

...Short Sidehead Stories...

TERSELY-TOLD TALES OF THE WEEK'S DOINGS.

Returned to the School.—Two runaway girl students of the Chemawa Indian Training school were taken into custody at Molalla Sunday evening and returned to the school Monday.

Base Ball Suits Arrive.—Manager Shark, of the Oregon City Colts, last week received the new uniforms that were recently ordered for the local team. The suits are gray, trimmed in red, with red belt and red caps.

Death at Stafford.—Billy A. son of Mrs. Samuel Stafford, died at the family home at Stafford Sunday, June 12. Death resulted from meningitis. The little fellow was aged 2 years, 8 months and 11 days. Burial was had Tuesday in the Stafford cemetery.

Increase in Population.—Inflow, a town of 139 inhabitants last Saturday experienced a growth of 4 per cent in population, when four births, all girls, were recorded between sunrise and sunset. This challenges any previous record in these parts and is strong negative evidence of any probability of race suicide in Clackamas county. The mothers of the new arrivals are Mesdames Jesse, Ray, Kidd and Huclers.

How About Your Summer Vacation? Newport, on Yaquina Bay, is the ideal seaside resort of the North Pacific Coast. Round trip tickets at greatly reduced rates on sale from all Southern Pacific points in Oregon on and after June 1st. Ask agents for further information and a handsomely illustrated souvenir booklet, or write to Edwin Stone, manager C. & E. R. K. Albany, Ore., or W. E. Coman, G. P. A. R. P. Co., Portland.

Artisans Have a Dance.—The members of Oregon City Assembly No. 7, United Artisans, held a very enjoyable social session last Thursday night. Dancing was enjoyed until a late hour, after the following program had been given: Piano solo, Bertha Fredericks; vocal solo, Mrs. M. Curran; recitation, Erma Draper; vocal solo, Mrs. Tanner; address, Judge Gordon E. Hayes; piano solo, Bertha Fredericks; duet, Mrs. Sampson and Frank Confer; recitation, Rollin Foberg; vocal solo, O. Tompkins; vocal solo, Sadie Tolpolar; recitation, Vada Boylan. Refreshments, consisting of ice cream and cake, were served on tastily decorated tables.

Did Not Want the Papers.—It is not at all surprising that a man who was made defendant in a damage suit for \$10,000 for alleged alienation of the affections of another man's wife, should evidence some hesitancy in allowing the papers in the litigation to be served on him. This was the case in Oregon City Monday afternoon when Sheriff Shaver attempted to serve such papers on a man named J. S. Seed, a stranger here, who is being sued by O. O. Jennings, a railroad man of Portland, for the sum of \$10,000 damages alleged to be the value of his—Jennings'—wife's affections. Seed had avoided the legal service of the papers on himself for a number of days, but was finally located in this city, and Deputy Sheriff Nettlet undertook to serve Seed with the papers. The defendant in the suit declined to accept service, whereupon the officer insisted that he should accompany him to the office of the sheriff. Arriving there Sheriff Shaver was not much more successful in making the service, although the papers were finally deposited in Seed's lap.

General Crop Summary.—The week has been dry and too cool for rapid growth. Except in the coast counties and a few localities in the Willamette valley, rain is badly needed for late crops. Fall wheat and barley are heading nicely and promise good yields. Early sown wheat, barley and oats are also doing fairly well, but late grain of all kinds is making slow growth, and without timely rains will give unusually light returns. The nights have been too cool for corn. Frosts occurred on several mornings, but they did no harm except east of the Cascades, where it is reported that tender vegetables were killed in a few exposed localities. Haying is well started and the first crop of alfalfa has generally been secured, with yields above the average; but meadow hay is not so promising, and a short crop is indicated nearly everywhere in the Willamette valley and Southern Oregon. Pastorage continues good on the ranges. Stock is in fine condition, and the flow of milk in the dairy districts is excellent. Hops, potatoes, field onions, sugar beets and gardens are growing slowly, and, although in need of rain, have not yet suffered seriously for lack of moisture. Strawberries and cherries are ripe and of excellent quality. Apples are doing well, but pears, prunes and peaches are uneven, in some localities being good and in others almost a failure.

Powder Houses Removed.—Yesterday was a day of general rejoicing among the citizens of Milwaukie, who by a picnic in Stripl's park celebrated the glad news that the powder houses would be removed from that place, says the Telegram correspondent in Monday's paper. For years this has been the consummation devoutly wished for by all Milwaukians. The corporation making Milwaukie a city was formed with this end in view, and the movement for the removal of the houses, where quantities of powder have been stored by the California and Vigorite powder companies, dates from about 1892. In that year an attempt was made to blow up the houses. Since that time the residents of the place have feared that some accident might happen which would cause an explosion, which, had it happened, might have caused the death of a large number of the residents of the city. Those owning the houses have sent word lately to the Milwaukie authorities that the powder has been taken away and will be stored in houses provided for it near Clackamas. Speeches were made yesterday by Mayor William Shindler, Alderman Kerr and Charles Lakin. Music was furnished by Mr. George Hively and Mrs. Smith. Ice cream and lunch were served, and the gathering was largely in honor of Mayor Shindler, the speeches being in congratulation for the accomplishment of the long-cherished purpose of the little city.

Had Operation Performed.—Charles Spencer, who had such a narrow escape from drowning while working for the W. P. and P. Co. several weeks ago, last week had an operation performed by which several small pieces of the bone were removed from the limb that was fractured at the time. The operation was successful.

Delightful Musicals.—The musical entertainment that was given at the home of Mrs. John Adams last Friday night by local talent and for the benefit of the Ladies Aid society of the First Presbyterian church, was a splendid success. Many of Oregon City's best vocalists and instrumentalists participated in the program, which was thoroughly enjoyed. The numbers by Mrs. Chas. Ward Pope were especially appreciable.

Colts Were Subdued.—Oregon City's Colts met their first defeat at the hands of the Hubbard team at Hubbard Sunday afternoon, the score being 9 to 6 in favor of Marlon county nine. The feature of the game was a home run by Jamieson, of Oregon City team, whose defeat resulted from two unfortunate overthrows at second base by Catcher Jamieson. Batteries were: Oregon City, Letto and Jamieson; Hubbard, Kincaid and Manning. Manning had eleven strikeouts against seven for his opponent.

Many Trout Planted.—Master Fish Warden Van Dusen was in Oregon City recently and inspected the site for the fish ladder at Willamette Falls. Construction of this ladder will be resumed and completed this summer, a recent suit in the circuit court having established the right of the state to make the proposed improvement. Five thousand mountain trout have been taken to the lakes at the head of Clear Creek and the north fork of the Molalla river, where they were planted. It is the purpose of the hatchery management of the state to thoroughly stock all of the suitable streams of the county with this species of the fish family.

Will Build Another Mill.—The management of the Willamette Pulp and Paper company announces that an additional pulp mill will this summer be constructed and added to the company's plant in this city. The new mill will supply the purposes that are now served by Station A, which will ultimately be abandoned, and will be of equal capacity. It will be stationed on the island in the Willamette river, adjoining the company's present building. Construction work on the new property will begin at once and will furnish employment to about 200 men. The mill management declines to estimate the cost of the new mill, the constructing of which will involve an expenditure of several thousand dollars.

Mrs. McAdam Resigns.—At the meeting of the Oregon City school board Monday evening, the resignation of Mrs. L. W. McAdam as one of the principals in the city schools, was accepted, and Mrs. E. Shaw, wife of Captain Shaw, was elected to supply the vacancy. Bids have been asked for connecting the two city school buildings with the city sewer, an improvement that is expected to cost about \$800. A floor, either of wood or concrete, will be provided for the basement at the Eastham building, and new blackboards will be installed in the four lower rooms at the Barclay building. Because of the deterioration in the buildings, and particularly the Barclay structure, the board decided to reduce by \$1000 the amount of insurance that is being carried on the buildings.

Powder Exploded Prematurely.—Frank Trullinger, a young man residing at Park Place, sustained painful injuries late Tuesday afternoon because of the unexpected explosion of a charge of powder with which he was working. The lad was blasting a well. He had placed the charge of powder, but before he could reach a place of safety the explosive went off, fearfully bruising his face, with the result that he may lose his right eye, which was pierced by a piece of rock. The middle fingers on the right hand were very badly torn and bruised, as was also the hand. So severe was the explosion that bits of rock were hurled through the ears of the unfortunate young man. Trullinger was taken to the Good Samaritan hospital for treatment in hopes that his eye might be saved.

In the Divorce Court.—A decree of divorce was returned by Circuit Judge McBride dissolving the bonds of matrimony between George A. Moore and Celeste L. Moore, and awarding to the woman the custody of the minor children and an allowance of \$35 per month alimony until the further order of the court. Two divorce suits were instituted in the Clackamas county circuit court. Laura J. Dumas is plaintiff in one case. She alleges that she was wedded to Edward M. Dumas at Knowlton, Wisconsin, in 1897, and charges that Dumas called her a liar and obliged her to work for a living. Mary E. Hatfield complains that Elijah D. Hatfield, whom she married at Columbus, Kansas, in 1895, deserted her in 1899, and on these grounds asks for a legal separation. Mrs. Dumas asks to resume her maiden name, Laura Daniels.

Frost Injures Vegetation.—An exceptionally severe and unseasonable frost one night last week did extensive injury to all kinds of vegetation in Clackamas county. Vegetables, such as corn, beans, squash and peas suffered great damage, while alarm is felt for the safety of the potato crop, which has become one of the main industries with the farmers of Clackamas county. Especially in the low lands, the plants of this crop have become discolored and it is certain that the growth of the vines has been seriously retarded, if not entirely destroyed. The frost was the most severe that has been experienced in this section for years. In some localities it is reported that ice formed on standing water. Fruit of all kinds is too far advanced to be injured by the severity of the frost. (The foregoing appeared in Sunday's Oregonian as a special from Oregon City, but it has since developed that the frost did not do as much damage as was feared.)

Stamp Mill for Mines.—A double stamp mill for the mines of the Molalla Central mining company's properties on Ogde Creek has been purchased by the managers of the company, and is now being transported to the mines. It has already been carried out to the Willamette region, and will be moved to its destination as soon as the snow will permit. As the summer advances the snow melts more and more, and in a few weeks' time it is expected to set the mill up at the mine, where a steam engine will furnish the power for its operation. This is the first stamp mill ever brought into the county, or into this section of the state, as the mining industry in this part of Oregon has never been at all prominent. As the work of the Molalla Central company progresses additions will be made to the mill.

An Alarm Clock for 25c.—If you want to get up early and feel good all day take a Little Early Riser or two at bed time. These famous little pills relax the nerves, give quiet and rest and refreshing sleep, with a gentle movement of the bowels about breakfast time. W. H. Howell, Houston, Tex., says "Early Risers are the best pill made for constipation, sick headache, biliousness, etc." Sold by G. A. Harding.

G. A. Harding.—Asks the readers of this paper to test the value of Kodol Dyspepsia Cure. Those persons who have used it and who have been cured by it, do not hesitate to recommend it to their friends. Kodol digests what you eat, cures indigestion, dyspepsia and all stomach troubles. Increases strength by enabling the stomach and digestive organs to contribute to the blood all of the nutriment contained in the food. Kodol Dyspepsia Cure is pleasant and palatable.

Doesn't Respect Old Age.—It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect Pill. 25c. at Charman & Co.'s drug store.

U. B. Church.—Preaching services at the United Brethren church, head of Seventh street, every Sunday, 11 a. m.; Sunday school 10 a. m.; Christian Endeavor 7 p. m.; preaching 8 p. m. Prayer meeting every Wednesday evening at 8 o'clock. All are cordially invited to these services. C. F. Blanchard, pastor.

State of Ohio, City of Toledo, ss. Lucas County.
