STAFFORD.

This part of thhe world has been froze up the past week and the "croakers" are busy predicting that fall sown grain will A. J. Johnston died last Wednesday have to be resown, but we are sure to have rain soon, lets wait and see what we shall see. Some Ave already seeded a few patches, but we think the seed was treated with a too strong dose of the new smut killer called formalin.

After being confined to his bed for nearly five years and faithfully attended by a loving wife and family of grown children, Mr. John Schatz passed away on Sunday afternoon, the 12th and was followed to his last resting place by a large concourse of friends and neighbors. He was buried in the Stafford cemetery by the side of two little grand children. He was 72 years old, a good man, the noblest work of God.

And we are glad he lived thus long And glad that he has gone to his reward, And deem not Mother Nature did him wrong.

DROPSY

Do Your Ankles or Limbs Swell? Are Your Eyes Puffy? We are the Sole Agents for the Only Thing Known That Cures the Kidney Diseases that Cause Dropsy, viz: Fulton's Compound.

It is now well known that dropsy is not in itself a disease but is commonly a symptom of Bright's Disease or Diabetes. Hence, up to the discovery of the Fulton Compounds, dropsy was incurable. It is now, however, curable in nearly nine tenths of all cases. Here is an interesting recovery, to which we refer by permission,

Mrs. Peter Goyheneix of 928 Fillmore street, San Francisco, became alarmingly dropsical. Her physician had finally to tap her every few days. She was tapped nearty forty times and grew worse from day to day. The physician finally told her husband that she had Bright's Disease of the Kidneys, that it was in an advanced chronic state and beyond medical aid. vanced chronic state and beyond medical aid.

Her heart also gave her the usual trouble and she was in such a serious condition the relatives were sent for. They put her on Fulton's Compound. It stayed on her stomach, the first thing that had done so for a week. The second week the dropsy declined a little and the improvement was then gradual until her recovery was complete. This case was examined into by representatives of the San Francisco Star and the Overland Monthly, and the genuineness of the case and the recovery were fully attested in their columns.

Mrs. Thomas Christol of 426 Twenty-seventh street, San Francisco, was also swollen with dropsy, as a result of chronic Bright's Disease, to more than seventy-five pounds beyond her normal weight, and had to be moved in sheets and was close to death's door although she had four physicians. She was put on the Fulton Compounds. Three weeks showed improvement and in six months she was well, and permits this reference.

There is only one thing known that will cure the chronic kidney disease that is behind dropsy and that is Fulton's Compound. The Renal Compound for Bright's and Kidney diseases, \$1: for Diabetes, \$1:00. John J. Fulton Co., 409 Washington street, San Francisco, sole compounders. Send for pamphlet. We are the sole agents for this etty. Her heart also gave her the usual trouble and
