

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized.

COUNTY TEACHERS' INSTITUTE.

Interesting Meeting Held at Milwaukie last Saturday.

The first meeting of the Clackamas County Teachers' Association for the year 1904, was held in the Milwaukie school house on Saturday, January 9.

The meeting was well attended by many teachers from Clackamas and Multnomah counties, and all present took a lively part in the day's proceedings.

As, in always the case, when the association meets at Milwaukie, the work of the association was intensely interesting, and the teachers were royally entertained.

Meeting was called to order at 10:30 a. m. President J. C. Zinser in the chair. Minutes of previous meeting read and approved.

The chair appointed H. L. McCann, Vida Godfrey and H. Gilbert Beattie as a committee to nominate officers.

The regular semi-annual election of officers was ordered with following result: President, ex-officio, J. C. Zinser.

Vice President, L. A. Read. Secretary, Fannie G. Porter. President Library Association, H. L. McCann.

Vice-President, Frances Myers. Treasurer, Millard Hyatt.

Miss C. D. Bradford, of New Era, presented the subject, "How to Make the Schoolroom More Homelike," in an interesting manner.

She said this is a problem that requires much more effort by the district than the city teacher. The district teacher upon entering a school for the first time, I think I can say, seldom finds much preparation made.

She showed what part pictures should have in decorations, recommending the simple black and white, or the sepia finish, on account of the refining influence obtained.

Children are often fond of bright colors, and this taste should be toned down by the teacher. All gorgeous coloring in the school room should be nature's own productions.

The subject was discussed at length by County Superintendent J. C. Zinser, who suggested several helpful methods of decorations, and said that many districts in our own county had made wonderful improvements along this line.

Mr. Adams also spoke on this subject. Miss Irene Smith, principal Clackamas school, delivered an instructive address on "Reading in the Advanced Division." The speaker in part said: In discussing the teaching of reading, we must be careful to distinguish its two phases—reading, as the getting of thought from the printed page, and reading, as the imparting of a writer's thoughts and feelings to others.

We must also note relation between reading as a thought getting and as a thought giving process. It is obvious that the thought must be understood, the sentence appreciated, before any expression of these is possible.

What shall be our aim in teaching reading? Will it not be to secure from our pupils a correct and intelligent rendering of the thought of selection and adequate interpretation of the emotion, always simple and unaffected in a conversational tone.

Teachers must teach proper expression, emphasis, modulation, etc., and above all have her pupils in sympathy with herself in all her work.

The speaker was listened to with marked attention, as her subject had been well prepared and excellently rendered.

Superintendent Zinser incidentally said that spelling correctly was allied somewhat to reading. He would always insist that spelling should be correct in all branches, and that the terms used in mathematics and other studies should be made important.

He then asked the teachers what effect attendance certificates had on the attendance. Those who responded said that they had resulted in securing better attendance, and the unanimous vote was to retain these certificates.

On motion, the association adjourned to meet at 1:30 p. m.

SOUP STOMACH

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion.

This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membrane lining the stomach.

Dr. S. S. Bell, of Ravenwood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in our household."

highly praised the efforts of Supt. J. C. Zinser along this line, and said this advancement was worthy of praise.

"The Hygiene of Position" was the subject of an able paper read by Mr. R. W. Baker. He showed to those present how very important it is for pupils to have a correct position. Habit is everything, and if pupils are taught to sit and stand correctly they will always have a correct posture.

Miss Frances Myers, of the Oregon City schools, gave a most practical and enjoyable speech on "First Year Phonics." As usual, her remarks were excellent. The first association between the spoken and the written word is, or should be, between them as wholes. Later, the parts of a word are brought distinctly to the child's consciousness.

Principal W. Gilbert Beattie, of West Oregon City school, delivered a scholarly address entitled "Character Building." The speaker said the building of character underlies or ought to underlie every course of study.

"Character is the one thing indispensable to success, the one thing absolutely indispensable to the highest happiness, to live completely, the one thing that endures. What have we as teachers to do with the building of character of those who spend many hours a week in our care? Most of our teaching deals with the intellect, but the intellect has little or no influence on character.

Supt. J. C. Zinser spoke briefly on the exhibit work that would be sent to St. Louis. He said that actual school work was all that would be required and made many helpful suggestions that might assist those present.

The committee on resolutions presented the following, which were passed: Whereas, the Teachers' Association of Clackamas county have met in regular session at Milwaukie, this 9th day of January, 1904, and whereas we have been so highly and royally entertained by the principal, Mr. L. A. Read, his assistants and patrons of the school, therefore be it resolved, that we extend a vote of thanks to the above for their generous hospitality, to the pupils for their pleasing entertainment, and to the programme committee for the excellent programme provided.

On motion association adjourned to meet at call of superintendent.

FANNIE G. PORTER, Secretary.
