

Constipated All His Life.

MR. and MRS. WILBERT THOMPSON,
801 Main St., Peoria, Ill.
MULL'S GRAPE TONIC CURED HIM.

Wilbert Thompson never knew a well day until last June—he had been constipated all his life—many doctors treated him, but all failed to even help him—his health failed rapidly and on January 21, 1903, Mrs. Thompson asked us to suggest a treatment for her husband—We thought the case too serious and recommended that a specialist be consulted—but he also failed to help the patient—NOW HE IS WELL.

Mull's Grape Tonic Cured Him

Mrs. Thompson first wrote us as follows: "My husband, aged 23, suffers from sharp pains in his stomach and sometimes thinks it is his heart. Let me know by return mail what causes the pain, if you can. Mr. Thompson has been treated by several doctors, but they have given him up."
We promptly advised that a first-class specialist be consulted. We quote: "We want to sell Mull's Grape Tonic, because we know it will cure constipation, but see, a bottle is no object to us when a human life is at stake, and if your husband's case is as serious as you state, we suggest you consult a reliable specialist, not the advertising kind, promptly." At the same time, knowing that Mull's Grape Tonic could do no harm, we advised its use until a physician could be consulted. January 26 Mrs. Thompson wrote that a physician had been consulted. He diagnosed the case as being chronic constipation and dyspepsia. His treatment was followed faithfully, but there was no perceptible improvement in Mr. Thompson's health. Then he began taking Mull's Grape Tonic and on Sept. 3, 1903, we received the following letter from Mrs. Thompson:

"You will remember that I wrote to you last January in regard to my husband's health. It is four months since he quit taking Mull's Grape Tonic for constipation, which he suffered from since birth. He took just 24 bottles of it and is perfectly cured. He is much stronger and has gained considerably in flesh. I cannot thank you enough for Mull's Grape Tonic. It is worth its weight in gold. Just \$12 cured him and he has spent hundreds of dollars with doctors who did him no good. Now I want to state my case to you and expect your early reply. I also have constipation, have had for three years. Kindly let me know as I am sure it will cure me if you say it will, as it did all you claimed it would in my husband's case. I await an early reply."

Very respectfully yours, MRS. W. H. THOMPSON, 801 Main St., Peoria, Ill.

or communities to write the news, thus making their home paper a truly live newspaper as it enters our homes each week.

Threshing is well along for this season of the year and while the yield is not as large as expected, owing to the dry spell, the grain is of good quality. It has demonstrated that farmers must sow their fall grain early and to blue vitrol their seed liberally.

Potatoes will be potatoes this year, notwithstanding the large acreage grown around here, and the price will increase as people find out that late potatoes will not yield as anticipated, the dry season being the primary cause.

Rev. Wettlaufer held services in the school house last Friday night. He is a

fluent, easy speaker and promises to preach again next Friday at the same hour and place. He held an attentive congregation and speaks well for the turnout, or members present.

Contractor Brown is waiting for the lumber to commence work on the new parsonage to be erected in town. He is a good workman and never slights any of his contracts.

The apple crop has received a black eye by being condemned as unfit for market, and will be made into cider. But owners of old orchards will pay more attention to their trees, and graft more in the future. We have orchards that are a disgrace, moss covered and where the sun cannot penetrate through the foliage, to say the least, the fruit is wormy and of a very inferior quality. Oregon City is a good wood market, several of our farmers now hauling cord wood while waiting for the much coveted moisture to fall.

The Grange meets in its hall the first Saturday in September, when several new members will be added to its roll. It is in a flourishing condition and much interest is taken by the farmers in the deliberations.

What shall we say of our neighbors? Well, they are all busy. Clarence and Pleasant Allen have had their hay and straw baled, Cole Warthing on the Stafford place, is resting on his oars while debating about renting the place for another year; Chris Simpkins, the farmer and carpenter, has commenced work on a new and large house for Farmer Barr; Real Estate Agent Plowman is pushing his list of lands to the front and hopes soon to close several deals he has on hand to a finish; Farmer Yeast is paying attention to chickens; Mr. Mounce has his cozy home in apple pie order and the same may be said of the Messrs L. Mounce, Shortledge, Crawford and Brown all residents living tributary to Maple Lane.

The dry season has been hard on wells and pasturage. Butter has risen in price and as chickens are molting, eggs are likewise creeping up. The berry season a very prosperous one, is over. Your correspondent has made many improvements and did much work in increasing an enhancing the appearance of his many varieties of berries and promises his Oregon City customers an increased quantity next season. Berry and chicken raising are two leading industries that will be attended to, the work being pleasant and remunerative, the facilities being excellent.

THE DUTY OF ATTRACTIVENESS.

Why Every Woman Should Look Her Best.

The hand that rocks the cradle rules the world. But the woman who is truly beautiful reigns over a larger kingdom than her own family. She is admired and respected by all who know her. Nature intended that every woman should have a beautiful complexion, but intense 20th century civilization with its starchy, rich foods and unnatural conditions, has done much to rob her of her rightful heritage. The secret of good complexion is in having rich, red blood, an active liver, perfect digestion and a regular, daily action of the bowels. Every woman who cares for a good healthy color in her face, for bright eyes, a ruddy glow, a clear skin and a ruddy complexion should take Laxakola every night until her condition is just what it should be. Laxakola starts the liver going, drives out the bile that clouds the complexion, encourages the action of the bowels, and cures chronic constipation by assisting nature to do its own perfect work. If you want the bloom and charm of a clear, healthy skin, try Laxakola on Huntley Bros. Co's recommendation and if after using a 25c bottle you see no improvement the druggist will hand back your money without the least argument.

WORTH MORE THAN THEIR WEIGHT IN GOLD.

Pepsikola Tablets of Priceless Value in Relieving Indigestion.

Health is everything. Many a millionaire would willingly part with half his fortune for perfect digestion. Riches and the realization of every desire cannot create contentment if indigestion is making one's existence miserable. When Huntley Bros. Co. tell you that in all their experience they never knew anything so sure to relieve sour stomach, coated tongue, dizzy spells, poor appetite, lassitude and fatigue due to imperfect digestion, there must be some good reason for their confidence, and there is. Dozens of chronic old dyspeptics right here in Oregon City who despaired of ever getting relief have tried Pepsikola Tablets on Huntley Bros. Co's recommendation and today are completely cured. Moreover, a druggist could not afford to keep on recommending an indigestion remedy unless it really will cure, for you would mighty soon lose confidence and trade at some other store. Pepsikola Tablets are a grand nerve tonic, they will give you new energy and new ambition, improve your appetite, and strengthen your digestive organs and unless they give you perfect digestion Huntley Bros. Co. will gladly pay your quarter back.

BRILLIANT RECORD OF A NEWSPAPER MAN.

The success which has attended Wm. E. Curtis, the famous correspondent of The Chicago Record-Herald is rarely attained by newspaper writers. Beginning his career in Chicago, in 1872, as reporter, he rapidly rose to the position of managing editor. He resigned that position on receiving a government appointment as secretary of the South American commission. Mr. Curtis traveled extensively in Central and South America, while in this position, producing several popular volumes as the result of his literary labors. Afterward co-operating with Secretary of State James G. Blaine, Mr. Curtis organized the work of the bureau of American Republics, with the result that he was placed in charge of that organization, and at the World's Columbian Exposition he distinguished himself by his labors as the executive head of the Latin-American department. As correspondent of the Chicago Record-Herald, Mr. Curtis' travels have carried him into every section of the United States as well as to all quarters of the globe. His China and Japan letters were published in book form; likewise his letters from England, Germany and France, as well as those written during his travels in Mexico and South America.

No newspaper correspondent possesses the facility shown by Mr. Curtis in writing on any of the diversified subjects embraced in his correspondence and making it luminous. Nor is any correspondent followed so closely year after year by the thousands of readers of the Chicago Record-Herald. On his recent trip to the Holy Land Mr. Curtis' letters have been read more closely than ever, and his descriptions of that interesting section of the globe as it appears today have been quoted everywhere.

A daily letter from Mr. Curtis appears in the Chicago Record-Herald.

WORMY FRUIT DISAPPEARS.

Inspector Reid Drives It Out of the Markets.

Portland people may have noticed in the past two weeks an improvement in the quality of fruit purchased at the city store, says the Oregonian. Wormy apples, scaly peaches and diseased fruit of any kind can no longer be found for sale. For this welcome change they are indebted to a young man who twice a day makes the round of the Front street produce houses, in the early morning visits the Plaza market and the rest of the day keeps his eye on farmers and gardeners who bring their product to the city. This man is James H. Reid, the newly appointed Fruit Inspector, better known in the produce quarter as 'the bug man.'

Mr. Reid knows his business, for he is a practical fruit-grower himself. He has a farm at Milwaukie which produces 10,000 baskets of Concord grapes every year. He grows other fruit too, but he sprays his yards so thoroughly that he never has to condemn any of his own product. Since he stopped the sale of infected fruit in this market, prices have undergone quite a revolution. Heretofore so much trash was offered for sale that it kept down the price of clean fruit, especially apples, and no inducement was offered the grower to take care of his orchard property. Before Mr. Reid's appointment good sound apples only netted the grower about 75 cents a box. Now the same class of fruit is worth about \$1.50.

"To the farmers I would like to give a little advice," said Mr. Reid yesterday. "Leave your fruit wormy and scaly apples at home, unless you are looking for trouble. Pack your fruit honestly and throw out the scabby, misshapen stuff for hogfeed—it will pay in the end."

"A few days ago there was a scarcity of apples on Front street, and in making my rounds I saw four boxes of passable apples in front of a mail order house. The fruit had been dumped loosely in the box, the covers were sawed out of fence boards and nailed up with ten-penny nails. I bought the four boxes at 50 cents each, took them to a commission house, replaced them in clean boxes and the result was three boxes of fairly good apples which sold 20 minutes later at \$1.25 a box."

"This was merely an experiment to see what could be done with ordinary clean fruit. The result fully justified the effort."
