TERSILY-TOLD TALES OF THE WEEK'S DOINGS.

Had Relatives Here— Andrew Haber, aged 43 years, who died at a hospital at Butte, Montana, from the effects of a surgical operation, was buried at Oregon City this week. The deceased is survived by his father, two sisters and four brothers, of whom two, Pete and Mat Haber, reside at Oregon City.

The Administrator Absconded— Citation was issued from the county court requiring the appearance in court of F. M. Hammon, A. Hardesty, L. Woodcock and A. R. Cochran, bondsmen for A. T. Cochran, absconding administrator of the estate of his father, J. T. Cochran, deceased, to show cause why they should not be liable for the sum of about \$1900 in funds belonging to the estate that were embezzled by Cochran, the administrator, who has left the county. J. J. Cooke is the present acting administrator of the estate.

Objects to Use of Chairs and Broom— Being assaulted with a chair and chased about the house with a broom is treatment to which H. T. Groves, of Portland, seriously objects and as a result he has filed suit for divorce from Della L. Groves, whom he charges with this unnatural conduct. The parties were married at Vancouver, Washington, in 1886 and the mistreatment complained of was perpetrated in Portland during the years 1903 and 1904, terminating in abandonment of the plaintiff by the defendant in November, 1904.

Bondsmen Are Sued— Clarence M. Wilson in a suit filed in the Circuit court against C. W. Noblett and W. W. H. Hamson asks for judgment in the sum of \$185.30 for which he alleges the defendants are responsible as bondsmen for James Wilson, guardian of his plaintiff's share of the estate of Emma J. Wilson, deceased. Plaintiff was the sole heir of the decedent who left an estate of the value of \$1900 of which he claims to have received only a part, the guardian having absconded with funds to the amount of \$525.30.

Will Have Educational Exhibit— Having been assured by a member of the executive committee of the Clackamas county Lewis & Clark exhibit that the necessary funds for installing the educational exhibit will be forthcoming, the members of the educational committee in this county met at the court house Saturday for arranging and classifying this department of the Clackamas county display. This feature of the exhibit will comprise all kinds of papers, drawings, together with some manual work and will be to the credit of the schools contributing.

Olsen Feigns Illness— Circuit Judge T. A. McBride convened the Spring term of the Clackamas county circuit court in this city Monday. The docket includes a number of cases, and will engage the time of the court for about three weeks. Among the most important criminal cases are those of May and Olsen, who with their accomplices are charged with the theft of a dozen head of horses in this vicinity. Olsen has been feigning fits again but his assumed illness is believed to be merely for the purpose of enlisting public sentiment in his behalf.

Salmon in the Molalla— The success of the fish ladder, installed at Willamette Falls in this city last summer, finds proof in the presence of a great many salmon in the Molalla river. Dece Wright, of Liberal, reports that he recently saw a single school consisting of a score of full-grown salmon in the

OPERATION AVOIDED EXPERIENCE OF MISS MERKLEY

She Was Told That an Operation Was Inevitable. How She Escaped It

When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for ovarian or womb operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of ovarian and womb trouble cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Dear Mrs. Pinkham:— Loss of strength, extreme nervousness shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had ovarian trouble and ulceration and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well.

Ovarian and womb troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing down pains, leucorrhoea, don't neglect yourself; try Lydia E. Pinkham's Vegetable Compound.

upper Molalla river near Liberal. Mr. Wright says that this is the greatest number of salmon that has been seen in that stream since the paper mills were constructed in this city, shutting off the only natural means the salmon had for reaching the upper Willamette and its tributaries.

Was Accidentally Shot— The lifeless body of Hugh Hiddleston, the 18-year old son of W. B. Hiddleston, was found last Thursday morning near his father's home under rather mysterious circumstances. He had been shot through the breast by a rifle which was found about 100 feet distant. Coroner Holman was notified and an inquest was held, the jury returning a verdict of death by accidental shooting, the supposition being that in leaping over a log, by the side of which the rifle was found, the firearm was discharged with fatal results.

In Honor of McGinnis' Election— Details of the banquet that is to be given by Columbia Hook and Ladder Company in celebration of the election of Frank McGinnis, one of the members, as chief of the Oregon City Volunteer Fire Department, have been arranged. The banquet will be given at Willamette Hall tomorrow evening commencing at 7:30. The announcement arrived at the university yesterday. Johnson is taking a law course. He is twenty-two years of age and is a resident of Portland, Ore. Johnson is well known in college athletics here, having played on the diamond with the Multnomah team against the nine of Stanford and the University of California of the same universities on the Multnomah squad. At Stanford he is a member of the Chi Psi fraternity and one of the most popular men in the student body. He will finish the semester at Palo Alto before going to West Point to don his cadet uniform.

Fire Protection— Manager Shively at the request of Fire Chief McGinnis and Assistant Chief McFarland has installed in his play house an equipment for protection from fire that is entirely adequate for the safety of the building in case of fire. There have been placed in the building two reels of hose, each consisting of 50 feet. With the presence at the opera house of two members of the fire department at each public entertainment, the public may be assured that they will receive all the protection that might be asked in case a fire should occur. With the equipment that is available a fire could readily be extinguished before it had gained any headway.

A Pioneer of 1851— E. L. Morley, who came to Oregon in 1851, died of consumption at his home in this city Sunday, aged 58 years. The deceased was a native of Iowa, where he was born March 23, 1847. Coming to Oregon in 1851, Mr. Morley located in Marion county, afterwards removing to Des Moines, Linn county, where for 9 years he conducted a logging camp, coming to Oregon City three years ago and becoming the proprietor of the Cliff House. He is survived by a wife, two sons and five daughters, as follows: Alvah and Albert Mogley, Mrs. Leta McNeil, Letha, Geneva, Ida and Nina, all of this city. Interment took place at Lyons, Linn county, Tuesday, after brief funeral services in this city.

Died at Roseburg— Mr. Henry Preston Holmes, until recently of Mt. Pleasant, died at the Soldier's Home, Roseburg, just after midnight Sunday morning, April 16. The funeral will take place at Roseburg. The Rev. Clarence H. Lake of the Episcopal church, Roseburg, officiating. Mr. Holmes was a veteran of the Indian Wars and has a wide circle of friends here. He was a most patient and estimable man, showing great fortitude in his sufferings from Asthma. He was the uncle of Miss Mollie Holmes and Mrs. Daniel O'Neil, with whom he lived for many years, and a communicant of St. Paul's church, Oregon City. On June 15 he would have been 73 years of age, and was born in Clinton county, Missouri.

A Novel Feature of Exhibit— One of the interesting features of the Clackamas county exhibit at the Lewis & Clark Fair will be the floral designs of Mrs. Cahill. These comprise all of the native shrubs and flowers in designs they are not only natural but unique in their arrangement. For instance, Mrs. Cahill will show floral baskets that are living, not by any means artificial. From a soil foundation, different kinds of shrubbery have been grown and by training the vines in their growth, either a dainty basket or a landscape in the product of the work of Mrs. Cahill that represents months of hard and tiresome application. Samples of this feature of the exhibit from this county may be seen at the court house where Mrs. Cahill has left them for inspection.

Bill Can Go Some Yet— If any one has any serious doubts as to the fighting qualities of W. W. Smith, better known as Bill Smith, the state's vigilant deputy fish warden, there is now sufficient evidence to dismiss that doubt. Bill can get along with anybody so long as his word is not questioned, but if you intimate that Smith has made a statement that does not entirely harmonize with the truth you had better prepare for self-protection or at any rate qualify your assertion. One night last week Fred Himler, of Parkplace, accused Smith of permitting certain parties to fish in the Clackamas river in violation of the law. This nettled Smith and there was a mix-up in which Himler took second money. Chas. Straight, who accompanied Himler attempted to interfere and produced a knife with which he started in to separate the two combatants, but L. Rall, who was with Smith, took a hand in the fight and kept Straight at a distance until Smith and Himler finished. As a result it is likely that Straight will have to answer before the circuit court for assault with a dangerous weapon.

Resided here Twenty-Eight Years— Frederick Meyer, aged 62 years, died Sunday morning at the home of his daughter, Mrs. Lulu McCausland, in this city. Cancer of the stomach, for which an operation was recently performed, was the cause of death. Mr. Meyer was born in Germany, coming to the United States when but a few years of age.

During the civil war he enlisted in the 142d Indiana Infantry and at the time of his death was a member of the Oregon City G. A. R. Post, under whose auspices the funeral services were conducted by Rev. J. R. Landsborough at the First Presbyterian church at 2 o'clock Tuesday afternoon. After the war, the deceased resided for a few years at Denver, going from there to San Francisco, thence to Oregon, locating at Oregon City in 1877. With the exception of one year, he was continuously employed during his residence in this city by the Oregon City Manufacturing Company, being head mechanic at the time of his death. His wife died a year ago and he is survived by three children as follows: City Treasurer Fred J. Meyer and Mrs. Lulu McCausland, of this city, and Mrs. E. E. Latourette, of Harvey, Washington.

Accepted, Without Examination— The following report refers to Roland Johnson, son of W. Carey Johnson and a former Oregon City boy—Stanford University.—The appointment of Roland V. Johnson, a student at Stanford University, to West Point has been accepted without his being required to pass a mental examination. Credentials sent from Stanford regarding the young man's scholarship were regarded as sufficient by the United States Military Academy board of examiners. It is believed that this is the first time in the history of the school that an appointee has received a cadetship without first being required to prove his mental standing by special examination at West Point. The announcement arrived at the university yesterday. Johnson is taking a law course. He is twenty-two years of age and is a resident of Portland, Ore. Johnson is well known in college athletics here, having played on the diamond with the Multnomah team against the nine of Stanford and the University of California of the same universities on the Multnomah squad. At Stanford he is a member of the Chi Psi fraternity and one of the most popular men in the student body. He will finish the semester at Palo Alto before going to West Point to don his cadet uniform.

Draper Creates a Disturbance— John Draper, the Land Office practitioner, has associated himself with Jim Campbell in the management of an apary at Bolton. But Monday afternoon, Draper unintentionally created a disturbance in the peaceful suburb of Bolton where the firm's three hives of honey producers are stationed. The people from whom the bees were purchased were moving out of the premises and in the confusion, the bees had begun to swarm. Draper was notified and requested to respond at once and look after his property. Dropping the latest volume of land case decisions which he was perusing, Draper hastened to Bolton but the effect of his appearance was to still further disturb rather than quiet the bees which became very careless with regard to whom they lighted on and stung promiscuously. In the midst of the excitement, Draper made his escape and it is reported that he did not stop running until after he had reached the suspension bridge. He did not return to face his angered neighbors until 9 o'clock in the evening, by which time the usual peace and quiet, characteristic of this suburb, had been restored. Draper has about concluded that if he is to continue in the bee business, he will have made a suit that is guaranteed to be strictly anti-stinging proof.

Drop in most any time now and you are likely to see one of the clerks wrapping up a bottle of Laxakola, and Oregon City ladies have learned of the remarkable effect of Laxakola upon the bile pigments and the beneficial action it has upon the skin and complexion. It is really surprising. Huntley Bros. Co. will tell you the demand for it is increasing rapidly; not so much on account of the advertising, but because this or that lady drops in to the store with the statement that she been recommended to try it.

THE WOMAN BEAUTIFUL

Huntley Brothers Tell Why Laxakola Beautifies the Skin. Drop in most any time now and you are likely to see one of the clerks wrapping up a bottle of Laxakola, and Oregon City ladies have learned of the remarkable effect of Laxakola upon the bile pigments and the beneficial action it has upon the skin and complexion. It is really surprising. Huntley Bros. Co. will tell you the demand for it is increasing rapidly; not so much on account of the advertising, but because this or that lady drops in to the store with the statement that she been recommended to try it.

"CIVIC IMPROVEMENT" SUGGESTS.

Oregon City, Oregon, April 16, 1905. Editor Enterprise: I have been reading a great deal in the papers about civic improvement in Oregon City. Mass meetings have been called, committees have been named, the City Council has acted. Orders have been issued requiring the cleaning of the streets of the city, the removal of all rubbish, and the painting of telephone and telegraph poles. But not a word of protest is being made against the erection of unsightly canvas shacks on prominent business property in the very heart of the city. The structure on Main street near Huntley Brothers Company drug store is certainly engaging scenery for the hundreds of visitors who will come to this city during the coming summer. The majority of these people, coming by street car, must pass in front of this sight. I will venture to say that the opinions that will be formed of Oregon City on this account will not be what they should. Vacant and desirable business houses being scarce, we may perhaps next expect to see erected on the adjacent ground a similar inclosure to that herein mentioned for the accommodation of a neat vendor while it would not be out of the way to witness the installing of a nigger-baby attraction also under canvas. Such attractions as these make excellent firetraps that are a constant source of menace to valuable adjoining property. This property is entirely too valuable to be utilized for the accommodation of such unsightly, temporary structures. While imbued with this commendable spirit of improving appearances generally and placing Oregon City in its best dress before the opening of the Fair, it might be suggested that the county court paint

Deserves Your Patronage. The growth of a community and the success of its local institutions depends entirely on the loyalty of its people. It is well enough to preach "patronize home industry" but except the service given at a home institution equals that of out-of-town enterprises, this argument carries no weight and is entirely disregarded, as it should be. But with Oregon City people it is different. A few months ago E. L. Johnson established the Cascade Laundry. It is equipped with the latest improved machinery and is daily turning out work that is equal to any and superior to much of the laundry work that is being done in Portland. Being a home institution and furnishing employment for many Oregon City people it is enjoying an immense patronage. The high standard of the work being done commends it to the general public. Laundry left at the O. K. barber shop will be promptly called for and delivered to any part of the city. Telephone 1204. E. L. Johnson, proprietor.
Adam's Mistake. "Things are going to be very pleasant here," said Adam. "My wife has no clothes, no neighbors and no servant girl problem to talk about." But it wasn't long before they had a baby, and realizing that silence could never be restored, Adam walked the floor.
Chamberlain's Cough Remedy the Best and Most Popular. "Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for the grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by Geo. A. Harding.
For the Season of 1905. Jeffries, the beautiful Clydesdale stallion, foaled May, 1899, weight 1900, will make the season of 1905 as follows: Tuesday at Aurora, Wednesday and Thursday at Canby, Friday at Heinz' feed stable, Oregon City, Saturday at Molalla. Terms: \$12.50 to insure standing colt; \$10 to insure with foal, season \$9, single leap, \$6. Season opens Tuesday, April 18. M. R. BOYLES, Owner. Molalla, Oregon.
General Crop Summary. The first half of the week was dry, with frosty nights and warm afternoons. The last half was showery, and good rains fell in all sections of the State. The soil is now in excellent condition for plowing and germination of seeds, and farming operations have made rapid progress during the past week. The stand of fall wheat is good; the plant is healthy and its growth during the week has been satisfactory. Spring wheat seeding is well advanced, and in many sections completed. The early sown came up nicely and no complaints are made in any locality regarding its condition. Barley and oats are also doing well. Pasture is much better than usual at this season of the year, and all grasses and forage plants are thrifty and promising. Lambing is well advanced and the losses have been small. Goat shearing is finished and the mohair clip is above the average, both in quality and quantity. Early gardens are up and good progress has been made in planting late gardens. Considerable land has been prepared for corn, and in the southern sections some corn has been planted. Early potatoes are doing well, except in a few exposed places, where they were injured by the frost. Hops are thrifty and promising. The frosts have undoubtedly done considerable damage to fruit, but to what extent dependents disagree. Some think only a reasonable amount of thinning has occurred and that the fruit crop will be better in consequence thereof, while others claim that Italian prunes, peaches, pears, cherries and plums have been seriously harmed. Apples and French prunes have received but little injury. Some varieties of apples have not bloomed so full as usual, but the condition of apples is generally promising.
Forget About Your Stomach. If your digestion is bad the vital organs of your body are not fed and nourished as they should be. They grow weak and invite disease. Kodol Dyspepsia Cure digests what you eat, cures indigestion and all stomach troubles. You forget you have a stomach from the very day you begin taking it. This is because it gets a rest—recuperates and generally grows so strong and healthy that it troubles you no more. E. L. Babcock, Amherst, Minn., says: "I have taken a great many remedies for indigestion but have found nothing equal to Kodol Dyspepsia Cure." Kodol digests what you eat, cures indigestion, Dyspepsia, Sour Stomach, Belching, Heartburn and all Stomach troubles. Its preparation is the result of many years of research. Sold by Geo. A. Harding.
About Rheumatism. There are few diseases that inflict more torture than rheumatism and there is probably no disease from which such a varied and useless lot of remedies have been suggested. To say that it can be cured, is therefore, a bold statement to make, but Chamberlain's Pain Balm, which now enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Geo. A. Harding.
