

Constipated All His Life.

MR. and MRS. WILBERT THOMPSON,
801 Main St., Peoria, Ill.
MULL'S GRAPE TONIC CURED HIM.

Wilbert Thompson never knew a well day until last June—he had been constipated all his life—many doctors treated him, but all failed to even help him—his health failed rapidly and on January 21, 1903, Mrs. Thompson asked us to suggest a treatment for her husband—We thought the case too serious and recommended that a specialist be consulted—but he also failed to help the patient—NOW HE IS WELL.

Mull's Grape Tonic Cured Him

Mrs. Thompson first wrote us as follows: "My husband, aged 23, suffers from sharp pains in his stomach and sometimes thinks it is his heart. Let me know by return mail what causes the pain, if you can. Mr. Thompson has been treated by several doctors, but they have given him up."
We promptly advised that a first-class specialist be consulted. We quote: "We want to sell Mull's Grape Tonic, because we know it will cure constipation, but 50c. a bottle is no object to us when a human life is at stake, and if your husband's case is as serious as you state, we suggest you consult a reliable specialist, not the advertising kind, promptly." At the same time, knowing that Mull's Grape Tonic could do no harm, we advised its use until a physician could be consulted. January 25 Mrs. Thompson wrote that a physician had been consulted. He diagnosed the case as being chronic constipation and dyspepsia. His treatment was followed faithfully, but there was no perceptible improvement in Mr. Thompson's health. Then he began taking Mull's Grape Tonic and on Sept. 5, 1903, we received the following letter from Mrs. Thompson:
"You will remember that I wrote to you last January in regard to my husband's health. It is four months since he quit taking Mull's Grape Tonic for constipation, which he suffered from since birth. He took just 24 bottles of it and is perfectly cured. He is much stronger and has gained considerably in flesh. I cannot thank you enough for Mull's Grape Tonic. It is worth its weight in gold. Just \$12 cured him and he has spent hundreds of dollars with doctors who did him no good. Now I want to state my case to you and expect your early reply. I also have constipation, have had for three years. Kindly let me know as I am sure it will cure me if you say it will, as it did all you claimed it would in my husband's case. I await an early reply."
Very respectfully yours, MRS. W. H. THOMPSON, 801 Main St., Peoria, Ill.

A REPUTATION.

How it is Made and Retained.
A good reputation is not easily earned, and it is only by merit that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of people has rendered invaluable service to the community. Read what this citizen says: John Cosgrove, carpenter, of 207 1-2 3d St., Portland, Or., says: "I could not begin to tell you the quantity of different medicines I took during the years I was subject to attacks of backache. I tried them all, but Doan's Kidney Pills was the first which acted as represented. It stopped the pain in my back and during the time which has elapsed since I stopped using them I have not had any return of the trouble."

Plenty more proof like this from Oregon City people. Call at C. G. Huntley's drug store and ask what his customers report.

HUTTON'S ONE RECIPE.

It Included a Paper Cutter, Ink Eraser and Rubber Bands.

Perhaps the most ingenious and the most original of all schemes for procuring autographs was from a lady in a western town. She was raising funds for the building and support of a public library, and she had conceived the idea of issuing a volume to be called "The Authors' Recipe Book." Authors from all over the country, the most distinguished of authors—always authors with a capital A—had been good enough to send her a list of the favorite dishes of their own construction, with their method of making them.

The cookbook was one of the many forms of literature to which the recipient had never turned his attention. He had no more idea of cooking than he had of milking a cow or of harnessing a horse or of setting a hen or of building a dynamo. He did not even care what was cooked for him so long as it contained none of the ingredients of tripe and none of the essence of tomato. But he was asked to contribute a paper, which she would have reproduced in facsimile, stating what he could prepare most to his liking upon a kitchen range or in a chafing dish, with his manner of procedure. This quite nonplused him until he bethought himself of one particular and peculiar delicacy in the evolution of which he could safely trust his reputation as an expert. In reply, for which he received no thanks, he said:

"Take a long paper cutter; attach to the same by means of rubber bands, and securely, an ink eraser; insert the ink eraser firmly into a marshmallow plug and hold the same over a student's lamp or study fire until the marshmallow begins to sizz, drops into the ashes, puts out the light or burns your hand. And eat while hot!"

He has never seen a copy of "The Authors' Recipe Book!"—Laurence Hutton in Critic.

BULGING GUN BARRELS.

The Ruin That is Wrought by Careless Handling.

I have sold guns for ten years, and in that time four of them have had their barrels bulged, one by snow, one by dirt, one by sand and one by something else getting into it. One man crawling through a fence got a little snow in the muzzle. He could not remove it with his finger, so concluded to wait and shoot it out, which he did, but he found a bulge like a pullet's egg on the end of the barrel. Another got some earth in the muzzle and shot it out, and he, too, found the same kind of a bulge on the end of his gun. Another fired his gun at ducks, which knocked him over on his back and fairly got away from him. When he picked up the gun he found a narrow raised band around the barrel fourteen inches from the muzzle. In this case a wad had probably lodged there. This customer thinks the manufacturers ought to give him a new set of barrels. I tell him if the barrels had not been good ones it would have been a burst instead of a bulge, which might have maimed or killed him. Another man lying on a point brought down a duck with a broken wing which scurried for the water. The man ran and struck the duck with the muzzle of the gun and in so doing got sand in it. He blew most of it out and shot out the rest of it. Well, after that shot he found a little blister two inches from the muzzle about the size of a man's little finger.

Moral.—Do not shoot obstructions of any kind out of your gun if you value your life or gun.—Uncle Dan in Amateur Sportsman.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my diseases, by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold under guarantee to do the same for you, by Howell & Jones, druggists, at 50c a bottle. Try them today.

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I was a great sufferer for six years and doctored all the time with a number of physicians but did not receive any benefit," writes Mrs. George Sogden, of 641 Bond St., Saginaw (South), Michigan. "I had given up all hope of ever getting better. Thought I would write to you. When I received your letter telling me what to do I commenced to take your 'Favorite Prescription' and follow your advice. I have taken ten bottles in all, also five vials of the 'Pleasant Pellets.' Am now regular, after having missed two years and suffered with pain in the head and back. I was so nervous, could not eat or sleep. Now I can thank you for my recovery."

Don't hesitate to write to Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., if you want good medical advice from a fully qualified physician as to your personal good health. Such letters are always answered free of charge and confidentially.

A medicine which has outlasted all others for women in the past third of a century and being recommended by all those who have used it, is a good remedy to tie to. Dr. Pierce's Favorite Prescription is purely vegetable and does not contain a particle of alcohol to destroy the blood corpuscles and weaken the system. Do not permit the dealer to insult your intelligence by suggesting some other compound which he recommends as "just as good," because he makes it himself.

CLACKAMAS.

If not mistaken, it was in June, 1890, that the writer penned her first batch of items for the Enterprise. A nom de plum was in fashion then, and "Calla" wonders if any other old names are on the stalk. It was a friendly group of writers, and many a happy jest or kind tribute was recorded. A school meeting was held Thursday evening. Mr. Johnston was elected to serve again for three years. C. T. Clark becoming chairman of the board. It was

STAFFORD.

The gentle Oregon rain has been coming off and on for a number of days, doing lots of good to gardens, potatoes, etc., and as there has been but little wind, but little of the heavy grain which now clothe fields has become lodged. Henry Schatz is getting quite a little village of buildings around him, and is now engaged in building a place to store his straw. Formerly Oregon farmers used to burn their straw, but they have found that by so doing they rob the land. Mr. Daniel Myers and wife and Mr. Sam Myers, former residents of Stafford, but now of Odessa, Washington, are down to visit the fair and greet old friends. Mr. Sam Myers is mayor of that thriving burg; the brother a prosperous farmer. He was not on the Mitchell case. Curley sold a cow to Mr. Moser for \$31. Good cattle bring a little better price than last year. Mr. Moser is a practical farmer. He keeps six cows and a horse, a number of hogs and a few hundred chickens on his farm. He grows three or four kinds of produce on each strip of his land. As soon as one strip is cut off and fed out he turns it over and sows it to some other crop, and returns all the compost to the land, so it is well fed and every thing looks neat and thrifty. He believes in a little land well tilled and his garden and grounds are a model of neatness. Mr. Scott went to Portland Tuesday after his last load of furniture, and they soon will be keeping house in their new home purchased of Mr. Chowder.
