School Notes

By Supt. Zinser

West Oregon City has the distinction of being the first school district in Clackamas county to make use of the law for the transportation of children at the expense of the school fund. It was found that eleven children live beyond the two-mile limit from the school house, and the district voted to employ a driver and conveyance, paying him \$20 per school month for this service.

This week the superintendent had a profitable conference on this subject with the school officers and other citizens of Colton and James schools, where the sentiment is quite favorable for early action of some kind along this line. John Putz, M. E. Bonney and N. S. Dix are the directors of Colton; C. E. Corbett, clerk. The directors of James are C. R. James, John Wright, and Holden Hargreaves.
