PROVERBS

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. soc. and fr. co.; all druggists.

The cantata given under the auspices of the Union Sunday-school last Wednesday evening was a pronounced success in every way. The proceeds, which netted \$20.35, went towards the purchase of scenery for the assembly hall.

Little Miss Taylor of Oregon City, deserves much praise for the way in which she delivered her song, "Won't You Buy My Fruit," on the stage in Parkplace last Wednesday evening.

A Prisoner in Her Own House

Mrs. W. H. Layha, of 101 Agnes Ave., Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed for by physicians with no noticeable results. A friend gave me part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time, after using it for two weeks, have no hesitation in saying I realize that I am entirely cured." Congratulations.

John H. Cullom, editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy." For sale by G. A. Harding.

A Bit of History.

Editor Enterprise, Dear Sir: Permit me to say in your last issue I read the story of Johnson's first tailoring, which brings to my mind a bit of his history, which I learned during the Civil War. A portion of Sherman's army, to which I belonged, were encamped in the city of Raleigh, N. C., when the news reached us of Abraham Lincoln's assassination, which so enraged the soldiers that the officers feared they would burn the city. Consequently, guards were placed at various places throughout the city, and it fell to my lot to guard the property of an old gentleman who seemed to be quite intelligent and obliging. He conversed with me freely and among other things, stated that he was a tailor and had taught Andrew Johnson his trade, at the same time pointing out the old building in which they worked. In conclusion, he said that Johnson got into trouble and ran away from the city and that he was then about nineteen years of age and did not know the letters of the alphabet.

He went to the town of Columbia, Tenn., where he married a lady who was intelligent and wealthy. She educated him and he afterward became governor of Tennessee, vice-president and subsequently president of the United States. His residence in Columbia was previously pointed out to me. Yours Respectfully, J. A. HICKMAN, Ains, Ore.

HEALTH

"I don't think we could keep house without Theford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy." - JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, cures the constipated bowels and invigorates the torpid liver and weakened kidneys

No DOCTOR

is necessary in the home where Theford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad toilet, headaches, diarrhoea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.

All Are Interested In This. A little more than a year ago the energetic people of Mt. Pleasant started a fund for a sidewalk, to be built from that beautiful suburb to Oregon City. It was immediately decided by the committee in charge to build a good, substantial three-foot crosswalk, which was started and has progressed rapidly. The fund is now large enough to extend the walk to the city limits, but there are several hundred feet before it will join the city walk. While the Mt. Pleasant people are still willing to contribute to this fund, they earnestly solicit the assistance of the merchants and business men of Oregon City, and it is only just that the city authorities should consider this matter and do their part. Contributions will be gratefully received by the committee in charge, and it is hoped that the city part of this walk may soon be completed. The Mt. Pleasant residents desire to express their thanks to all who have contributed, and especially to Hon. T. F. Ryan and Hon. N. R. Lang, who so liberally aided in this enterprise. Remember that the payment of \$1.50 on subscription to the Enterprise, whether it be delinquent subscription or in advance, entitles you to a guess as to the amount of money in the Enterprise money jar. One guess for every \$1.50 that is paid. Here is a chance to get your money back and be liberally compensated for your time in estimating the amount of money contained in the jar. Stafford.
