In its issue of October 7, the Enterprise unintentionally did Leo Chamberlain, formerly of this city, an injustice for the correction of which this item is written. An item at that time stated that young Chamberlain had been sentenced to the state penitentiary at Salem from Pendleton for obtaining money under false pretenses. The information on which the item was based consisted of a news report telling of the arrest of a young man named Chamberlain and the subsequent arrival of a letter in this city from a resident of Pendleton stating that the young man was none other than Leo Chamberlain formerly of Oregon City. T. Chamberlain, father of Leo Chamberlain, called at the Enterprise office Wednesday and denounced as a wilful and malicious invention the report that credited his son with the crime. Mr. Chamberlain states that until a few weeks ago his son was employed at Pomeroy, Washington, when he went to Salt Lake City to accept a better position, where he is now located.

Our Clothes Satisfy

both in style and price

The man who buys one of our suits has the satisfaction of knowing that he has paid the least possible price for a good all wool suit. He also knows that the suit embodies style and fashion, that the pattern is neat and seasonable, that the making is good from the first snip of the shears to the last touch of the pressing iron. In short, he is thoroughly satisfied.

We can satisfy you. There is almost as much comfort from satisfaction as from the clothes themselves.

We have these overcoats, and they are designed and tailored properly. A better coat is out of the question. Other styles, same make, are here, with or without belts, made for men who demand particular garments, and for you who wish to be correctly clothed and have money left. OUR Sack Suits, designed according to advanced fashion's predictions for Fall and Winter, are here. The accompanying drawing is a faithful illustration of three styles of particular cut and elegance made by Crouse & Brandegee. Notice the length of coat—the distinctive cut of the three-button Newport—also in our Normandie the same regard to detail of style and finish. We

Keep in mind the fact that a tall man cannot wear a suit that a short man should wear. This is the satisfactory feature on both the Newport and Normandie. They are absolutely correct in every and all requirements. But the man who is not over six feet tall is not overlooked; the same careful attention has been given him. The result is our Arvon, which also has much elegance of make and gives the short-man extra inches in appearance. We have these styles in the NEW BROWNS—in beautiful and choice materials, those new patterns of slight over-plaids almost indistinct. These cost what you would expect, \$10.00 to \$35.00.
