Wm. Goetting, a 15-year old lad, was severely reprimanded and fined \$10 in the city police court Tuesday for indecent exposure. For a number of weeks young Goetting had been making himself obnoxious to a number of girls a few years his junior. In making the arrest, Chief Burns was obliged to discharge his revolver to bring the accused young man to a halt. Goetting started to run on the approach of the officer, but the explosion of the gun into the air had the effect of bringing him to an immediate standstill.

Workmen are this week installing in St. John's Catholic church in this city a new altar at a cost approximating \$500. This new fixture replaces the altar that was placed in the church building and dedicated in 1846. The Oregon City church, being the oldest Catholic church in the state, the altar will be preserved as a relic of the early history of the Catholic church of the Pacific Northwest by the members of the local congregation. The new altar contributes materially to the furnishings of the Oregon City church. It was provided for by the ladies of St. John's Altar Society, who have every reason to feel proud of the valuable services they are always rendering their church.

An unusually expeditious feat in railway construction was accomplished by the Oregon Water Power & Railway Co. in replacing its trestle work near this city Tuesday. The trestle referred to was that extending from Green Point to the Clackamas river. It was 5080 feet in length. A force of 166 laborers in 22 hours removed this trestle work, relaid the track on a ground foundation for its entire length at an elevation reduced from four to twelve feet, cut the trestle away, dropped the old trolley line and erected a new line. The regular schedule in the operation of the company's cars was resumed at 5 o'clock Wednesday morning, the first car to pass over the new track being the early car out of Portland.

James Rait, who operates the rock crusher in connection with the making of street improvements in this city, discovered a number of counterfeit \$10 and \$20 gold pieces one day last week. The bogus coin, which had every appearance of the genuine, was discovered in an old kettle which was secreted about the rock quarry in which Rait was working. Several years ago a gang of counterfeiters operated in this locality. Being discovered, they disposed of their counterfeit tools before their arrest took place and in the absence of sufficient incriminating evidence a conviction was not secured. It is presumed that the coins discovered by Rait are the product of that gang.

Sunday will be a day long to be remembered at Chautauqua. Besides the sacred concerts, Dr. Hillis, the great successor of Henry Ward Beecher, will preach at 2:00 p. m. and 8:00 p. m.

The greatest Chautauqua in its history is drawing to a close. Don't fail to be present on Saturday afternoon and hear Dr. Hillis, in his famous lecture, "John Ruskin's Message to the Twentieth Century."

A Washington, D. C. dispatch says that the authorities have concluded that there is not sufficient room for the Oregon City land office in the Federal building at Portland. It follows that the local land office will remain at Oregon City for the present, at least.

There ought to be an attendance of ten thousand on Saturday, the last week day of the Chautauqua. A great match game of base ball will take place at 3:30 p. m., and after the great concert in the evening the best fireworks in the history of the assembly will be fired off on the base ball grounds.

Mr. and Mrs. R. Petzold's home was the scene of a jovial company of friends Tuesday night, the gathering being in honor of the 36th birthday anniversary of Mr. Petzold. It has been reliably learned that the government will not acquire the rental of the unleased space in the I. O. O. F. building in this city in which the local postoffice is located. The rental that is paid for the Oregon City postoffice, \$900 per annum, is the maximum amount for that expense that is allowed a second class office, and the government, through a special agent, has informed the owners of the building that an additional allowance for rent will not be granted. Under the present arrangement an iron railing enclosing the unleased portion of the building interferes with the delivery of mail to patrons at the office. The government has submitted a proposition to the Odd Fellows proposing to exchange an area of the reserved floor space for a part that is now occupied by the post-office. It is understood that the proposition will be favorably acted upon by the Odd Fellows, who will meet this week to consider the matter.

A Very Close Call. "I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life.

Card of Thanks. We desire to thank our friends and neighbors, particularly the ladies of the Altar Society of St. John's Catholic church, the employes of the woolen mill, and also the employes of the W. Deserves Your Patronage. The growth of a community and the success of its local institutions depends entirely on the loyalty of its people. It is well enough to preach "patronize home industry," but except the service given at a home institution equals that of out-of-town enterprises, this argument carries no weight and is entirely disregarded, as it should be. But with Oregon City people it is different. A few months ago E. L. Johnson established the Cascade Laundry. It is equipped with the latest improved machinery and is daily turning out work that is equal to any and superior to much of the laundry work that is being done in Portland. Being a home institution and furnishing employment for many Oregon City people, it is enjoying an immense patronage. The high standard of the work being done commends it to the general public. Laundry left at the O. K. barber shop will be promptly called for and delivered. Packages will be called for and delivered to any part of the city. Telephone 1204. E. L. Johnson, proprietor.

Cured of Chronic Diarrhoea After Ten Years of Suffering. "I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well, and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by G. A. Harding.

Indigestion Causes Catarrh of the Stomach. For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure. Kodol digests what you eat. Makes the stomach sweet. Relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.
