

Constipated All His Life.

MR. and MRS. WILBERT THOMPSON,
801 Main St., Peoria, Ill.
MULL'S GRAPE TONIC CURED HIM.

Wilbert Thompson never knew a well day until last June—he had been constipated all his life—many doctors treated him, but all failed to even help him—his health failed rapidly and on January 21, 1903, Mrs. Thompson asked us to suggest a treatment for her husband—We thought the case so serious and recommended that a specialist be consulted—but he also failed to help the patient—NOW HE IS WELL.

Mull's Grape Tonic Cured Him

Mrs. Thompson first wrote us as follows: "My husband, aged 23, suffers from sharp pains in his stomach and sometimes thinks it is his heart. Let me know by return mail what causes the pain, if you can. Mr. Thompson has been treated by several doctors, but they have given him up. We promptly advised that a first-class specialist be consulted. We quote: "We want to sell Mull's Grape Tonic, because we know it will cure constipation, but 50c. a bottle is no object to us when a human life is at stake, and if your husband's case is as serious as you state, we suggest you consult a reliable specialist, not the advertising kind, promptly." At the same time, knowing that Mull's Grape Tonic could do no harm, we advised its use until a physician could be consulted. January 25 Mrs. Thompson wrote that a physician had been consulted. He diagnosed the case as being chronic constipation and dyspepsia. His treatment was followed faithfully, but there was no perceptible improvement in Mr. Thompson's health. Then he began taking Mull's Grape Tonic and on Sept. 3, 1903, we received the following letter from Mrs. Thompson:

"You will remember that I wrote to you last January in regard to my husband's health. It is four months since he quit taking Mull's Grape Tonic for constipation, which he suffered from since birth. He took just 24 bottles of it and is perfectly cured. He is much stronger and has gained considerably in flesh. I cannot thank you enough for Mull's Grape Tonic. 'It is worth its weight in gold.' Just \$12 cured him and he has spent hundreds of dollars with doctors who did him no good. Now I want to state my case to you and expect your early reply. I also have constipation, have had for three years. Kindly let me know as I am sure it will cure me if you say it will, as it did all you claim. It would be my husband's case. I await an early reply." Very respectfully yours, MRS. W. H. THOMPSON, 801 Main St., Peoria, Ill.

OPPOSE BRIDGE AT BARTON.

Remonstrances Being Circulated Against Proposed Improvement.

Petitions remonstrating against the proposed construction of a bridge across the Clackamas river at Barton, are being circulated here. The bridge will cost about \$15,000 and of that amount the county court has agreed to assume 70 per cent of the cost.

The remonstrators allege that the building of the bridge is an unnecessary expense, contending that its real purpose will be the booming of private property interests. It is also alleged by those signing the remonstrance that there are already an adequate number of bridges across the Clackamas river for the accommodation of the travel of the county.

The proposed new structure would have the effect of diverting from Oregon City the trade of the Logan section, one of the richest and most productive agricultural districts in the county.

Your correspondent sees by the newspapers that the Socialists are holding on Sundays at Oregon City enthusiastic meetings. It is reported that two Irishmen recently attended such a meeting and Pat said to Mike: "What is all this hubbub about?" "Why," said Mike, "that is Socialism." "What is that?" inquired Pat. "Well, what is mine is yours and what is yours is mine," replied the accommodating Mike. "If you had \$2000 you would give me \$1000. Yes, that's the principle. If you had two houses, one would be mine, if you had two horses we would each have one. If you had two goats—" "No, bejabbers," interrupted Pat, "I have the two goats and am going to keep them, too."

Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yun Yum, Tennessee, U. S. A., writes "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by Geo. A. Harding.

STAFFORD.

We experienced a regular eastern thunder storm Sunday afternoon and lightning struck two of the three fir trees standing behind Mr. Gage's granary—peeled the bark from one about three inches wide clear up into the branches, and took a smaller section from the other. Mr. Gage ran to the telephone to see if it was burning out, as the lightning protector had been removed.

A postal inspector passed through with the mail carrier on Monday.

The warm rains are doing an immense amount of good.

Mrs. Nimic has been very unfortunate in raising chickens. First a skunk, then gray squirrels, then the old house cat developed a taste for young chickens and eggs until she had but few left, but Joe has succeeded in trapping the skunk, has put poisoned wheat in the squirrel's hole, and shot the cat, so now they can begin all over, and raise broilers for the last visitors to the fair anyway.

A large audience braved the electric storm Sunday to hear Mr. Waehite preach. He is the German Baptist minister, but preaches in English the first Sunday evening in every month, which is very kind of him, as there is no English minister in the place.

The supervisor, Mr. Ford, has torn up the wooden approach to the bridge across the Tualatin on the road to Portland and has teams and scrapers at work making a dirt fill, by leveling the hill which will be a great gain for our teams and automobiles. It is said the bridge will be closed all the week. It is a great inconvenience, but we learned the way to get there by going around two years ago when the bridge was burned.

A drummer for a Salem nursery was around this week, and said a woman living near Shiply school house told him that it was reported that a crazy man was in the neighborhood.

CANBY.

Miss Gertrude Groubeck, one of the Woodburn teachers, was here last Saturday visiting Mrs. Robbins.

Prof. C. A. Dawson, of Willamette University, will speak at the Methodist Church next Sunday, both morning and evening.

Canby has the second agent at the depot, since Mr. Brown left for a few weeks in the East about a fortnight ago. The first supply was unceremoniously relieved Monday morning, for a mistake on Sunday, that might have been very disastrous. He had orders for the South bound train on Sunday morning to pass the second section of the excursion train at Barton.

He forgot to deliver them and the train ran on to Aurora, which, fortunately, was reached in time for the two trains to pass. It makes one shudder to think of what might have occurred.

Jim Gibson came to town last Tuesday accompanied by two small children, and as usual proceeded to fill up on Canby bug juice. Shortly after noon he started home and the team ran away on the hill approaching Goode's bridge across the Molalla where the occupants were thrown out and all more or less injured. The children, innocent sufferers by their father's vice, were taken to the Meek's place, while Gibson was taken to Canby. He was badly cut about the head, bleeding profusely. He will probably recover.

The children, though badly cut and bruised, are not thought to be in a serious condition. Some of the neighbors have expressed regret that Gibson's wounds were not as serious as at first thought, for it is said, he is very cruel to his family, having beaten his wife and children on various occasions, especially when drunk. Thus greedy men are given license to sell the poison to such irresponsible, that they may fatten off the sufferings of the innocent.

MT. PLEASANT.

Mr. George Miller, of Albany, is camped in our midst. Mr. Miller brought with him a fine string of blooded horses which he is exchanging for the cold blooded and cold shouldered horses of Mt. Pleasant. Even the Oregon City butchers have secured some of Mr. Miller's stock.

Mr. J. Partlow piloted a company of eight amateur fishermen to the mouth of Beaver Creek for bass fishing on last Monday. The bass is an aristocratic fish and resented the rustic garb in which they sought to woo him, and did not bite. It requires a boiled shirt, gold stud and patent leather shoes to soften his pride. Mr. Partlow's party got one trout. Fix up boys and try again.

The seasons festivities are to begin on Saturday evening, the 13th inst with a dance at Twilight Hall, music by the band led by Fancher and Lazelle.

The strawberries are showing the red, and the growers are looking up boxes and crates.

The road grader, drawn by an eighteen horse power engine, has been at work on our roads for several days. The work it is doing justifies the authority that ordered it. In fact, after seeing the work done, one feels that the day of the horse grader on country roads is soon to be a thing of the past.

An interesting exhibit in the Mines and Metallurgy building at the Lewis and Clark Exposition is now in course of construction. A miniature mountain is being constructed for the purpose of showing methods of coal mining in Washington. The mine will be tunneled, and a miniature car will run around the mountain and through the tunnels. The mountain is thirty feet long by twenty wide and is fifteen high.

Record Breaking Bargains

The past month has been the greatest bargain sale in the history of our business—values that astounded the public.

The coming month will see still greater value offerings. We mean to close out our stock and if low prices are the means of doing it, we are certainly going to succeed. Our prices are so low we don't mention them because you might take it as a joke. But it is true.
