Miss Bessie Brown.

How to Keep Happy.

DESPONDENCY is a thing of evil origin and evil results. Worry produces nothing but wrinkles and wretchedness. Let the reader put up a little note on her bureau, on her desk, and at the head of her bed, just two words, DON'T WORRY. Worry is the greatest foe to the happiness of any household. An anxious, despondent face, a fretful, complaining voice, will make every one uncomfortable.

A woman's nerves are more truly the cause of worry than outside troubles. The nerves are to a woman's body the telegraph system, which surely warns her of any trouble in the feminine make-up. The nerves must be fed on pure, rich blood, or we become nervous. "Nervousness" is only the cry of the starved nerves for proper food. So it is with the whole system—our bodies will not stand the strain of over-work without good pure blood any more than an engine can run smoothly without oil.

Here is the experience of Miss Brown which illustrates this point:

"I have had such a wonderful experience with Dr. Pierce's Golden Medical Discovery that I do not hesitate to recommend it, believing it to be a wonderful medicine to build up the tissues of the system," writes Miss Bessie Brown, Secretary Emerson Literary Association, 425 Kerman Avenue, Appleton, Wis.

"Worry and nervous troubles had completely run down my health and strength; had no appetite, slept badly, and was in a state of nervous collapse. I tried many remedies until I became thoroughly discouraged and said that I would not take another bottle of patent medicine, but am glad that I changed my mind in favor of Dr. Pierce's Golden Medical Discovery, for to it do I owe my present good health and strength. I took twelve bottles in all, and each week, knew that I was getting better and stronger, until finally I was as well and strong as I had ever been. I have the utmost faith and confidence in your medicine, and wish to thank you for my good health, which is a blessing to anyone."

Consumption

Salt pork is a famous old fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.
