A Man of the Times

AMONG the notable professional men of this country who have achieved great success along strictly legitimate lines is Dr. R. V. Pierce, founder and medical director of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y.

Devoting his attention to the specialty of women's diseases, he has become a recognized authority in that line. His work, "The Common Sense Medical Adviser," is now in over two million homes in this country and Europe. He has represented his home district in Congress and Senate.

There should be a close relation between doctor and patient. Single and married women very often find that it is repugnant to their feelings to consult their family physician. In such a case they can put perfect confidence in Dr. Pierce, who has made such a success in the treatment of woman's diseases, for he will give you the very best advice possible, and without cost to you.

It is much easier for a woman to confide in the average man than in the average woman. She knows that the man will respect her confidences and keep them to himself. He is strong, has more experience of the world and can help the woman who needs advice. It is said that loyalty is usually lacking in the feminine make-up. Without a perfect understanding there can be no helpful advice, and not one woman in ten places implicit confidence in her own sex.

The consciousness of her own weakness puts her on guard against the failings of all other women. There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the womanly organism.

When a woman has fits and pains that she cannot bear—when life seems dark for every woman, she should confide her troubles to a physician of standing in the community, or one who has a national reputation. Certainly it would not be the part of wisdom to confide in an ignorant person without medical education simply because she was a woman. There is every reason why she should write to some great specialist, one who has made the diseases of women a specialty for a third of a century, like Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. All his correspondence is held sacredly confidential, and he gives his advice free and without charge.

"Good actions speak louder than words," so too, does the testimony of many thousands of women during a third of a century speak louder than mere claims not backed by a guarantee of some kind. That is the reason why the proprietors of Dr. Pierce's Favorite Prescription are willing to offer \$500 reward for women who cannot be cured. Such a remarkable offer is founded on the long record of cures of the diseases and weaknesses peculiar to women. If there is an invalid woman, suffering from female weakness, prolapsus, or falling of womb, or from leucorrhoea, who has used Dr. Pierce's Favorite Prescription without complete success, the original proprietors and makers of that world-famed medicine would like to hear from such person—and it will be to her advantage to write them as they offer in perfect good faith, a reward of \$500 for any case of the above maladies which they cannot cure.

Address Dr. R. V. Pierce, Buffalo, N. Y., for the "Common Sense Medical Adviser," a book of 1008 pages. For cloth-bound copy send 37 cents in one-cent stamps, or for paper covered 21 stamps.

Your truly
Dr. R. V. Pierce, M.D.

We guarantee that Dr. Pierce's Favorite Prescription does not contain alcohol, opium, or any harmful drug. It is a pure compound of medicinal plants scientifically combined. Persons making false statements concerning its ingredients will be prosecuted.

World's Dispensary Medical Association,

Dr. R. V. Pierce, M.D.
PRESIDENT.

Another club woman, Mrs. Haule, of Edgerton, Wis., tells how she was cured of irregularities and uterine trouble, terrible pains and backache, by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—A while ago my health began to fail because of female troubles. The doctor did not help me. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles, and I felt sure that it could not harm me at any rate to give it a trial.

"I was certainly glad to find that within a week I felt much better, the terrible pains in the back and side were beginning to cease, and at the time of menstruation I did not have nearly as serious a time as heretofore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 20 pounds more than I ever did, so I unhesitatingly recommend your medicine."—Mrs. MAY HAULE, Edgerton, Wis., Pres. Household Economics Club.

FREE MEDICAL ADVICE TO WOMEN.

Don't hesitate to write to Mrs. Pinkham. She will understand your case perfectly, and will treat you with kindness. Her advice is free, and the address is Lynn, Mass. No woman ever regretted having written her, and she has helped thousands.

When women are troubled with irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhoea, displacement or ulceration of the womb, inflammation of the ovaries, general debility, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Frances Cook, Box 670, Kane, Pa., says: "DEAR MRS. PINKHAM:—I suffered for ten years with leucorrhoea, but am glad to say that through the use of Lydia E. Pinkham's Vegetable Compound and her Sanative Wash I am cured, for which I am very thankful."

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.
Lydia E. Pinkham Medicine Co., Lynn, Mass.
