LOGAN.

School has started again—so has the Oregon mist. Mrs. Underwood has returned to her home at Stone.

Father Hatton of Stone lost the sight of one eye recently.

There is to be preaching at the Logan church from now on. A parsonage will be built to accommodate the minister, whose name we have not learned. The land for the parsonage was bought of Mrs. Babler at the rate of \$100 per acre.

Mrs. M. Frakes is on the sick list this week.

Mr. Olmstead, former cheese maker for Logan Cheese Mfg. Co., moved to his farm down on the Columbia.

F. Moser is building a barn for Mr. John Boss.

Some of the farmers out here have caught the "civic improvement" spirit. Mr. J. Sprague has made a new fence along the lane, which improves the appearance of that corner very much.

In the last issue of the Enterprise, "Granger" asks if the National Grange feels the necessity of a permanent home. I do not think they do myself, when the Granges of this State and Washington had to pledge a "bonus" of two thousand dollars for their entertainment. Yet when we talk of any permanent improvement at home, the mere mention of it creates a stir. It is like road improvement. A great many will growl at the roads, but when it comes to giving something out of their own pocket, they'll "jump over the fence and be out of sight" in an instant. It's a case of "many men of many minds."

Mrs. Mary E. Gill, who passed quietly away of pneumonia at her home in Logan, Clackamas County, Oregon, February 20, 1905, was the eldest daughter of Mr. and Mrs. Chas. Sweeting. She was born in Philadelphia, Pa., Dec. 28, 1865, and was married to J. S. Gill, December 28, 1875, at Omo, Jewell County, Kansas, where they resided until March, 1889, when they moved to Oregon, and have since lived at Logan, Clackamas County. She leaves a husband and six children. Mr. Geo. N. Gill and Mrs. Mary E. Barrett of Bethel; Howard, Mahala and Charles Gill of Logan and Henry E. Gill on the U. S. S. Oregon. She was laid to rest in Pleasant View cemetery February 22, 1905. Funeral services were conducted by Harding Grange, of which order she was a faithful member. She was secretary of said Grange for several years and taken the 7th degree. "Come unto me, all ye that are weary, and I will give you rest."

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Mr. DeMoy, of Garfield passed through Viola Tuesday on his way to Redland, where his wife is visiting her sister, Mrs. Hillingsworth.

Mrs. Bodish, guest of Mrs. Sevier, has returned to Rocky Point.

The young people of this vicinity have organized an Epworth League of about thirty members. The society meets at 7 p. m. Sundays.

La Grippe is an unwelcome caller in almost every home of this community.

BEAVER CREEK.

Mr. Jack Frost moves away and leaves the natural rain behind.

Mrs. Dora Thomas, who called at the Scanlon residence last Sunday afternoon, returned home like mad as the horse became frightened and got up an unusual gait.

Mr. and Mrs. J. Tremaine are the proud parents of a baby girl. A ten-pound girl arrived at the home of Mr. and Mrs. August Bluhm February 14.

The people of this section are beginning to wonder if the school flag was bought to be hung on the staff or to be nailed up on the interior of the building as an ornament.

Mr. Kuntzman, of Maple Lane, broke the lumber hauling record here this week by hauling 2300 feet of green timber out of the Shanon Bros.' mill.

STAFFORD.

The weather bureau is getting the weather in pretty good shape now, rainy nights and sunny days, and the wheat is struggling back to life again.

There was a regular Irish wake at Larson's hall Saturday night, fighting right in the hall among the dancers, between a crowd from Oswego and a resident tribe, in which several got severe blows and Adolph Gross got knocked down and kicked in the face, and maltreated generally. It appears it was whisky fighting, but the boys were the ones to feel the blows. Queer, is it not.

Bright's Disease and Diabetes News.

The John J. Fulton Co. of San Francisco, First in the World to Announce the Cure and Present a Definite Percentage of Recoveries (87 per cent) and Give Out Lists of the Cured.

Here are some of the San Francisco recoveries. All of them were declared by physicians to be incurably ill with Bright's Disease or Diabetes: N. W. Spaulding, President Spaulding Saw Co.; Adolph Waske, founder Cal. Cracker Co.; Carl D. Zelle, pioneer druggist; Chas. Engelke, editor San Francisco Journal; R. M. Wood, editor Spirit Review; Edward Short, of the Call; C. A. Newton, yardmaster S. P. Co. (Sacramento); John A. Phelps, Hotel Repeller; Mrs. M. Empey, 130 Steiner St.; Mrs. S. E. Cline, 1737 Broadway; Mrs. P. Goyhenetz, 928 Fillmore St. (tapped 38 times); R. C. Pell, Manager Pacific Coast Biscuit Co.; F. J. Baeholder, Pacific Coast Agt. Seth Thomas Clock Co.; E. B. Cutler, Attorney, 330 Pine St.; Wm. Hale, Real Estate, 215 Sansome St.; Mrs. C. C. Mathewson, Proprietor Hotel Clifton; Thos. Haskins, Merchant (Petaluma); Col. Wm. Hawkins, U. S. Quartermaster's Department; Chas. F. Wacker, Merchant, 131 6th St.; Mrs. Thos. Christol, 428 7th St., and hundreds of others. Some were at death's door when put on the compounds, but many such recovered. That many were in extremis may be learned from this: Some recovered who had been tapped dozens of times; others were already in the twilights of uraemic poisoning; many had from four to six physicians confirm the fatal diagnosis; several left standard hospitals in extremis; several had relatives called in for last interviews, and a few recovered who were in a state of absolute coma.

In a word about 87% of all cases of Bright's Disease and Diabetes, heretofore positively incurable, are now curable under the new Fulton Compounds. The Renal Compound for Bright's and Kidney Disease is \$1; for Diabetes, \$1.50. Pamphlet free. We have just established a depot in your city where you will find the Compounds and pamphlets, viz:

that boys will put something into their mouths to steal away their brains?

A man has been trying to start an Artisan Assembly upon the ruins of the Workman Lodge, which died a natural death when the double assessments came, but he was a week too late, as a number had already joined other lodges, and he could not get a hall, so he put out for pastures green Monday after two weeks of faithful endeavor.

People are trying the new mill at Willsonville, which is said to make fine flour. Mrs. Weddle visited at Mrs. Gage's Friday.

Mr. Gebhart moves this week into his new house on the place he bought of Capt. Hayes.

CANBY.

Mr. Case has rented Mrs. Cantwell's house and moved in March 1st.

Some activity in building is promised for the coming spring and summer. Arrangements are already being made for the construction of several dwelling houses. Among them is one which Mr. Druschel will build on lots recently purchased of Mrs. Rogers just north of the Methodist church.

The Canby school children are making the most of a vacation this week. It is the interim between the winter and spring terms. There will be but two teachers for the spring term, viz: Prof. Matthews and Mrs. Wensches.

Hezekiah Stagstill has moved some effects into his house on Second street and is making some repairs. Rumor has it that he intends to occupy it himself, but not to batch.
