Clackamas.

A steam-saw has been in town the past week or two. Huge piles of cord wood in evidence along the streets are rapidly assuming splitting dimensions. A unique outfit passed through town the other day. It was a team, or yoke of oxen hitched to a wagon with a regular harness—collar, tog and neck strap, and driven with lines. The drivers flourished each a whip and seemed to greatly enjoy the sensation created. A Clackamas farmer has lately been hauling pumpkins to some canning establishment near Portland. He delivered 20 tons at \$4.00 per ton. The grangers had a lively meeting last Saturday at Odd Fellows' Hall. It is rumored that two enterprising companies have bought the Southern Pacific R. R. line from Milwaukee through Clackamas and propose to make it an electric. A consummation devoutly desired! Later—Rumor confirmed. A boom for Clackamas! Mrs. J. J. A Typical South African Store

O. R. Larson, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railroad station and about twenty-five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of 20 miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must be a record." For sale by G. A. Harding, druggist.

Dover.

The rain has spoiled most of the prunes in this vicinity. Rev. Exon started today to his preaching place at Sheridan. The early potatoes are good but all the late planting is struck with the blight. Mr. Exon sold 8 head of Jersey cows to Jim and Jake DeShazer who are going into the dairy business. Last Monday was as fine a day as we have had the past summer, sunshine and very warm. We feel in hopes it will still continue till the farmers get their potatoes dug and their grain sowed. The Dover M. E. church was dedicated last Sabbath by Dr. Watters, the presiding elder. He was blessed with a nice day and a good crowd. Dr. Watters preached a very interesting sermon. There was a \$70 debt on the church. This was a donation asked for and in a few minutes the \$70 was raised and now our little church is out of debt and we all thank the people who donated to it. After the morning service there was a long table spread with everything that was delicious. After dinner Rev. Mr. Black preached to the crowd. Mr. Black is the preacher on the Viola charge. There will be preaching next Sunday at eleven o'clock.

Robbed the Grave.

A startling incident is narrated by J. Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50c. Guaranteed at Charman & Co.'s drug store.

There is to be a social dance at Barlow Saturday evening, Oct. 17. All are invited to attend. Mr. and Mrs. Smith and family, of Portland, were the guests of Mr. and Mrs. W. S. Tull Saturday and Sunday. Mr. and Mrs. T. Miller, of Oregon City visited Saturday and Sunday with relatives and friends at Barlow. The grange held its regular meeting Saturday, Oct. 10. Owing to the busy time not a very large crowd was present but a very enjoyable time was had by those who were able to attend. The ladies served a very dainty and appetizing lunch at noon to which all did ample justice, after which the meeting was called to order and a few items of business transacted. A very pleasing programme of music, singing and recitations was listened to and enjoyed very much. The next regular meeting will be held Saturday, Oct. 31. All members are requested to be present. D. O. Freeman was transacting business in Portland Wednesday. W. W. Jesse, M. S. Barlow, Miss Tull and R. E. Bratton visited the grange at Molalla Wednesday. Mr. and Mrs. A. CHAMBERS HOWELL LINN E. JONES

Beaver Creek. Our school will begin next Monday under the supervision of Miss Jessie Blank, of Portland. Miss Laura Parry has left to attend school at Oregon City.

Stafford. Beautiful Oregon weather again. Grapes are ripening fast. Nearly every farm has a few, enough at least for its own consumption and a few to spare, while a few boast of nice vineyards.

Conspicuous. "You have been conspicuous in the halls of legislation, have you not?" said the young woman who asks all sorts of questions.

Henry Shannon has purchased a new traction engine and has begun baling hay. W. Parry has returned home from Wardner, Idaho, from an extended trip. Thos. C. Thomas, of Greenwood, visited friends here this week.

Chinese bombs startled the evening air on Monday. Citizens rush to their doors thinking no doubt that the czar's peace convention had taken effect and some one was bound to have peace if they "bl" for it. In the course of the next day it transpired that young Kolinger and Miss Barber had got married.

Yes, miss, answered Senator Sorghum blandly; "I think I have participated in some of the richest hauls that legislation ever made."—Washington Star.

Miss Mary Jones and S. P. Lundigan were married at the home of the bride. The relatives were the only invited guests. The couple was respected young people of the vicinity and a large circle of friends wish them a long and happy life.

Some of our young men have purchased the necessary outfit to start a brass band. A very commendable undertaking. Mrs. Powell expects her mother and sister to see her the 15th. Her sister will be married soon.

Upgardson—I was sorry to hear that Skimmerhorn has had the smallpox. Did it disfigure him much? Atom—Disfigure him? No; it improved him. It changed his expression.—Chicago Tribune.

A. Thomas and A. Staben have returned from the prune plains of Washington, and report that the soil in that part of the county is adapted for prunes and for nothing else but prunes. The soil is gravel, running all the way from the size of a quail's egg down to sand and dries out in the warm days of Summer so that products not rooted at least 18 inches deep will wither and die. The prune crop on the old orchards which

Mrs. John Q. Gage and children are visiting at the old home. They came up from St. Helens last Saturday. Mrs. Mimick has returned home after a summer's visit with her parents in Nebraska. A few are digging potatoes but the majority of late potatoes are green and growing yet.

Professors, I know a man who says he can tell by the impression on his mind when his wife wants him to come home to dinner. Is it telepathy? "Not at all, miss. I should call that mendacity."—Exchange.

Mr. Barbara Moser has left for Spokane to spend the winter with her brother. Mr. Wolfe and Mr. Schewie, both former residents of Stafford, were shaking hands with old neighbors a few days ago. Mr. Weddle has finished another cistern on his place.

The genuine vs. counterfeits. The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroughly appreciated than when you compare the genuine DeWitt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market. W. S. Ledbetter, of Shreveport, La., says: "After using numerous other remedies without benefit, one box of DeWitt's Witch Hazel Salve cured me." For blind, bleeding, itching and protruding piles no remedy is equal to DeWitt's Witch Hazel Salve. Sold by G. A. Harding.

Some people who jump at conclusions lose sight of the hurdles.—Philadelphia Record. The reward of one duty done is the power to fulfill another.—Elliot.

Nasal CATARRH In all its stages. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly. Buttons. The Elizabethan era gave vogue to the button and the buttonhole, two inventions which may fairly be regarded as important, since they did much to revolutionize dress. The original button was wholly a product of needlework, which was soon improved by the use of a wooden mold. The brass button is said to have been introduced by a Birmingham merchant in 1680. It took 200 years to improve on the method of sewing the cloth upon the covered button. Then an ingenious Dane hit upon the idea of making the button in two parts and clamping them together, with the cloth between. Buttons are now made of almost everything, from seaweed and cattle hoofs to mother of pearl and vegetable ivory. Excellent buttons are made from potatoes, which, treated chemically, become as hard as ivory.—Boston Transcript.

BONE FOOD Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on through the list. Scott's Emulsion is the right treatment for soft bones in children. Little doses every day give the stiffness and shape that healthy bones should have. Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads. Wrong food caused the trouble. Right food will cure it. In thousands of cases Scott's Emulsion has proven to be the right food for soft bones in childhood. Send for free sample. were between 20 and 30 years of age was about 2 to 3 1/2 boxes to the tree, but the younger trees from 10 to 15 years old was about 3 1/2 to 4. The price for picking per ton was \$2.25 or about 6 1/2 or 7 cents per box. Prune dryers wages were \$2.75 and \$3 and board and helpers \$2 and \$2.50 and board yourself. Vegetables were scarce as they could not be raised, although the water supply was pure and deep. Almost every dryer had a wind mill and for from 3 to 5 weeks there was not enough wind on them plains to keep one foot of water in the tanks. But the best of all was the 7 kill steam dryer which dried about 20 tons per day and cost \$17,000. This is the largest dryer on the coast and is situated in the middle of the best prune plain. The orchards averaged all the way from 80 to 900 acres and are as well kept as most of the potato ground in this section.

A Great Sensation. There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for consumption. He writes: "I endured insufferable agonies from asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of consumption, pneumonia, bronchitis and grip are numerous. It is the peerless remedy for all throat and lung troubles. Price 50c and \$1. Guaranteed by Charman & Co., druggists.
