1100 Reward, 1100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is so internally acting directly upon blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHEESEY & Co., Toledo, O. Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation. Parkplace. Fred Hargreaves, from Colton, was a visitor in town over Sunday. The teachers and pupils had a holiday Monday, it being Washington's birthday.

We are pleased to learn that George Hamilton, who started for the Klondike two weeks ago, has arrived safely. It is pleasing to see the interest kept up in the Parkplace Sunday school during the winter weather. The attendance is better than ever before.

Miss Wilson's sixth grade pupils have been promoted to Mrs. Buck's room, which greatly relieves her overcrowded room, there being seventy-two enrolled and three grades, fourth, fifth and sixth. Mr. Berthrum Jewell and Miss Mary Keating were united in marriage Tuesday February 16, by Father Hildebrand, of Oregon City. The young people are well and favorably known in Parkplace, where they have taken up their abode. Their many friends wish them a long and happy journey through life.

Another storm is on. All kinds of weather, save the summer and Eastern blizzard kind. The Rich sawmill boiler that passed here a short time ago, is reported sunk in the mud about the snow line, south of this place five miles. There is quite a stir in this locality, in the way of constructing telephone lines. Everybody seems to take a home pride of making the enterprise a success.

The Ogle creek miners have vacated for the winter. The snow in the mountains became too much to be endured. More work to keep the mouths of the tunnels free of snow than the regular labor of running the drift. Miss Uleia Ridings and Mr. Orin Hammond were married last Wednesday evening and left on a wedding tour for the Dalles. They will reside on the P. J. Riding's farm. The writer takes this opportunity in wishing the couple a journey through life filled with joy and glad tidings.

Mr. Enterprise, in last week's item in regard to the "Molalla Mutual Telephone Association," you made me say "heretofore," instead of hereafter; and in concluding, where I endeavored to state "the field of operation," "Oregon City" was mentioned, when it should have been just "Oregon." While Oregon City is one of the objective points the association has in view, Molalla is the hub to which the radial wires will point at present.

THE CLEANSING AND HEALING CURE FOR CATARRH is Ely's Cream Balm. It is a quick relief at once. It cleanses and soothes the inflamed passages. Ely's Cream Balm. COLD IN HEAD. Mr. and Mrs. Harry Malon, of Oregon City, spent Sunday with relatives here. The work on the sub-station building is progressing nicely and when completed will be the finest along the line. Eagle Creek is going to boom and that before very long. Just keep your eye open, for there will be something doing, and a select few know it to be a fact.

When You Have a Cold. The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. This remedy will cure a cold in less time than any other treatment, and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by G. A. Harding.

Eldorado. Mr. Holt's health is much improved. Robt. Bullard was a caller in Molino Monday. Boxing lessons three times a week at Fred Woodsides.

Next Maulie has purchased another horse, also a cow. The dance at Edwin Howard's Monday night was O. K. Ern Jones and Nellie Roberts visited at J. P. Martin's Sunday.

Will Jones has gone up to the mountains to work for some time. Frank Kimney and wife, of Molino, spent Saturday and Sunday with Mrs. At Jones.

Perfect Confidence. Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Bassford, of Poolsville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy, for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by G. A. Harding.

Needy. Sherman Woller and family were up from Portland visiting with Mr. Woller's father, J. H. Woller, over Sunday. Several Needyites have been laid up with the grip this winter, but are improving, and we trust will be all O. K. soon.

The Needy school will render an interesting program on Friday night, March 4, including a basket social. The entertainment will be held in Thompson's Hall. Everybody is invited. The infant daughter of Mr. and Mrs. A. F. Chapman died and was buried last week. The cause of death was erysipelas. The bereaved parents have the sympathy of their friends and neighbors.

The Woller orchestra has been practicing regularly this winter and are making good headway. They met at the residence of J. D. Ritter on Sunday evening when they entertained a number of visitors.

The Needy literary society changed their long series of debates to a mock trial on Friday night. The defendant in the cause was Sam White (colored) who was up before the court accused of stealing turkeys from Mr. Wattle. The prosecution was conducted by Prosecuting Attorney C. U. Cheat. Sam was represented by Attorney I. L. Cateben. Sheriff Leckenup, after a lively tussle, succeeded in capturing Sam and bringing him before Judge Schitzenshimer, where he made a plea of not guilty. He was then tried before a jury, and upon searching him feathers were found in his pockets. Witnesses were examined on both sides, and several lively skirmishes were indulged in by the attorneys in defense of their clients. After able arguments by the attorneys the case was given to the jury, who after due deliberations over all the fuss and feathers, returned a verdict of not guilty. The case was interesting and created an unlimited amount of fun.

The Death Penalty. A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Buckle's Arnica Salve ever handy. It's the best salve on earth and will prevent fatalities when Burns, Scors, Ulcers and Piles threaten. Only 25c, at Charman & Co's, Drug Store.

Is it a burn? Use Dr. Thomas' Electric Oil. A cut? Use Dr. Thomas' Electric Oil. At your druggists. A NOSE FOR NEWS. The Genuine Newspaper Reporter is Born, Not Made.

"Poets are born, not made," said the retired newspaper man to the New Orleans Times-Democrat, "and I might add that reporters come into this world in much the same way. For instance, the 'born' reporter will get a story if there is one in sight, while he who only has what I would call a mechanical sort of training will skin over the same ground without ever discovering that anything out of the ordinary has happened. Not many years ago I was holding an important position on one of the principal journals of Chicago. I was one day put on the city editor's desk, and waiting to test the ability of two new men on the staff. I assigned both of them to the same story. Of course neither knew the other was in the neighborhood, and you ought to have seen their respective reports. One of them had a two column story that created a sensation from one end of the city to the other, while the other turned in about two 'sticks' of the driest stuff I ever remember to have read. I am satisfied that both the men covered the story to the best of their respective abilities. One of them simply had a 'nose for news' and the other didn't. As I said, reporters are born, not made by studying 'journalism' in the abstract. The natural born reporter is at home in a newspaper office, he can live on ink and can sleep soundly on the imposing stone. He sees little news in a dog biting a man, but he is quick to grasp the importance of an item telling about a man biting a dog."

A Puzzling Problem. The man seemed to be very much excited. "We've made a bet," he said, "on a question of law, and we've agreed to leave it to you." "I'll do the best I can to settle it," returned the great lawyer, gratified by this evidence of the opinion in which he was held. "What is the question of law?" "Why, a two dollar cat belonging to Brown ate a ten dollar bird belonging to Jones, and we want to know who has legal title to the combination of bird and cat."—Chicago Post.

SCIENCE SIFTINGS. Uranus is the only one of our system of planets which rotates backward. Glycerin has the property, extraordinary among liquids, of not evaporating.

The star Canopus surpasses the sun in brightness by more than 10,000 times. The equator of Mars is inclined to the plane of its orbit about 25 degrees. That of the earth is inclined 23 degrees 24 minutes.

The different worlds of the solar family are at different stages of their evolution. If the moon is a waif of the past, Jupiter is a world of the future.

The electrical charge of the gaseous ion is .00099999934 electrostatic units. The number of molecules in one cubic centimeter of gas under standard conditions is 3.6 multiplied by the nineteenth power of 10.

James Shannon has rented his farm to V. Bohlander and sold his stock and will soon leave for Grass Valley, where he and his father-in-law have about 800 acres to farm. His many friends wish him good luck and hope that he'll return rich.

NAPOLEON'S LETTER. Now the initial "M" Punctuated the Great Conqueror's Career.

From Marvego to Moscow was the long swing in the pendulum of Napoleon's life, the one the greatest battle out of which he came with his life, the other the abyss which engulfed him. Mr. J. M. Buckley, who is a literary expert on coincidences, points out how strangely the letter M played a part in the life of the great conqueror.

Marboe was the first to recognize the genius of Napoleon at the Ecole Militaire. Melas opened to him the way to Italy. Mortier was one of his first generals. Moreau betrayed him, and Murat was the first martyr to his cause. Marie Louise partook of his highest destinies. Meternich conquered him on the field of diplomacy.

Six marshals—Massena, Mortier, Marmon, Macdonald, Murat and Mouton—and twenty-six of his generals or divisions had names beginning with the letter M.

Murat, duke of Bassano, was the counselor in whom he placed the greatest confidence. His first great battle was that of Montenotte; his last was that of Mount St. Jean. He gained the battles of Moscow, Montmirail and Montereau. Then came the assault of Montmartre. Milan was the first enemies' capital and Moscow the last in which he entered.

He lost Egypt through the blunders of Menoa and employed Mollins to make Plus VII. prisoner. Malet conspired against him, afterward Mar-mont. His ministers were Maret, Montalivet and Mollien. His first chamberlain was Montsquieu.

Wordsworth's Secret. And Wordsworth's secret? Any poet's secret? Well, for aught we can see, it remains a secret, a something as far beyond human subtlety to explain as it is beyond human ingenuity to produce. "The wind bloweth where it listeth." "Genius," "inspiration"—it is hard to get on without the old words, vague though they be. Nay, it is precisely because they are vague that they serve so useful a purpose. Even Professor Raleigh, after speaking almost contemptuously of "impatient critics" who seek to account for Wordsworth's "amazing inequality" by assuming that sometimes he was inspired, at other times not, is heard a little afterward lamenting that in Wordsworth's case, as in Coleridge's, "the high tide of inspiration was followed by a long and wandering ebb."

One feels like quoting Lowell, whose arrow in such competitions is apt to hit the white. Wordsworth, he says, "was not an artist in the strictest sense of the word; neither was Isaiah, but he had a rarer gift, the capability of being greatly inspired."—Bradford Torrey in Atlantic.

End of Bitter Fight. "Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all Coughs, Colds and Throat and Lung troubles. Guaranteed by Charman & Co's, Drug Store. Price 50c, and \$1. Trial bottles free.

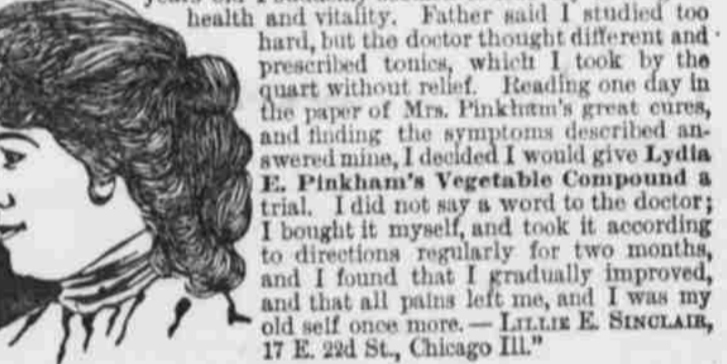

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. I recommend it to all young women who suffer from female weakness."—Miss ALMA PRATT, Holly, Mich.

FREE MEDICAL ADVICE TO YOUNG GIRLS. All young girls at this period of life are earnestly invited to write Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given, and her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham believes that our girls are often pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries. Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality,—often it is never recovered.

A Young Chicago Girl Saved from Despair. "DEAR MRS. PINKHAM:—I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about seventeen years old I suddenly seemed to lose my usual good health and vitality. Father said I studied too hard, but the doctor thought different and prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more."—LILLIE E. SINCLAIR, 17 E. 22d St., Chicago Ill."

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Plenty of mud and water. Best country in the world for ducks. We were all disappointed by not seeing the Rev. Black in the pulpit last Sunday. There is not much grain going to be sown this month if it does not quit raining soon. Harry DeShazier's smiling face was seen in Dover last Monday. He seemed to be in a terrible hurry.

George Kitzmiller attended services at Pleasant Hill last Sunday. Rev. Diao is holding a series of meetings there. There is a young man who has been on the wolf chase all winter. I think he will soon catch them, or they will catch him, as there has been a good tracking snow for some time.
