JUMPING UP

Is a great deal harder than jumping down. And yet people who have been for years running down in health expect to jump back at once. It takes years generally to make a man a con-firmed dyspeptic, and he cannot expect to be cured

in a few days. There is no quicker means of cure for dyspep sis or other forms of stomach trouble than by the use of Dr. Pierce's Golden Medical Dis-

diseases of the atomach and other organs of digestion and nutrition and builds up the body with sound flesh and solid muscle.

"I was taken sick two years ago," writes her, W. H. Patter-ton of White Cloud, Ala, "with what the doctors thought was partic trouble, indigestion or what the doctors thought was gnatric trouble, indigestion or nervous dysepsia, also construction and inactive liver. I was in a dreadful condition. Tried several different doctors with but little result. I had gotten so feelile that I was almost past traveling about had gotten so feelile that I was almost past traveling about had gotten so feelile that I was almost past traveling about had got down to its posnes. I went and bought six bottles of Golden Medical Discovery, and got the 'Feltes' and began following directions. When I had taken about five hottles I felt very much better and was greatly I'm proved, and weighed one hundred and thirty-eight pounds. I will say that Dr. Pierce's medicines are a food send to poor suffering humanity, and I advise any and all chronic sufferers to give them a fair trial and they will be satisfied."

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and biadder remedy, it is the great medi-cal triumph of the nineteenth century; dis-covered after years of

scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is

wonderfully successful in promptly curing lame back, kidney, bladder, uric acid tros-bles and Bright's Disease, which is the worst

form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kid-ney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to pur-chase relief and has proved so successful in chase relief and has proved so agreement has every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to and out if you have kidney or bladder trouble. When writing mention reading this generous

effer in this paper and send your address to Dr. Klimer & Co., Binghamton, N. Y. The regular fifty cent and flome of Bramp-Rock dollar sizes are sold by all good druggists.

WANT MILL AT GLADSTONE.

If Sellwood Mill is Removed, Oregon tity Will Make a Bid.

If in relocating its plant the Portland Woolen Mills Company decides to seek another location, an effort will be made by the Gladstone Real Estate Associa-tion to secure this institution for this city, says an Oregon City special to the Oregonian. This is the woolen mill plant that was recently harned at Sell-wood. On account of the equities that have grown up with the establishing or the mill at Seliwood, many of the opera-tives having purchased homes at that place, it is not considered at all probable, that the management of the mill will be inclined to seek another location, but should such be the case, the Oregon City Association will make an effort to

Harvey E. Cross, of the Gladstone Real Estate Association, has addressed a letter to the secretary of the Bellwood plant detailing the natural advantages that obtain here for such an institution and extending an invitation for the consideration of Oregon City as a place of location if the mill is to be taken away from Sellwood. The location proposed for the mill st Oregon City is about two miles north of this city on the banks of the Clackamas and directly on the line of the Southern Pacific Railroad. Oscar Huber, a civil engineer of Portland, made a survey of the premises at ex-treme low water during the fall of 1902 and and found a net house power of 1108.
During at least nine months of the year there is available at the proposed site 2500 horse power. At a minimum stage, with a 12 foot head, furnishing 1108 horse power, there is sufficient force for the operation of three such mills as that of the Oregon City Manufacturing plant of this city which is the largest would mill on the Coast.

Portland capitalists have interested Gladstone Roat

of the satate Association and and install the concrete dam at the site suggested this summer whether or not the Seliwood mill is brought to this city. The water power is there and the owners of the property propose to develop that power and negotiate for its utilization by some manufacturing institution. It will require the expenditure of about \$10,000 to build the concrete dam that has been decided upon.

Hives are a terrible torment to the little folks, and to some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent care.
At any drug store, 50 cents.

"Uncle Tom's Cabin." The moving, mirthful, kaleidescopic production known as "Uncle Tom's Cabin" will be produced at Shively's Opera House on Monday night, March 7th, by the celebrated Stetson Company. There is so much of incident, jollity, tender sentiment, lively dialogue, spec lar situation and poetic justice in Uncle
Tom that it will ever be of medying interest to the multitude. It is all very
well to be superior to the charm of this
entertainment, but it furnishes pleasure to thousands and there is no offering so enjoyed by young and old alike. The pathetic death of little Eva has no sooner covered the audience with sorrow's pall, than a stunning cakewalk comes to re-store the flooded or the merely drooping soul. The Stetson Company is the ac-knowledged leader in the production of Harriet Beecher Stowe's masterpiece. The cast is logic in number and well distributed. The hounds and ponies, the music and scenic effects, costumes and Specialties glitter through the evening like stars in a wintry sky. There is buck and wing dancing in the slave mart. There are two Topsies and two lawyer Marks and each of each pair is better than the other, so to speak. Eliza crossing the ice is said to be a strong piece of acting, aided by a scene marvelously realistic. Ophelia from New England grows larger with the years and has hard work to maintain the proper severity of manner. In the Leon Washburn Stetson Company there are all kinds of dramatic greatness. It is a class by itself.

By reading the Enterprise you will be kept fully informed about the Clacksmas county campaign. We will send you the Enterprise from now until after he June election-over three monthsfor 25 cents. Send in your subscription at once.

Cough Gently.

Few people know how to cough properly. In fact, it never occurs to the ordinary individual that there are a right way and a wrong way of doing it. Yet it is a matter of no small importance. If every sigh means a drop of blood out of the heart, as people say, every cough means some greater or less proportion of time knocked off one's life. Most people cough as loudly and forcibly as they can. Some chronic coughers seem a bit proud of the terrible noise they make. But it is a rather costly noise, for the simple reason that it tears and inflames the lungs.

The lungs consist of an extraordinarily delicate spongelike tissue, which sometimes gets inflamed and choked with phiegm. When we try to get rid of this substance we cough. But, obviously, if we remove it violently we must necessarily injure the delicate lung tissue. Therefore train yourself to cough as gently as possible. After a little practice you will find it quite easy to do so. In that way you will do a minimum of mischief to the lungs and add years to your life.

Growth of the Papal Crown. Originally the headdress of the portes was only a cap, but Clovis, king of the Franks, to show his respect to the church of Rome, sent to the palace of St. John in Lateran a royal crown of gold, which Anastasius, emperor of Constantinople, had presented to him. The Pope Hormisdas placed upon the tiara this crown, which was at that time nothing more than a circle of gold surmounted by leaf work, being much such a coronet as is nowadays borne by marquises in France. The successor of Pope Hormisdas continued to wear the tiars with one crown only up to the time of Boniface VIII., but this pope, having claimed muthority over things temporal as well as spiritual, wished to mark this double dominion on the pontifical tiars. on which he placed two crowns instead of one. Ultimately Pope John XXII, added a third crown. - St. James' Gazette.

Mark Twain's Joke on the Hishop. Bishop Donne of Albany was at one time the rector of an Episcopal church in Hartford, and the services at this church Mark Twain would occasionally attend. Twain one Sunday played a joke upon the rector.
"Dr. Doane," he said at the end of

old friend. I have, you know, a book at home containing every word of it." "You have not," said Dr. Doane.

"I have so," said the humorist. "Well, send that book to me. I'd like to see it."

"I'll send it," Twain replied. And he sent the next morning an unabridged dictionary to the rector.-Boston Post.

Fish Need Afr.

Fishes, like all other animals, need air. If they could not get it they would be suffocated just as you would if you were locked in an air tight trunk. When the sea is frozen for miles, as in the Arctic ocean, the fishes find it very hard to come to the top, and must then "breathe" the air which is dissolved in the water. You have often seen the tiny bubbles which collect on the inside of a glass which has been standing full of water overnight. Well, that is the air which has been dissolved in the water, and after the glass has been tapped, so that all these bubbles come to the top, fishes could not live in that water. In other words, they would drown.

Fasting For Bealth. Thousands of years before it was practiced as a religious rite fasting was practiced as a health measure in Egypt, India and China. Contemporary to Cicero was Asclepiades, a Greek physician, who strongly advocated this idea, and 1,000 years after his day Ibn Sina, philosopher and medical sage, argued the virtues of temporary abstinence on the ground that it came easier than constant moderation.

Trimming Sails. "Charley, dear," said young Mrs. Torkking, "how do they trim the sails

"Why-er-they just trim 'em, that's "I know. But what kind of trimming

do they use?"-Washington Star.

Your Health. You young people, don't forget that health is greatly prized in old age. Young people can stand abuses to their health in youth, but terrible interest is collected later on.-Atchison Globe.

PHIL MAY'S BARGAIN.

An Exp. Plence the Artist Had With

a Roving Conjurer. An amusic & story is told of the artist Phil May and an English conjurer at a fair at Stratford on-Avon. Phil was in the crowd which had gathered to watch a very clever gentleman who was wrapping up sovereigns and half crowns in pieces of paper and salling them for 2 shillings. The "sharp" had a beautiful face-such a face as Phil May leved to fraw. So he sketched him furtively, But the gentleman saw him and made a speech forthwith.

"If that there celebrited portrit painter with the tight breeches on will 'and descriptive pamphlets published. up the picter, the equally celebrited benefactor to 'comanity wot is givin' away quids for coppers will reward 'im accordingly," he shouted,

Phil, with a twinkle in his eye, handdelighted with the sketch and pinned it to the tailboard of his cart. With another preliminary speech, he threw three sovereigns, three half sovereigns "A bargain's a bargain," said Phil. walking off with the packet of gold and

He confessed afterward when he opened the packet and found two pennies and a halfpenny in it that it was the most entertaining commission he had ever been paid for.

He Ate His Own Words.

Not long ago the punishment for libel in Russia was the requirement that the libeler literally eat his own words. A man who published a small volume reflecting on the unlimited power of the sovereign was selzed, tried in a summary way and condemned to consume the objectionable words. In one of the public streets the book was severed from its binding, the margins cut off, the leaves rolled up one by one and fed to the unfortunate author. A surgeon was in attendance to pronounce upon the number possible to give without endangering his life, but he is reported to have set the limit at something like

Carried a Live Shark Ashore, Jonathan Fowler, a Massachusetts fisherman, once walked out knee deep through the mud and filth of a seashore at low tide to a shark left by the retiring waters, shouldered it and brought it alive on his back to the shore. The shark weighed 500 pounds, quite a load, considering that it was not the most portable of articles and that the man had to wade through mud.

Simply Useful, That's All. "Yes," said Mrs. Wordsworth, "the family is most interesting. John dances divinely. Tom sings like an angel, David is a famous footballer, Susanna paints with great taste."

"And Henry?"
"Oh, Henry! Well, he's a rather dull Station: Portland, Oregon. sort of a fellow, you know. He only works and supports the others."-Chicago Journal.

Cinsuffied. "Here's an account of a big landslide," said the new reporter. "Under what head shall I put it?"

"Put it with the real estate trans-"It's hard to have a lot of debts that fers," said the city editor, as he wrote "Continued on the forty-fourth page" "Oh, I don't know. It's worse to have In the middle of a four line paragraph.

SHALL CLACKAMAN BE THERE!

At Mt. Louis.

W. H. Wehrung, president of the Western World's Fair Lewis and Clark Centennial Exposition Commission, has interested himself in a movement to secure for Oregon an exhibit by counties at the World's Fair at St. Louis. Mr. Wehrung thinks that this would be the ceived for every cent you best way to have the state properly represented. If the county decides not to have an exhibit at the World's Fair. then the commission urges that pam-

county shall have proper literature at St. Lous, and the commission desires that you will send back at least 59,000, if not 100,000, pamphlets descriptive of of your county resources, productions, manufactures, climate, etc., for the benefit of the thousands of St. Louis visitors that may be attracted to our growing state. This matter should be of interest to you, and you are re-

questeu county publisme.

15th. It would be perhaps commendable for you to work with your local boards of trade and get them to lend you assistance in procuring an appropriation for this important work. The regular term of your county court in April will be the best time to present this matter, and if you are properly organized you will be successful."

The attention of the Oregon City board of trade and the Clackamas county court is called to this proposition. The local commercial body could work in conjunction with the county court and some favorable action taken in the matter. Advertising of the character sog gested would bring returns that in all probability would justify the cost of having a reasonably larger number of the

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, I. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.
