**DYSPEPSIA ON THE DECLINE.**

Huntley Bros. Co. Claim Pepsikola Cures 39 cases Out of 40.

Why any one in Oregon City should continue to suffer with indigestion when a 25 cent box of Pepsikola will cure is certainly a mystery.

Huntley Bros. Co., have been selling Pepsikola quite some time now, and they know from actual experience right in their own store just what this famous little chocolate coated dyspepsia tablet will do, and if you make inquiry these druggists will tell you they never knew a remedy to prove so decidedly beneficial in the treatment of indigestion, dyspepsia, palpitation, sleeplessness and other forms of stomach trouble. It certainly ought to give you confidence when you know that every box of Pepsikola contains 10 days' treatment, and at the end of that time if you are not decidedly benefitted all you need do is to go back to the druggist and get your money. Pepsikola is sold right on its merits. It cures indigestion simply by toning up the stomach and digestive organs so that food will assimilate and give strength to the system just as nature intended. And Pepsikola is such a grand nerve tonic, too. Just try a 25 cent box and see if it don't give you new energy, new ambition and new courage to carry out your plans and daily work. If it doesn't your money back.

**AN EXPLANATION.**

Editor Enterprise:

In the last issue of the Enterprise, I note an item in the Beaver Creek news that reveals an unbecoming feeling on the part of the correspondent. He or she must not imagine they are the entire district, for nearly all the patrons know we keep our flag in the school house because a ten-foot flag on a ten-foot pole can't sway much in the breeze without soon destroying both, and surely no one of good judgment would question the propriety of placing it where the pupils are attracted to it. If the correspondent will come and set up about a 40 or 50 foot pole, we will gladly unfurl it to the breeze. Until then we prefer to keep it where it is safe as well as attractive.
