

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.

MANY DISTRICTS SPEND MONEY Some School Improvements Reported in Clackamas County.

Improvements have been made very generally in all of the school districts of the county during the year that has just ended. Many of these districts have reported to County School Superintendent Zinser the character of the improvements made and he has compiled a list of the same together with the name of the district clerk making the report.

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick, of Colusa, Calif., writes: "For 15 years I endured insufferable pain from rheumatism, and nothing relieved me though I tried everything known. I came across Elic tric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for liver and kidney trouble and generally debility. Only 50c. Satisfaction guaranteed by Charman & Co., druggists.

Wm. S. Crane, of California, Md., suffered for years from rheumatism and lamboago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. For sale by G. A. Harding.

OCEAN LINERS IN PORT.

The Work That is Done by the Crew That Never Sails.

The captain's authority over an ocean liner, and equally, of course, his responsibility for her, extend only over the time when she is crossing the sea. Practically the responsibility ceases when she approaches land on either side, for the pilot assumes charge of her navigation as soon as he comes aboard. When the ship arrives at her pier, or as soon, to be exact, as she is within hailing distance, the captain is no longer in control. She is then under the authority of the marine superintendent, who is in command of the piers and tugs and harbor front equipment of the line and who takes charge of the docking of all vessels.

To bring a giant liner to rest at her pier is a delicate operation. The dow of the tide, the headway imparted by her engines before they stop, the depth of the water, must all be taken into consideration, for the quarters are narrow, and if she were to ram the pier it would mean a bad smashup. But with the skill of long experience the superintendent, by voice and hand, controls the great vessel perfectly, and with tugs helping her and cables drawing her she glides into her resting place as quietly and easily as a tired child slips beneath the covers at night.

Practically, from the moment when the liner is made fast she is turned over to the crew that never sails. Her officers remain on duty, and their work is as arduous and almost as incessant in part as at sea. But the law requires that the crew of each vessel shall be paid off and discharged at the end of every voyage. In the case of the liner they are again signed immediately, but during the period while the vessel lies in port they are not officially connected with her, and the work which naturally would fall to their lot is performed by the port crew.—Earl Mayo in Leslie's Weekly.

BOY BATTLES.

Let the Youngster Learn to Stand Up For His Rights.

Have you forbidden your son to fight under severe penalties? And have you sent him to a public school hampered by this injunction? This is the infallible result: Either he will fight and deny it to you, which is far more blameworthy than fighting, or he will, if a strictly obedient boy, refuse to fight or to resent imposition, and thus gain the reputation of a "milkop" or "sissy," and his school days will be made miserable by the injustice of this stigma and by the indignities and annoyances to which he will be subjected by his mates. If you find your boy quarrelsome and inclined to impose upon other and younger boys punish him as severely as you wish. I am fully in accord with you there, for a quarrelsome, tyrannical bully is a nuisance in any school; but as long as there are schools so long will there be quarrelsome, tyrannical bullies, and you and I, my dear madam, wish our boys to take these bullies in hand and thrash them. Now, isn't that so?

Do you suppose that Patty was any the worse for his fight with Fishy? And when, in after years, Patty became one of the best football players and came rusher that Dartmouth college ever boasted and one of the best business men in New Hampshire is there any doubt that this fight had some influence—a slight influence, perhaps, but still an influence—in producing this development? And do you suppose that he was any the less a gentleman and a good citizen from having learned to stand up for his rights and to resent improper interference with his affairs? Let your boy learn to box, to wrestle, to fence, and so develop every muscle. I never yet saw a boy who knew how to box strike with a club, a stone or a dangerous weapon.—Judge Henry A. Shute in Leslie's Monthly.

Dangers For Timid Diners.

If one were to study the subject and rightly avoid eating all things that are reputed to be bad for one's health in one way or another, it would probably be difficult to keep starvation at bay. The list of things which cannot be eaten with safety by those who have a tendency to appendicitis is a very long one. A prominent scientist declares that one of the deadliest sweetmeats is preserved ginger; but pineapple, fresh or preserved, is almost equally risky, while oranges, figs, raspberries, in fact all fruit with pits, are also very dangerous eating. To still further limit our dietary, there are a number of other things which may not be eaten by those who fear typhoid fever. The oyster scare has led to suspicion of all other shellfish, not only lobsters and crabs, but even the hither-to considered harmless though necessary shrimps and prawns.—St. James Gazette.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it to milk for baby."

ON Monday afternoon, Washington's Birthday, February 22, 1904, The Enterprise will distribute a snug sum of money among its subscribers. We have placed on exhibition in the show window of Howell & Jones, the druggists, a glass jar filled with coin of all denominations and this money will be given away to the readers of The Enterprise on the afternoon of February 22, next. If you do not receive a cash gift on your birthday, manage to share the distribution of this money on Washington's anniversary.

Guess and Get the Money

The best guesser will get the bulk of the money but in this contest all will have an equal chance. Payment of subscription money on The Enterprise is the only requisite condition for those desiring to participate in the contest. In order that the old readers of The Enterprise may have an equal chance to share the division of the money with new subscribers, it has been decided to allow One Guess for each \$1.50 in subscription that is paid for The Enterprise, whether the payment covers a delinquent subscription or is paid for the paper in advance.

Get Your Thinking Cap On

Somebody will get this money. Why should not you? No one knows the actual amount of money on deposit in the Jar. The Enterprise placed the bulk of the money in the Jar and the balance, in various denominations, was deposited therein by a person not connected with the paper, the amount so deposited by each being unknown to the other. The seal of the Jar will be broken on the afternoon of Monday, February 22, 1904, and distributed among the successful guessers.

50 Per Cent

OF MONEY TO PERSON making closest guess as to contents of the Jar. 25 per cent to the person making the second closest guess and 5 per cent each to the next five persons guessing in closest to the amount. In case of a tie, the amount involved will be divided. The contest will positively close at noon on Monday, February 22, 1904.
