Representative Hans Passon, of George, writes the Enterprise as follows: "I saw a statement in the Enterprise regarding my views of a special session of the legislature but this is as I expressed myself to the Governor. As I understand the Constitution, the prerogative of calling a special session of the legislature is vested solely in the Governor. He must be the judge of the necessity of convening the legislature in special session and under such circumstances I do not feel that I could in justice either to him or to myself advise him in the premises or make any promises as to what I should do when called to act as a legislator; while it is my opinion that no legislation is needed at this time along other lines, than to make a law so that the taxes may be legally collected, there might be matters that might arise or be brought to my attention that it would seem to me should be acted upon when in session. I do not know of anything that demands such action, but if called to act I should not like to be pledged to turn down some meritorious measure that would in my honest judgment be of benefit to my constituents."

Many of the correspondents to the Enterprise from throughout the county have become careless in their work of recent weeks to the extent that their respective localities are not represented in the columns of the paper as regularly as they should be. We would request that our correspondents send in a letter every week covering the happenings of the week. In this way the events are published while they are news. We would prefer to print only three items from each section each week and have them while they are readable news than to have a greater amount of correspondence at irregular intervals. With this explanation, we hope our representatives throughout the county will endeavor to send a letter each week. We will gladly furnish correspondents with stationery if their stock is exhausted. The Enterprise is endeavoring to furnish the people of Clackamas county the best county paper that has ever been published in the county and in doing so the correspondence page

Probably fifty per cent of the population of Oregon City went to Portland yesterday afternoon to witness the annual game of football between the Multnomah Clubmen and the University of Oregon team from Eugene. In an interview Wednesday, Representative Herman A. Webster, of this county, stated that he would not favor the repeal of the Portage Railway bill except after much deliberation. He is of the opinion that the condemnation of the bill will not have been disposed of before the time for holding the next regular meeting of the state legislature arrives and by that time the intention of the government will be better known. Representative Webster voted against the bill appropriating the \$185,000 for this improvement but at the same time he does not think the law should be repealed hastily.

Every hat in the store reduced. Miss C. Goldsmith.

Fred David, a motorman on the Oregon City-Portland street car line of the Oregon Water Power & Railway company, has frequently hunted for Chinese pheasants but he never got one so easily as he did Wednesday. He was coming towards Oregon City on one of his trips and when near this city observed that two pheasants had nested themselves on the railway track immediately in front of the approaching car. He stopped the car as soon as possible but got out after he had passed the place where he saw the birds. Going back a few rods, he found that one of the pheasants had been killed by the other one had escaped. The result was that the motorman had pheasant for breakfast Thursday morning.
