### A Great Agency

We Have Secured Control for This City of the Fulton Compounds, the Only Things Known to Medicine That Cure Kidney Diseases in Both the Primary and Secondary Stages.

The kidneys are not sensitive and the disease is sometimes fastened and already chronic with the very first symptoms. It has hung on eight to ten months it is surely chronic. In either case why take chances? Why not take at first the only thing known that cures kidney disease in the chronic as well as the primary stages. The Fall case cited below, by permission, is especially valuable for its incurability was doubly confirmed by consulting physicians, and after recovery under the Fulton Compounds the recovery was also doubly attested.

On May 1st, 1902, the son of R. C. Peil, the manager of the Pacific Coast Hiscuit Company of Second and Folsom streets San Francisco was declared by the family physician to have chronic kidney disease and incurable. Another physician was called in and confirmed the diagnosis. The whole body was swollen with dropsy, and a fatal termination looked for. The Fulton Compounds were then turned to as the only hope. On September 18 the dropsy had disappeared and the boy was well, and after double examinations the physician declared the recovery complete and gave Mr. Peil a written report which he now has.

Judge G. A. Cassania, the Police Judge of San Francisco, also attests the recovery under his own observation of a friend of his who also recovered when the case (chronic Bright's Disease of the kidneys) was well known to be incurable according to all medical authorities. Up to the advent of the Fulton Compounds medicine knew nothing that would cure kidney troubles after they became chronic. About nine-tenths of all cases are now curable, even after they have developed into the dreaded chronic forms of Bright's Disease and diabetes. No statements are published or invited except from chronic cases that, like the above, are incurable by all other known medicines. If you kidney trouble is recent Fulton's Renal Compound will cure it quickly. If it is of over eight to ten months standing it is the only thing known that will save your life. John J. Fulton Co., 65 Washington Street, San Francisco, sole proprietors. Fulton's Renal Compound for Bright's and Kidney Diseases \$1.00 for diabetes, \$1.50. Free analyses made for patients. Send for pamphlet. We are the exclusive agents in this city.
