A PUBLIC NEED.

Existing conditions warranted the action of the Clackamas Pomona Grange in petitioning the City Council for the installing of public urinals in Oregon City. The request is not to be considered as a joke or a laughable matter. There exists in Oregon City a growing need for these urinals and it is to be regretted that the city's straightened circumstances financially will likely defeat favorable action by the Council on this subject at this time.

BRUSH UP!

Credit for inaugurating a civic improvement movement in Oregon City belongs to the energetic and public spirited women of this city. The time has arrived for some such improvement in the conditions of Oregon City and we are pleased to see the women take the initiative. They are entitled to the hearty cooperation of every citizen in their efforts to clean up the city and place it in its most presentable condition before the opening of the Lewis & Clark Fair. The influx into Oregon may be accounted for partly through the Lewis & Clark Exposi- drug store. tion, though one great factor in inducing immigration is undoubtedly the climate of the Pacific Coast. California and Washington have both been far better advertised than Oregon, but now that the resources and possibilities of this state have been brought prominently before the world, it is confidently expected that the present movement is only indicative of a great population, not only for Oregon, but for the other Coast states as well. It is difficult to understand why a land with so many varied inducements should for so long remain comparatively unsettled; 1905 and 1906 will not only see great changes on this Coast, but the next ten years will probably see the population of this entire region doubled .- William Bittle Wells in Pacific Monthly.
