DOVER.

This is the nicest winter we have had for several years. Guy Woodie has been on the sick list for a few days. Mrs. Selman visited Oregon City last week, making the trip horse-back. Mrs. P. DeShazer is visiting with her son James, at Firwood. We were disappointed last week by not having preaching services but Mr. Crestler gave us a very interesting talk. James DeShazer is proud once more, the occasion being the arrival of a baby girl at his home a few days ago. Guy Woodie has just finished building a new barn on Mr. Eason's farm. It begins to look as though he meant business. A. J. and George Kitzmiller have completed a house on Harry Eilor's claim at Rocky Scribble and now they are hauling lumber to build on Mary Kitzmiller's claim. It looks like the carpenters are being kept busy this winter. Anyone desiring to buy or rent a farm should visit this section where we have the finest lands in the country. Joe DeShazer planted potatoes last week. Perry Kitzmiller is going back to Eastern Oregon next week where he has been working for several weeks. Mr. Crestler is going to Walla Walla in a short time. We regret to see him go.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

The Hard Times Social at the church last Saturday evening was a success in every way. A large crowd was present and many hard time outfits were on display. A literary entertainment was given which was good, after which followed the parade of the tattered and patched. Three judges decided the most tattered and forlorn hard times was Mr. Earl Haas, who was presented with a black tie to wear with his "conventional" black suit. The most patched lady, Miss Jennie Wisler, was presented with a bottle of perfume and some toilet soap. Each lady present brought a pie and Charlie Ely proved a good auctioneer and sold the pies readily. The gentleman buying, after all pies were sold the men, treated the crowd to pie and all spent a pleasant evening. The receipts for the pies was \$17.10. This fund is to be used for fencing the church property. Wednesday morning Mrs. Griffith's house caught fire in the roof, but the prompt work of the neighbors saved it from burning. Mrs. Smally is able to be up after her long and serious illness.

Bright's Disease

Not Rare, but Common--Kidney Disease Develops into Bright's Disease the 8th to 10th Month; Then Incurable by All Known Means Except the new Fulton Compounds, which Record 87% of Recoveries.

We have before us a little work on kidney diseases by Joseph F. Edwards, M. D., of Philadelphia, that contains some things that everyone ought to know. Many people imagine Bright's Disease is rare, when, in fact it covers nearly the whole gamut of kidney diseases. This book sets out that the kidneys have but one function, viz., the elimination of the urea and waste products, and that all interferences with that function are called Bright's Disease. Dr. Edwards adds: "For the benefit of physicians who may read this book I will give a list of the cases which I attribute to Bright's Disease, viz.:

- Albuminuria. Congestion of the Kidney. Degeneration of the Kidney. Puffy Degeneration of the Kidney. Inflammation of the Kidney. Trauma. Disease of the Kidney." Thus nearly all kidney disease being Bright's Disease, the serious question is, is it in the primary or secondary stage? After the eighth to tenth month it becomes chronic and is then incurable by all known means except the Fulton Compounds. There is often no notice of the trouble till it has fastened. If you have kidney disease in the first stage the Renal Compound will cure it quickly. If it is of more than 8 to 10 months standing it is the only thing known that will cure it. In proof that nothing else will we cite all medical works in evidence. The stockholders of the John J. Fulton Co., business and professional men of San Francisco, are the first in the world to announce the cure, presenting a definite percentage of recoveries (87 per cent), and giving out the lists of the cured, all among purely chronic, well-defined cases. If you have any kind of kidney trouble, there is only one thing to take. The Renal Compound for Bright's Disease is \$1. for Diabetes, \$1.50. John J.
