Constipated All His Life.

MR. and MRS. WILBERT THOMPSON, 801 Main St., Peoria, III. MULL'S GRAPE TONIC CURED HIM.

rt Thompson never knew a well day until last June—he had been constipated all his life—many doctors treated him, but all failed to even help him—his health failed rapidly and on January 21, 1903, Mrs. Thompson asked us to suggest a treatment for her husband—We thought the case too serious and recommended that a specialist be consulted—but he also failed to help the patient—NOW HE IS WELL.

Mull's Grape Tonic Cured Him

Mrs. Thompson first wrete us as follows: "My husband, aged 23, suffers from sharp pains in his stomach and sometimes thinks it is his heart. Let me know by return mail what causes the pain, if you can. Mr. Thompson has been treated by several doctors, but they have given him up."

We promptly advised that a first-class specialist be consulted. We quote: "We want to sell Muil's Grape Tonic, because we know it will cure constipation, but 50c. a bottle is no object to us when a human life is at stake, and if your husband's case is as serious as you state, we suggest you consult a reliable specialist, not the advertising kind, promptly." At the same time, knowing that Muil's Grape Tonic could do no harm, we advised its use until a physician could be consulted. January 25 Mrs. Thompson wrote that a physician had been consulted. He diagnosed the case as being chronic constipation and dyspepsia. His treatment was followed faithfully, but there was no perceptible improvement in Mr. Thompson's health. Then he began taking Muil's Grape Tonic and on Sept. 3, 1903, we received the following letter from Mrs. Thompson:

"You will remember that I wrote to you last January in regard to my husband's health. It is four months since he quit taking Mull's Grape Tonic for constipation, which he suffered from since birth. He took just 24 bottles of it and is perfectly cured. He is much stronger and has gained considerably in flesh. I cannot thank you enough for Mull's Grape Tonic. 'It is worth its weight in gold.' Just \$12 cured him and he has spent hundreds of dollars with doctors who did him no good. Now I want to state my case to you and expect your carry reply. I also have constipation, have had for three years. Kindly let me know as I am sure it will cure me if you say it will, as it did all you claimed it would in my husband's case. I await an early reply."

Very respectfully yours, MRS. W. H. THOMPSON, 801 Main St., Peoria, III.

GIVE YOU A 50c. BOTTLE.

This Coupon is good for a 50c. Bottle of Mull's Grape Tonic.

Fill out this coupon and send to the Lightning Medicine Co., 157 Third Ave., Rock Island, Ill., and you will receive a full size, 50c. bottle of Mull's Grape

I have never taken Mull's Grape Tonic, but if you will supply me with a 50c bottle free, I will take it as

Street No.

If you are afflicted with constipation or any of its kindred diseases we will buy a 50-cent bottle for you of your druggist and give it to you to try. If you are constipated we know it will cure you. Surely if we have such confidence in our remedy as to pay for a bottle of it that you may test for yourself its wonderful curative qualities, you should not refuse to accept our offer.

Mull's Grape Tonic

is the only cure for constipation known. We do not recommend it for anything but Constipation and its allied diseases. It is our free gift to you. In accepting this free bottle you do not obligate yourself further than to take its contents. Mull's Grape Tonic is pleasant to take and one bottle will benefit you. We want you to try it and, therefore, if you will fill out the attached coupon and mail it to us to-day we will instruct your druggist to give you a 50-cent

Thirteen Days' Assembly Will End Sun-

day-Summary of the Week. should not be largely attended. Dr. Gunsaulus, of Chicago, is recognized as among the foremost pulpit orators of the country and it will be a mistake to miss hearing this noted speaker. Dr. Gunsalus will deliver his first lecture tonight and will be heard again tomorrow and Sunday afternoons. In addition to the regular programme tomorrow, the day's exercises will be concluded with a grand pyrotechnic display.

Insert Chautaugua 2t head ... The display of fireworks, under direction of the Chautauqua management, that will be given at the close of the regular program Saturday evening, it is announced will be the most elaborate of anything of the kind ever before attempted. It will be worth going several miles to view this pyrotechnic display. Among the pieces that will be included in the display are the following set pieces:

Welcome (two foot letters); Arabian Cascade Wonder, 22x16; Silver Glorie, with guns, 14x14; Niagara Falls, 20 feet long; Fan Palm Tree, 10x16; Boquet of Herbs. 8x12: Jeweled Jet with Guns, 10x8; Italien Glorie, 16x16; Large Rosette 12x12; Transparent Sun, 8x8; Horizontal Pyramid, 10x12; Sparkling Caprice, 8x10; Good Night 2 foot letters, with

Fountain and Sun. Rockets: 1 dozen 1 pounders colored stars; 1 dozen 2 pounders colored stars; four 3-pounders National Streamer; four 3-pounders Floating Festoon; four 3pounders Prize Asteroid; four 4-pounders Gold Rain; four 4 pounders Silver Rain; four 4-pounders Parachute: four 4-pounders with serpents; three 6-pounders Hanging Chain; three 6-pounders Peacock Plumes; two 8-pounders Magnesium such brilliancy to cause electric light; two 8pounders Prismatic Torrent; two Flight

SECOND WEEK OF CHAUTAUQUA. of Rickets with Serpents and Silver Rain. Among the most brilliant women ever heard at the Willamette Valley Chautauqua are Mrs. Charlotte Gilman Parker Both the attendance and the interest and Rev. Anna Howard Shaw. These in the Chautauqua during the last week women were heard in lectures during the has been greater than marked the open- latter part of last week. Saturday evening days. And there is no reason why ing a chorus of nearly 100 voices under the exercises for the three remaining days the direction of Prof. Frederick W. Goodrich, of Portland, produced the operation cantata "The May Queen" to the apparent satisfaction of a large and critical

Sunday was taken up by religious exercises and sacred music. Two addresses were given, one by Dr. Anna Shaw on "The Heavenly Vision," and one by Bishop John W. Hamilton, of San Francisco. In Dr. Shaw's address she referred to high ideals in life, taking Christ as the leader, and showed that by associations, character and humility were formed. She dwelt to a large extent on the christianity of Paul of Tarsus, formed through his friendship with Christ. Bishop Hamilton made the address of the evening and preached a very able sermon.

Monday's programme included an able lecture on "People of Quality at Boston" Portland, at the Auditorium in the even- | ble Prairie road; ing. Tuesday afternoon Homer Davenport gave his second lecture, the subject being "The Power of a Cartoon." As on his initial appearance, he was greeted by a splendid audience. In the evening Prof. Everett Kemp, of Kansas who is one of the most able readers and entertainers the management has ever been able to secure, gave a most enter taining programme, being assisted by Mrs. Kathryn Ward Pope and Miss Mary Adelle Case, vocalists of note of this city. Wednesday afternoon there were lectures by Joaquin Miller and Mrs. Florence Kelly, of New York City, who discussed the Child labor question. On Wednesday and Thursday evenings, Carter, the Magician, attracted enormous audiences that were highly entertained by his marvelous feats of legerdemain 'Job's Wife Vindicated" was the subject of a lecture by Key. Roland D. Grant,

The series of ball games this year has not been as interesting as in past years because of the unevenness in strength of some of the nines. These games, as usual, however, attracted good crowds and proved an interesting feature of the

HOT WEATHER SUGGESTIONS.

Do you own the poultry houses, or have they been turned over to the hen lice? Non-fertile eggs may be safely sent all over the country during the hottest veather; not so with fertile ones. may be quickly spoiled. Fresh laid eggs that have been fertilized by the male will show blood rings if exposed to the heat of the sun or any heat above 104 degrees during transit. Non-fertile eggs will not show these spots or other injury from heat influence that start incubation in fertile eggs.

Nice fresh dressed poultry sells well during the hot months. Gradually send to market in this way for the next three months all your surplus stock of old fowls. Sell a few at a time to private The cockerel at one pound and quarter sells for squab broiler; when larger for the regular size broller; over two pounds, for frying, and beyond this, by the pound. Study the market in your locality, and cater to its demands.

In every village, town and city there are many who long for some one to come to their door with fresh-dressed poultry and fresh-laid eggs. Look them up and sell your surplus stock to them. This will add to your income from your fowls.

When the sun is hot, the air is hot, the ground is hot, and the hen house is red hot. Lice begin to prosper. If they get possession of the hen house, the hens will cease to lay. The hens cannot eat enough to feed the lice by day, the mites by night, keep themselves alive, and manufacture the eggs. It takes the same material to make blood, milk and eggs. If the lice and mites constantly consume the blood supply, the egg flow must end until the blood supply is built Don't waste your grain on bloodthirsty, blood-sucking insects.

A broom properly applied and followed up by liquid lice-killer will keep the henhouse and hens free from vermin. This makes the house more inviting, the fowls more healthy, eggs more plentiful, and save a lot of discomfiture and grain. Just a little of your time twice a week will accomplish all this.

Why does the hen hide her nest away that eat her up and prevent her laying. on the fowls by night. It is a crime to interior to their houses all winter. permit these pests to exist. There presence to any extent should be a finable offence.

An expert tells us that an egg weighs should weigh a pound, and at nine weeks is a great help to them, and adds to old two pounds. What should be and their growth. Coax them to the house what is, are two different things. We every night by feeding them. Get them have seen some that could do fully as to feed at home both night and morning. that said board meet on the 14th day of well as this, but on the other hand, we It helps them a great deal, and prevents have seen chicks at three months and them from walking so far for food, Plenover that did not weigh two pounds-so much depends on the feeding.

Those who grow Asiatics and the Amerounty road and that the supervisor be ican breeds should add a pound each month to the young for at least four months; after this, not so much. Those In the matter of the Paul Dunn road: who do better are extraordinarily fine Ordered that said road be declared a growers. This refers to the average of county road and that the supervisor be males and females. Many are satisfied with a gain of three ounces per week. We have weighed a pair of white Plymouth Rock pullets five months old that weighed five and a quarter pounds each.

Leghorns and the smaller breeds grow very fast for four weeks. Often the wing so much thereof as may be required shall and tail feathers grow so fast as to be appropriated and drawn for that pur- weaken them. Thickened milk that has pose the same to be drawn in such plenty of sugar in it is good for this, amounts and at such times as the County Condensed milk with a little water in in direction of Prof. O. Miller Babbitt, of and others for work on the Nolan & Grib
Judge may deem necessary and so order. does quite as well. After a month old. erns do not gain weight so fast. If Ordered that the saw mills of the month old, this will do for the average county be requested to tender bids for males and females. Those that do better covering and 3x12x16 feet long for string- that reach four pounds average all round

> A lot of the most valuable provender October 30, at such place as directed by will go to waste within the next sixty days that might be saved for litter in your poultry houses and hog pens. For oats, rye and barley. The dust and chaff from these make splendid litter for your poultry houses next winter. If kept dry, the hens will eat all the seed out of it, and save the seed from scattering over the farm. Each hen could make use of three or four large sacks of it next win-When the beans and peas are threshed, do not let the hulls, dust, weed seed and broken seeds go to waste. Keep all this for the floors of your hen houses next winter. Put it away in sacks, and keep it dry for them. The broken seeds ELY BROTHERS, 56 Warren St., New York. when cooked, make a material for the best egg producing mash. When cooked and mixed into a dry mash with the bran and ground oats, the hens like it, and it is a splendid egg producer. Money can be made by saving all this, and it will be better and cleaner of weed seeds for A sturdy boy; a lithesome, manure when the hens have worked it over.

Those who have clover and who thresh for the seed should have the entire litter next winter. Dry it out for the purpose Clover hay and alfalfa make the finest of green food for the hens in winter When run through the cutting box, the hens will eat bushels of it, and the calves and colts like it. It does them all good, and it pays to have it. Poultry men who keep fouls for eggs buy alfalfa hay in sacks, all cut up. It pays them to do It will pay you to save it. When we speak of litter on the floor

in winter, we mean straw or like material all over over the floor a foot or so in depth. A handful or basketful is litter but not enough for the hen-house. neighbor used 100 bushels of oats in the straw one winter for twenty-five hens, and it paid. The cost of the oats in the hay was \$10. He sold eggs all winter at 5c each, and his hens laid 1000 of them in December, January, February and March. The litter made them work; the work brought the eggs.

If the floor of a hen-house is covered one foot deep with straw, and the house Southern Pacific Company will operate is large enough for twenty-five hens, and a number of trains daily between Oregon the hens have all their feed in small City and Portland and tickets will be grain thrown into the litter, and the floor of the house is dry, an additional six inches of straw can go into the house every two or three weeks and not add to the original depth of the straw. When "And is this to be the end of our glad it is dry they will break it up very fine; oung dream?" she pathetically asked. become very heavy, and must be taken down-town to become an innocent by- out and put into the manure heap, and fresh, dry straw put into the house; so

The summer months are the best in

What The Earth Produces.

The earth has nourished us through un known ages of human existence. Is it no true that the earth supplies us with every true that the earth supplies us with everything that we really require for existence? Have you ever thought that it is probable that the earth supplies us with the means to keep our bodily vigor, our health, if we only knew it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. Y., has such faith in his "Medical Discovery." Years ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alterative extract, without the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole and put healthy tone into the whole

Dr. Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

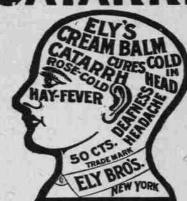

"I was all run down, very nervous, and suf-fered terribly from stomach trouble, which the doctors protonneed indigestion," writes Mrs. Wm. Morey, of Marshall, Mich. "I doctored for a year without permanent relief. Was ad-vised by a friend to try Dr. Terce's Golden Med-ical Discovery, and after the use of nine bottles. I was cured. I can heartily recommend the "Golden Medical Discovery" to any one suffer-ing from stomach trouble. My husband was also greatly benefited by its use."
