OIL DISCOVERED NEAR BARTON.

Fine Grade of Crude Petroleum Discov ered in This County. A living spring of petroleum, flowing

Candler about six miles south of Gres-The first indications were disham. covered by an Eastern visitor named Collins who is thoroughly familiar with oil conditions. He saw a scum on the surface of the water flowing down the side of the mountain and made a test on the spot with a match. The scum proved to be oil and burned readily. After considerable search he located the source in a spring near the junction of the Big and Little Deep creeks where a hole was dug which filled in a short time. The actual search for oil was giv-en up but there is no doubt but that some day it will be discovered in paying quantities.

Further researches will be made on the Candler farm to determine the value of the find. The result will be awaited with anxiety by those interested .- East
