Water consumers have been becoming negligent in paying their water rent and fourteen of them were shut off last month for not paying promptly. There is a large amount of water used for sprinkling, owing to the dry season, and it is necessary that consumers should not waste it or the use of meters will be required. Quite a number have had the water shut off for not observing the hours, which are reasonable for all uses. The filters continue to furnish all the water used and give good satisfaction.

The Clackamas County Court refused to renew the saloon license of H. Jacques at Oswego, a strong remonstrance having been filed against such an action by the citizens of that place. This demonstration of local option legislation is the same plan that has been in vogue in this county for a number of years, and illustrates the manner in which these resorts have been controlled for years, the majority ruling. This action of the court leaves Oswego without a saloon.

Representative Brownlow, of Tennessee, tells that once he was running a country paper during campaign times, and was printing "fighting" language every week. One day, just after the paper was out, a big man, armed with a club, walked into the sanctum and fiercely inquired if the editor was in. The frightened Brownlow had wit enough to answer that he was not, but that he would go out and hunt him up. He started for the street, and at the foot of the stairs met another irate fellow, who asked: "Will I find the editor of this dirty sheet upstairs?" "Yes," said Brownlow, "he's up there at his desk just itching for a fight." The second man went up, and Brownlow disappeared. Which whipped the other is not related—and Brownlow didn't go back during the day to find out.

The Democrats were assembled in state convention at Nashville, and were engaged in the organization of the convention. A former member of the supreme court, who had partaken quite freely, got the floor, and proceeded to discuss the questions involved in the temporary organization. Naturally his reasoning was not clear, and one of his friends, in a loud whisper, said to him: "Sit down, judge, you don't know the difference between temporary and permanent. You are drunk!" With an effort the judge steadied himself, and with fine scorn replied: "Teash I do, I'm drunk. Teash temporary. You're a d-d fool. Teash permanent."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

IT IS SERIOUS.

Some Oregon City People Fail to Realize the Seriousness.

The constant aching of a bad back. The weariness, the tired feeling. The pains and aches of kidney ills. Are serious, if neglected.

Dangerous urinary troubles follow. This man shows you how to avoid them.

T. W. Shankland, who is a street car conductor on the Woodstock street car line, residing at 719 Ellsworth street, Portland, says: "Some time last fall I began having considerable trouble and annoyance from a dull aching pain in the back over the kidneys. I think it was caused from the constant shaking and jarring of the car. I thought at first it would disappear as quickly as it came, but this was not the case. Learning of Doan's Kidney Pills I procured a box and took them according to directions. The result was entirely satisfactory. The backache grew less and less and soon disappeared, and as far as I can tell it has gone for good for there have been no symptoms of a recurrence."

Plenty more proof like this from Oregon City people. Call at C. G. Huntley's drug store and ask what his customers report. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name Doan's and take no other.

Judge Clay N. Merritt, of Alabama, was asked by a reporter how he had acquired the facility with which he turned from one case to another. In explanation he stated that he had learned this from what he saw at a baptism of colored people when a boy. "The weather was very cold," said Judge Merritt, "so that to immerse the candidates they were obliged to cut away the ice. It happened that when one of the female converts was dipped back into the water the cold made her squirm about, and in a moment she had slipped from the preacher's hands and was down the stream under the ice. Looking up with perfect calmness at the crowd on the bank he said: 'Brethren, this sister hath departed—hand me down another!'"

No such thing as "summer complaint" where Dr. Fowler's Extract of Wild Strawberry is kept handy. Nature's remedy for every looseness of the bowels.

Deserves Your Patronage. The growth of a community and the success of its local institutions depends entirely on the loyalty of its people. It is well enough to preach "patronize home industry," but except the service given at a home institution equals that of out-of-town enterprises, this argument carries no weight and is entirely disregarded, as it should be. But with Oregon City people it is different. A few months ago E. L. Johnson established the Cascade Laundry. It is equipped with the latest improved machinery and is daily turning out work that is equal to any and superior to much of the laundry work that is being done in Portland. Being a home institution and furnishing employment for many Oregon City people, it is enjoying an immense patronage. The high standard of the work being done commends it to the general public. Laundry left at the O. K. barber shop will be promptly called for and delivered. Packages will be called for and delivered to any part of the city. Telephone 1294. E. L. Johnson, proprietor.
