**Money Saving Paint**

THE SHERWIN-WILLIAMS PAINTS

Money Saving in Painting doesn't mean necessarily the use of cheap-by-the-gallon paint. It means the use of first quality paint—paint that will cover more surface to the gallon, that will spread easy and save the painters time, that will wear well and put off for the longest time the need of repainting.

**THE Sherwin-Williams PAINT**

is a money saver. It covers more surface to the gallon because it is ground exceptionally fine and is thoroughly mixed. It wears longer because it is made from the best materials, so thoroughly combined that they become inseparable and hold together on the building for the longest time. When you buy Sherwin-Williams Paint at \$1.75 per gallon it is much cheaper for you in the end than any other paint would be at \$1.25 per gallon.

We have a complete paint stock and are prepared to furnish lead, oil or any kind of painting material at Portland prices. Our paint man is always ready to figure out for you the exact amount of material necessary, and give you advice about mixing and applying any and all kinds of paints. Come in and talk it over with him
