### WHY WE ARE AGENTS

Here Are Some of the Convincing Facts That Caused us to Take the Agency for the Fulton Compound, the First Things Known that Cure Chronic Kidney Disease.

First, let it be distinctly understood that every one of the cases below had been diagnosed by one or more physicians as chronic and incurable; second, note the certainty of the results as shown by the recovery also of the friends they told who were similarly afflicted with supposed incurable kidney disease. N. W. Spaulding, President Spaulding Saw Co., San Francisco, had a recovery in his own family and told several others who recovered. Adolph Waske, capitalist, San Francisco, recovered himself and told two friends who recovered. Dr. Carl D. Ziehl, pioneer druggist, 225 Pacific street, San Francisco, recovered himself and gave it to more than a dozen patients who recovered. Charles Engelke, editor of the German paper, San Francisco, recovered himself and told it to a number who recovered, one of them being Charles F. Wacker, the Sixth street merchant. R. M. Wood, editor Wise and Spirit Review, recovered himself and told it to several who recovered, among them being an old-school physician. Edward Short of the San Francisco Call recovered, also three of his friends, viz: William Martin, Captain Hubbard of the Honolulu route and William Hawkins of the U. S. Quartermaster's Department of San Francisco. John A. Phelps of the Hotel Repeller, San Francisco, and two other friends, etc. etc. The kidneys are the source that strain the poisons out of the system. We can stand the derangement for a short while, but when the interference becomes chronic (permanent), as first explained by Bright, it is only a question of how long before death will ensue. It is then called Bright's Disease and incurable. All kidney troubles develop into this form about the 25th to 30th month. The above cases were incurable by all other known means. People having kidney disease should begin at first with the only known thing that will cure it if it has reached its serious stage.
