

Legal Notices.

ORDINANCE NO.

Providing for the time and manner of improving Center Street from the North line of First Street to the South line of Seventh Street, Oregon City, Oregon.

SECTION 1. The proposed improvement of that part of Center Street lying between the North line of First Street and the South line of Seventh Street shall be completed as herein provided for within ninety days after the signing of the contract by the parties thereto, due notice thereof having been given by publication of notice as will more fully appear by proof thereof duly presented and filed in the office of the City Recorder.

SECTION 2. The improvements shall consist as follows:

GRADING.

The grading will consist in grading said portion of Center Street the full width of sixty feet and so much additional as may be required in order to properly set the curbs and to grade to the established grade of said street and to such cross section as the kind of improvement may require as the Engineer may direct. Grading will be paid for per lot for the finished subgrade as herein specified and all bidders are required to examine the ground, plot and profile before submitting a bid. No allowance will be made for over haul.

OBSTRUCTIONS.

The surface of the street will be cleared of all obstructions including timbers, planks, side walks and cross walks. If such obstructions are not removed by the owner of the adjacent property within three days after having been notified by the Superintendent of Streets they shall become the property of the contractor and shall be removed by him without additional compensation.

MACADAM.

The Macadam will consist of Macadamizing the road way the full width between gutters and the full width between cross walks at all street intersections, with crushed rock of good quality to be approved by the City Engineer. Said Macadam shall be 12 inches deep on the center line and taper uniformly to depth or thickness of six inches at the gutters as shown on plans. No portion of said crushed rock above sub-grade shall be more than 2 1/2 inches in greatest diameter. All coarse rock to be raked to the bottom and rolled with a road roller of not less than ten tons in weight until thoroughly packed to the approval of the City Engineer. The earth taken from excavation will be used to bring the street to side walks to grade when necessary, the remainder will become the property of the contractor and shall be removed by him.

FILLS AND EMBANKMENTS.

No material of a perishable nature will be placed in the embankments. When the street is at sub grade the surface will be thoroughly rolled with a road roller of not less than ten tons in weight and any soft or spongy spots that may appear during the rolling shall be filled with dry earth and rolled until the entire sub-grade is thoroughly packed to the approval of the City Engineer. The earth taken from excavation will be used to bring the street to side walks to grade when necessary, the remainder will become the property of the contractor and shall be removed by him.

CROSS WALKS.

Cross walks will be formed at all crossings as directed. They will be placed one inch above grade at the center and flush with the top of the side walk at the curb. All cross walks running North and South to be six feet wide, and those running East and West to be four feet wide. All cross walks to be constructed of fir planking three inches thick and twelve inches wide, securely spiked with six inch wire spikes to fir nails four by six inches firmly bedded in earth and the sills in all cases to be finished with the outer edge of the cross walks. The sills are to be placed on the center line and tapered in cross walks and not a greater distance than seven feet from each other. Cross walks to be laid, conforming to cross section of street except where elevation to admit the passage of water, and to conform to the plans thereof. Cross walks at all alleys to be sloped toward street as shown on plans.

SIDE WALKS.

A side walk will be constructed on either side of said street the entire length of the part to be improved as heretofore defined as follows: Planking two inches thick and six feet long and eight inches wide dressed on the upper side, resting on three stringers four by six inches and laid with broken joints. Sills to be not less than twelve feet long at equal distances of ten feet from each other. Plank not less than ten feet in length of side walk, one plank eight feet long shall be laid down and nailed to a wooden curb four by twenty inches laid lengthwise along in front of each block the entire length of the improvement: Earth filling to be put in between the curb and side walk also between the side walk and the property line and leveled up flush with same. Planking to be securely nailed with four and one-half inch wire nails six in a board, except those plank extending to the curb which shall have eight such nails.

CURBING.

There will be a line of curbing placed on either side of the road way and twenty feet distance from center line of Center Street, except at all street and alley intersections. The curb will be four inches thick and twenty inches deep and will be set vertically on a line of the side walk bed. At all street and alley intersections the curb will be set on a true curve of a four foot and two foot radius respectively. In all instances to be set to such grades as to conform to the cross section of the street.

DRAINAGE.

Porous drain tile having an inside diameter of six inches will be placed under the gutters on either side of Center Street where directed by the engineer. Such tiling to be sound and in all respects first class drain tile, and laid to a uniform grade and connected with the intake pipe to the catch basin where required. After the tiling has been laid a strip of heavy tarred paper not less than two inches in width will be placed over each joint and extended one half way down on either side of the tiling so as to exclude the dirt. Care will be taken in refilling the trenches not to disturb the paper so placed over the joints. All refilling to be carefully tamped into place so as to form a firm foundation for the gutters. No refilling will be done until the tiling has been laid and approved by the engineer. A gutter consisting of one plank 3x12 inches will be placed the entire length of an securely toe-nailed to the curb as shown on plans. Tiling will be paid for per cubic yard in place, excavation and back filling included, except where soil is found to be necessary, after classified as loose and solid rock will be paid for per cubic yard for excavating and back filling.

FOR DETERMINING QUANTITIES IN EXCAVATION FOR DRAIN TILE A WIDTH OF TRENCH 24 INCHES WILL BE ALLOWED. BOX CULVERTS WILL BE PLACED AT SUCH POINTS AS MAY BE FOUND NECESSARY AS THE WORK PROGRESSES AS THE CITY ENGINEER MAY DIRECT. SUCH CULVERTS WILL BE CONSTRUCTED OF TWO INCH PLANKING SECURELY NAILED TOGETHER WITH FIVE INCH WIRE NAILS AND HAVING AN INSIDE MEASUREMENT OF 24x12 INCHES. GUTTERS AND CULVERTS WILL BE PAID FOR PER LINEAL FOOT IN PLACE, EXCAVATION INCLUDED.

CATCH BASINS.

At places shown on plans or at such points as may be found necessary as the work progresses catch basins will be placed according to the details plans furnished herewith. None but the best quality of whole sound, perfect shaped bricks burned hard shall be

used. All brick to be thoroughly wet by immersion immediately before being laid. Every brick is required to be laid in a full and close joint of cement mortar, at its ends and sides at one operation. In no case is mortar to be slushed in afterwards. The brick work in all cases to be thoroughly bonded. The entire surface of the walls and bottom inside the catch basins shall be covered with a half-inch coating of cement mortar, and surface brushed clean and smooth.

The Catch Basins shall be of dimensions shown on plans. The depth of the catch basins to be in all cases six and one half feet from the street grade to bottom of catch basin. The catch basins shall be supplied with a cast iron flange ring, covers and wrought iron gratings and steps all of good quality and free from imperfection and set in the manner shown on plans. The outlet from catch basin to be of ten inch vitrified sewer pipe and still connect into the sewer with a Y branch. At one or more of the sides of the catch basins as indicated on the plans. Inlets will be formed and connected with the catch basin by an eight inch vitrified sewer pipe laid on a regular grade.

Cement mortar used in the construction of catch basins and in any other portions of the work shall be composed of the best quality of Portland Hydraulic cement and clean sharp river sand and mixed in the proportions of one part of cement to two parts of sand. These proportions are to be made by measurement and not by estimation. The mortar must be made in a box or on a floor and in no case upon the ground. The ingredients must be thoroughly mixed in a dry state and the proper amount of water added afterwards. Any excess mortar that has been standing more than two hours shall not be retempered or used in any way.

All sewer pipes to be five from crack and other imperfections. Sewer pipe will be laid for per lineal foot in place excavation and backfilling included. Bids must state the price for constructing each catch basin, with gratings, soulder rings, covers and steps complete, also for each round corner and inlet with bolts and gratings complete all as shown on plans. Excavation and backfilling included.

LUMBER AND TIMBERS.

All lumber and timbers used in the work must be of sound fir timber, square edged and free from all large loose or unsound knots, waxy edges, splits, and generally free from sap.

REMOVAL OF RUBBISH.

All rubbish that may accumulate during the performance of the work or by reason of the work herein provided for shall be removed by the contractor and the street left in a clean and good condition.

SETTLEMENTS.

All settlements that may appear in any portion of the macadam or other work before the final acceptance of the work by the city shall be repaired and made good by the contractor at his expense.

OBSTRUCTIONS TO TRAVEL.

The work must be done in such a manner as to obstruct public travel as little as possible. Not more than two blocks shall be torn up at one time except by special written permission from the City Engineer. Side walk beds must be kept open to travel and not more than one half the side walk space can be occupied by material. As soon as the macadam of each street is complete it shall be thrown open to travel and such opening shall not be deemed the final acceptance of the work.

No macadam, side walks, cross walks or curbing or any material therefor will be laid or deposited on the street until the entire sub-grade of any particular block where such material is to be laid or deposited has been completed, except by a special written permit approved by the engineer.

COLORS AND LIGHTS.

Colored lights and if necessary night watchmen are to be maintained at all obstructions or other places of danger.

CLASSIFICATIONS.

Earth—This will include clay, sand, loam or other earthy material and loose stones containing less than one cubic foot. Loose Rock—This will include all loose stones containing one cubic foot to one cubic yard.

Solid Rock—This will include all loose rock or boulders containing one cubic yard and upwards, also all rock ledges or other material requiring to be disintegrated by blasting.

SUPERINTENDENCE.

All work herein provided for will be done in strict conformity with these specifications and plans accompanying same in a thorough and workmanlike manner to the satisfaction of the City Engineer, and his decision as to the meaning and intent of these specifications, measurements, computations of quantities, the quality of material to be used and all other matters pertaining thereto, whether particularly specified herein or not shall be final and conclusive between the parties.

All suit or condemned material shall be immediately removed from the site of the work. In the event of any workman employed by the contractor refusing to comply with the instructions of the City Engineer or his assistant or the inspector in charge of the work in regard to the removal of rejected material or doing his work in an unworkmanlike manner shall be discharged by the contractor as soon as notified in writing by the Engineer of such neglect or refusal.

RESPONSIBILITY.

The contractor shall take entire charge of the work during its progress and shall be responsible for any loss, damage or injury to water and sewer pipes to adjacent property, or accidents resulting from blasting or from any carelessness or neglect in doing the work set out in these plans and specifications and will hold the City of Oregon City and all of the officials thereof free and harmless therefrom. The contractor must protect his work until it is completed and duly accepted, and he must repair any damage done to it by freshets, rains or other accidents at his own cost. In case of any accident to water or sewer pipes the contractor shall immediately notify the proper authorities.

STAKING OUT WORK.

The work provided for under these specifications will be staked out by the City Engineer or his assistants and the contractor will be required to carefully preserve all such stakes set.

ALTERATIONS.

The right is reserved by the city council to make such alterations as may be found expedient during the progress of the work, and in such event there shall be added to or deducted from the contract price such sum as shall represent the cost of such additional or subtracted work to be estimated by the engineer.

The City reserves the right to lay or relay all or any water or sewer pipes or connections during the progress of the work.

EXTRA WORK.

The contractor shall not be entitled to demand or receive payment for any work as extra work, unless ordered in writing by the Engineer to do the same and at the price agreed upon and named in the written order for such work previous to its commencement.

DISPUTES.

All disputes as to the intent and meaning of these specifications shall be referred to the Engineer and Street Committee whose decision shall be final and conclusive.

BIDDING.

Parties bidding on the work provided herein must state in their bid the time required for the completion of the entire improvement as herein specified after the ap-

proval of the contract by the Mayor and should the contractor fail to complete the work within the time specified in the said contract the city shall have the right to charge the contractor the sum of five dollars per day as liquidated damages for each and every day that the work shall remain uncompleted after said specified date and such sum shall be deducted from the amount of the final payment.

No proposals will be considered when not accompanied by a certified check equal to five per cent of the total estimate, which check shall be forfeited to the city upon the failure of the successful bidder to execute the agreement provided for herein within thirty days after the award of contract. Blank forms upon which all proposals are to be submitted will be furnished upon application to the City Engineer.

PAYMENTS.

Monthly estimates of the amount of work completed will be made by the Engineer and an advance payment of seventy-five per cent of such estimate will be ordered at the first meeting of the city council thereafter.

The remaining twenty-five per cent to be paid in a lump sum within thirty days after the final acceptance of the entire contract when completed.

BOND.

The contractor will be required to furnish a bond with approval of security in the full amount of the contract price, conditioned on the faithful and complete performance of the work in accordance with the stipulations of the contract and within the time herein therein.

ENGINEER.

Whenever the word "Engineer" is used in these specifications it is understood to refer to the City Engineer or to any Engineer employed and authorized by the city council to superintend such work.

COMMITTEE.

Whenever the word "Committee" occurs in these specifications it shall be understood to the Committee on Streets and Public Property of the City Council of Oregon City.

CONTRACTOR.

Whenever the word "contractor" occurs in these specifications it is understood to refer to the contractor, or firm of contractors (or any member of the firm) or any contractor undertaking the work herein specified. The City Council reserves the right to reject any and all bids.

Section 3.—The Committee on Streets and Public Property are hereby authorized to advertise for and receive proposals as aforesaid, and the Mayor and Recorder shall enter into contract with the person, firm or corporation to whom the contract is let by the City Council for the improvement specified in this ordinance.

Section 4.—The contract shall contain a stipulation to the effect that the person, firm or corporation to whom the contract is let shall look for payment only to the sum to be assessed upon the property liable to pay for such improvement, and collected and paid into the City Treasury for that purpose and they will not require Oregon City by any legal process or otherwise to pay the sum out of another fund.

Read first time and ordered published at a special meeting of the Council of Oregon City, Oregon, held April 19, 1904. By order of the Council. BRUCE C. CURRY, Recorder.

NOTICE FOR PUBLICATION.

Timber Land, Act June 3, 1878. United States Land Office, Oregon City, Ore., Feb. 11, 1904. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada and Washington Territory," as extended to all the public land states by act of August 4, 1892.

Angus McPhes.

of Portland, county of Multnomah, state of Oregon, has this day filed in this office his sworn statement No. 6361, for the purchase of the NW 1/4 of section No. 13, in township No. 2 south, range No. 7 east, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the register and receiver of this office at Oregon City, Oregon, on Friday the 8th day of May, 1904.

He names as witnesses: Chas. Osborn, Robert Osborn, A. Jones, D. McDonald, all of Portland, Oregon.

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 8th day of May, 1904.

Executors Notice.

Notice is hereby given that the undersigned has been duly appointed Executor of the last Will and Testament of Charles Schumann, deceased, and any and all persons having claims against the said estate are hereby notified to present the same duly verified according to law to the undersigned executor at Aurora, Oregon, or at the office of my Attorney, G. B. DIMICK, at Oregon City, Oregon, on or before the expiration of six months from the date of this notice.

LEONARD WILL, Executor of the last Will and Testament of Charles Schumann, Deceased.

G. B. DIMICK, Attorney for Executor. Dated this 25th day of March, 1904.

Notice of Final Settlement.

Notice is hereby given that the undersigned Executor of the last Will and Testament of Cyrus Jones, deceased, has filed her final account of her doings in said estate, in the County Court of the County of Clackamas, State of Oregon, and the Judge of said Court has set Monday, the 30th day of May 1904 at the Court House in Oregon City, Oregon, as the time and place for a hearing of any and all objections to the said final account and to her discharge as said Executor.

Dated this 14th day of March, 1904. CAROLINE E. JONES, Executrix of the last Will and Testament of Cyrus Jones, Deceased.

G. B. DIMICK, Attorney for Executrix.

SHERIFF'S SALE.

In the Circuit Court of the State of Oregon, for the County of Clackamas. H. McArthur, vs. Annie F. J. Miller and Fred J. Miller, Defs.

By virtue of a judgment order, decree and execution, duly issued out of and under the seal of the above entitled court, in the above entitled cause, to me duly directed and dated the first day of April, 1904, upon a judgment rendered and entered in said court on the 26th day of March, 1904, in favor of H. McArthur, plaintiff, and against Annie F. J. Miller and Fred J. Miller, defendants, for the sum of \$341.10, with interest thereon at the rate of 8 per cent per annum from the 26th day of March, 1904, and the further sum of \$75 as attorney's fees, and the further sum of \$16 costs and disbursements, and the costs of and upon this writ, commanding me to make sale of the following described real property, situate in the county of Clackamas, state of Oregon, to-wit:

All of lots 1 and 2, of section 4, in township 4 south, of range 3 east, of the Willamette Meridian, in Clackamas county, Oregon.

Now, therefore, by virtue of said execution, judgment order and decree, and in compliance with the commands of said writ, I will, on

Saturday, the 7th day of May, 1904, at the hour of 10 o'clock a. m., at the front door of the county court house in the city of Oregon City, in said county and state, sell at public auction, subject to redemption, to the highest bidder for U. S. gold coin cash in hand, all the right, title and interest which the within named defendants or either of them had on the date of the mortgage herein or since had in or to the above described real property or any part thereof, to satisfy said execution, judgment order, decree, interest, costs and all accruing costs.

J. E. SHAFER, Sheriff of Clackamas county, Oregon.

By E. C. HACKERT, Deputy. Dated Oregon City, Oregon, April 8, 1904.

Notice for Publication.

Department of the Interior, Land Office at Oregon City, Or., March 19, 1904. Notice is hereby given that the following named settler has filed notice of his intention to make final proof to support his claim, and that said proof will be made before the register and receiver of Oregon City, Oregon, on May 4, 1904, viz:

Daniel W. Robertson, the father of J. W. Robertson, deceased, H. E. No. 13,962, for the NW 1/4, section 24, T. 3 S., R. 5 E.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Hans Paulsen, of George, Oregon; Peter Schuel, of Basal, Oregon; Adolph Wedebold, of Basal, Oregon; Nicholas Scheel, of Basal, Oregon.
