be better to preserve salmon in alcohol or stuff them.

CANNOT REMAIN IN PORTLAND.—The gunboat Concord and Cruiser Marblehead, of the North Pacific squadron, will not remain in Portland during the coming Multnomah Club carnival. Dr. W. E. Carl, of this city, returned Monday from Portland and Astoria where he had an interview with Rear Admiral Glass, of the North Pacific squadron, who informed him that because of plans and arrangements that have been made for some maneuvering by the squadron, it will be impossible for the two vessels to remain in Portland for a longer period than a few days. Because of the lateness of the season, Admiral Glass says it is positively essential that the training be had and under the arrangement that has been made it will be impossible to expense the two members of the fleet from participating therein.

MAY BURN OIL TOO.—If the experiment of the Crown Paper Mills of this city in substituting oil for cordwood as a fuel, proves successful, the Oregon City Manufacturing Company contemplates making the same change in its woolen mills in this city. At the present time, the woolen mill people operate the main part of their factory by water power, but steam is employed to run the dye room and finishing departments of the mill. For this purpose the mill annually uses about 2000 cords of wood that is purchased in the open market. The management of the woolen mills has had in mind the burning of oil for some time, but has hesitated about making the substitution until its use as a fuel is satisfactorily demonstrated. In the replacing of the buildings that were recently destroyed by fire, the woolen mill people may decide to install oil burning machinery.

LOOKING FOR CORRESPONDENTS.—A young man at the Ross House opened a small sack of Bull Durham smoking tobacco last evening and found neatly tucked in the cloth sack the following note: “To the Buyer: Give this to some pretty girl and tell her to write at once to Frank Harward, Durham, N. C., July 2, 1902.” The note was copied and several messengers started post haste throughout the city, giving the address to every girl they met, as all the Oregon girls are pretty. Mr. Harward, we suppose, will imagine he has been elected secretary of a Mormon immigration society when the dainty little notes commence to arrive at his home away back amidst the tobacco fields of “Old Carolina.” The girls will doubtless tell him of the beauties of the Webfoot state, and if he can withstand their diplomacy and tact he has passed all hopes of redemption.—Albany Herald.

GOOD CROP OF ALFALFA.—Alfalfa is a thrifty crop again this season on the farm of Major James Bruce, 10 or 12 miles south of town. An eight acre tract from which three abundant crops were cut last year has been given up entirely to pasture, and as such, is most prolific. On other plats about the house a second crop, now three feet high is ready to cut. The first crop from the same ground was four to four and a half feet high. Major Bruce says the roots penetrate the ground to a depth of 10 feet or more. He has no doubt that alfalfa can be grown in almost any ground where there is not a clay soil for the roots to penetrate. What the plant would do in such ground he does not pretend to say. On the Bruce farm the roots go to a layer of gravel where there is abundant water.—Corvallis Times.

Not Over Wise.
There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a family cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, the cyclone victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by G. A. Harding.

Bear in mind that at the Racket Store they are selling goods below cost while they last.

PE-RU-NA NECESSARY TO THE HOME.

A Letter From Congressman White, of North Carolina.

HON. GEORGE H. WHITE.

Congressman George Henry White, of Tarboro, N. C., writes the following letter to Dr. Hartman in regard to the merits of the great catarrh cure, Peruna: House of Representatives, Washington, Feb. 4, 1899. Peruna Medicine Co., Columbus, O.: Gentlemen—“I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy.” Very respectfully, George H. White.

Mrs. Nannie Wallace, Tulare, Cal., President of the Western Baptist Missionary Society, writes:

“I consider Peruna an indispensable article in my medicine chest. It is twenty medicines in one, and has so far cured every sickness that has been in my home for five years. I consider it of special value to weakly women, as it builds up the general health, drives out disease and keeps you in the best of health.”—Mrs. Nannie Wallace.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

REPAIRS AT COURT HOUSE.—Contractors Johnson & Andrews have about completed the re-modeling of the Clackamas county court house. The fire and burglar proof vault for the safe keeping of the county records is finished and extensive changes are being made to the interior of the county's capital building. The rooms heretofore occupied by County Clerk Sleight, have been partitioned and will provide quarters for himself and Sheriff Shaver whose office room will be taken by Recorder Stevens for whose department the new vault was provided. The making of these changes in the offices makes room for County Superintendent Zinser who will take the office vacated by Recorder Stevens. Heretofore Superintendent Zinser has been located on the second floor of the court house building. All of the offices are being supplied with counters and other up-to-date office furniture.

Have Moved Into New Quarters.

Oregon City now has a first class gun and bicycle store. Lamb & Sawyer, proprietors of the Oregon City Gun & Bicycle shop, have removed their business from their old quarters to the store room recently vacated by McKittrick, the shoe dealer, in the Oregon City Bank building. They have purchased the stocks heretofore carried by Huntley Bros. and Burmeister & Anderson and are better prepared than ever to serve the trade. Bicycle, gun and general repairing is a specialty with the firm. August 28.

WANTS A DIVORCE.—Joanna McCauley, of Portland, has instituted divorce proceedings in the Clackamas county court against W. A. McCauley, whom she charges with drunkenness, cruel treatment and desertion. The parties were married in Portland in April 1897. Besides a decree of divorce, the woman asks for the care and custody of one minor child.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Birmingham, N. Y., on every bottle.
