## Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

### A MEDICINE THAT CURES

Can we dispute the well-known fact that American women are nervous? How often do we hear the expression, "I am so nervous, it seems as if I should fly;" or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and general organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite, I could not sleep and would walk the floor almost every night.

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me.

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger.

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

## A FOOLISH PLAN

'Tis a joy to eat—I welcome my dinner hour; Because I rout indigestion with August Flower!

Constipation is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, emaciation, uric acid, neuralgia in various parts of the system, catarrhal inflammation of the intestinal canal and numerous other ailments that rob life of its pleasures if they do not finally rob you of life itself.

"I'm bound in the bowels," is a common expression of people who look miserable and are miserable—yet who persist in "letting nature take its course."

What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills.

August Flower gives new life to the feeble and insures healthy stools.

### Attendance Promises to be Large—

Management of the Willamette Valley Chautauqua Association is already much encouraged with the prospects for a record-breaking attendance at this year's Assembly, July 11-23. Secretary Cross reports that already there have been made extensive reservations for the accommodation of campers, many of whom will remain through the session. Among those points from which intending campers have written are Walla Walla, The Dalles and Astoria, besides numerous other Oregon cities. The Chautauqua management has doubled the capacity of its restaurant to which a lunch counter has been added, all of which will be under the management of Mrs. C. O. T. Williams, who was similarly engaged last year. Everything that will in any way contribute to the comfort and convenience and completeness of the entertainment and add to the comfort of those attending this year's Assembly, is being done by the management.

### Give Annual Social—

The Young People's Society of Christian Endeavor of the Presbyterian church gave its annual social and entertainment last Friday night at Shively's opera house. The affair was well arranged and was carried out in an admirable manner. The attendance was large. Miss Gertrude Fairclough gave two piano solos. Joseph Jefferson Tindall, a tenor singer from "Once in the Purple Twilight," and "Good Night, Beloved." Miss Marguerite Shelley, a talented reader of Portland, pleased the audience with two numbers and Miss Ethel Jackson played a piano solo. An appreciable number was the singing of little Miss Marie Freidrich, who sang "The Swallows" in a sweet voice that shows great possibilities. Miss Freidrich is a pupil of Mrs. Kathryn Ward Pope, The Oregon City quartet, Dr. Rhea Norris, E. E. Taylor, Len Confer, E. R. Woodward also sang and responded to encores as did also Miss Maymie Foster.

### General Summary—

The past week has been showery and cool, especially during the afternoons, when the temperature was usually four or five degrees below normal. The rains have been beneficial to spring grain, and the cool days have been favorable for fall wheat and barley, which is now heading and filling nicely. The damp weather has caused the grain aphid to become more numerous in the Willamette valley, where many fields of spring wheat and oats are badly infested with this pest. Oats are turning red in some localities, and the crop generally is not doing as well as expected. Forage crops are generally heavy and pasturage is much better than usual at this time of the year. The first crop of alfalfa has been secured and the second crop promises to be above the average in quantity. Haying, which has become general, has been delayed by the rains, and some cut hay in the fields has been more or less injured by the wet weather. Potatoes and gardens are making splendid growth. Hops, although uneven, are now making satisfactory progress. Cherries are ripe and plentiful in the market, although the crop is considered smaller than usual. Apples, peaches, prunes, and pears continue to make good advancement, but the fruit crop generally will be lighter than usual, owing to frosts and cold rains at the time of pollenization.

### G. B. Burhans testifies after four years.

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."
