After some discussion the motter was referred to the committee on finance for investigation and report. In this same connection, the matter of continuing the improvement of this street by the contractor, Mr. Bittner, was left to the committee on streets and public property. MILKMEN IN A COMBINE.

Cost of This Household Necessary Has Been Advanced.

The dairymen of Clackamas county have formed a combine by which the price of milk to the consumer has been advenced. Restaurant men and individual consumers are obliged to meet the advance in price. The milkman now receives 20 cents a gallon, whole-sale, or \$2 per quart, delivered, per month.

This increase in prices by the dairymen is explained by the unprecedented high prices that are charged for all kinds of feedstuffs for cattle. Good hay now costs \$12 per ton while bran and shorts are quoted at \$22 and \$23 per ton. Under the old schedule of charges for milk, it was impossible for the dairyman to come out even.

TWENTY BOYS TESTED.

Boys, Paste This in Your School Books.

That cigarette smoking is detrimental to boys both in mind and body is so generally admitted that any argument of the question is trite and hackneyed, though some observations made by Professor P L. Lord and presented in a recent number of The School Journal are worthy of consideration. A public school of about five hundred pupils was taken as an example, and in this school it was found that the boys were very much inferior to the girls in every way. It was also found that a large majority of the boys

were habitual cigarette smokers. An investigation was ordered to ascertain exactly how far the smoking was to blame for the boys' inefficiency and low moral condition The investigation extended over several months of close ob-

Boys will be boys, and the purloining of melons comes within the characteristics of the "juvenile population" of any community. But a company of Oregon City boys made one too many invasions of the Chinese melon garden Wednesday night, and as a consequence the entire crowd, numbering ten, was taken into custody and marched to the city jail-The lads were frightened half out their senses with the prospect of spend-ing the night in the city hastile, but were finally released on their own re cognizance and directed to report at the police court Thursday evening. They will probably get off with a severe reprimand from Recorder Curry.

The Enterprise will not publish the names of the lads, a majority of whom

are the sons of prominent Oregon City families, but it is hoped the incident will prove a valuable lesson to those directly concerned as well as others. The dis-position of young boys, too frequently, is to trespass and carry away that which does not belong to them, and when the prospective victim is a Chinaman, the character of the misdemeanor and the extent to which it is carried, is multiplied. The Enterprise does not champion the cause of the Chinaman, or any other one class of individuals, but we do insist that these sort of depredations should be suppressed and punishment meted out to those who practice the same, especially when they are boys who know better, as was the case in this instance. Trespassing is trespassing whether the offense is committed on the land of a white man or in the melon patch of a Chiuman, as was the case Wednesday night.
