

# Consumption

Salt pork is a famous old fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

**In Memoriam.**

Whereas, It has pleased the Creator in his infinite wisdom to remove Bro. H. C. Huffman from our midst to a higher Grange than ours:

Be it resolved by the Garfield Grange that we extend our heartfelt sympathy and condolence to the bereaved family of the deceased brother; that we feel we have lost a faithful and lovable member, and that we should profit by the exemplary character of our brother in making our lives better and nobler:

Be it further resolved that the charter of Garfield Grange be draped in mourning for a period of thirty days, and that the secretary be instructed to enter these resolutions on the minutes of this meeting and send a copy to the family of the deceased brother; and also send a copy to each of the county papers for publication.
