There are too many white blood corpuscies in such cases, many white blood corpuscies in such cases, and there is often a peculiar sound in the heart, called a murmur, in cases of anemia. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its natural consistency and richness. It is not heart disease. Is the worst kind of poverty. However rich a woman may be, if her health is "poor" she is poor indeed. She has no appetite for food and the choicest dishes cannot tempt her. She turns and tosses through a restless night on a couch John Slaughter. on through a resiless hight on a couch which might woo an empress to slumber. She has no strength for household cares, extre delight in social pleasure. She sits "perked up in a glistering grief wearing a golden sorrow." She is a wife and mother. But she has no happiness in

either relation. She knows her husband's life is set in time and time to the minor music of her own misery. If her child laughs or cries her nerves quiver with

Ask such a woman if she would like to her child's playmate. Could there be but one answer?

Such a woman can get well if she will All her symptoms indicate a diseased condition of the delicate womanly organism. Cure that condition and the woman will be lifted up to the full enjoyment of health.

In ninety-eight cases out of every hundred Dr. Pierce's Favorite Prescription will cure womanly diseases, will restore the womanly health. It has cured tens of thousands of women many of whom had been given up by physicians and friends. It is essentially a medicine for woman's ills. It dries enfeebling drains. It heals inflammation and ulceration. It cures female weakness and bearing down pains. It tranquilizes the nerves, restores the appetite and gives refreshing

sleep.
"Pavorite Prescription" differs from almost all other medicines put up for woman's use in that it contains no alcohol and is entirely free from opium, cocaine and all other narcotics. It is in the truest sense of the term a temperance medicine.

I suffered constantly with headache, pain in back, shoulders, arms and chest, had papitation, nervous prostration, constitution dizziness, ringing in ears, could not sleep, and breathing was so difficult at times I could not lie down. Words fail to describe my sufferings when I wrote to you for savice. In a short time I received a kind letter from you telling me I would be greatly benefited, if not entirely cured, by the use of Lr. Pierce's Pavorite Prescription. When I had taken one lottle of the Prescription, together with Ir. Pierce's Pleasant Pellets and the local treatment which you advised, I could walk (with the support of a came), the drawing and pain in side and bearing down weight were not so had, and when I had taken three bottles of the medicine the periods were regulated, it was not so nervous, child sleep well, and the pain in side and bearing down had vanished. I have taken aix bottles of 'Pavorite Prescription,' two of 'Golden Medical Discovery' and four vials of 'Pellets,' and my health is better at this time than it has been in five years.

"With grateful thanks for your kind advice, and with best wishes."
