HARVEST FESTIVAL SEPT. 23-26.

How Citizens Can Help Work of Salvation Army.

Have you ever heard of a poor, troubled, sorrowful, perplexed hopeless man or woman appealing fruitlessly to The Salvation Army? Do you know that something like 3,000,000 just such people are upheld by this wonderful organization? Do you know that in twenty-three different homes fallen women are each year restored by the scores to honor and a life of useful purity? Do you know that in three different havens little children, all the way from nursling babes to sturdy boys and girls are being succored? Do you know that scattered over the country are seventy-eight Shelters in which nightly some 9000 homeless often hopeless, men or women are cared for? Do you know that these institutions represent but a mere fraction of the charitable work successfully carried on by The Salvation Army in the United Staates?

How is this enormous expense to be Fools and ignorant know-alls explain to you that The Army is in and of itself a sort of bonanza class-corporation, and of a truth it would needs be if out of its own resources it carried on the stupenduous undertakings it dares. But the intelligent man or woman of today knows too well The Salvation Army under too many conditions and through too many seasons to listen to such folly.

The Army just now is making a special effort to raise funds, and they are asking for not only cash but articles that can be converted into cash.

We append a full list of articles asked

for: Fruits, flowers, canned goods, vegetables, fish, meat, chickens, live stock, corn, cocoa, books, pictures, jewelry, coal shoes, wood, tools, breakfast foods, furniture, old or new, clothing, new or second hand; wheat, oatmeal, condensed milk, bread, crackers, cheese, tea, coffee, flour, lumber, shingles, chairs, sheets, stationery, blankets, cutlery, dry goods, musical instruments.

No religious organization of history, has depended more fully upon the good offices and charitable warmth of the public than the Salvation Army. Happily we are not an ungrateful people, nor a people slow to realize or appreciate great deeds. That is why we have a right to feel a sincere interest in everything The Salvation Army undertakes, and that is why we all now take an interest in the Army's approaching annual Harvest Festival. September 23 to 26.

Anything and everything of any actual utility may be given as an offering at this Festival, for what may not be locally useful may be of high practical value in less favored parts of The Army's field. In the Circuit Court of the State of Ore-There is, in fact, a saying, humorous, but true, that The Salvation Army can find good use both for people and things that no other body in creation would consid-

POOR DAIRY HELP.

Probably in no department of agricultural work is it more difficult to obtain efficient help than in operating a dairy. Many farmers have been compelled to abandon keeping cows because help to milk could not be procured, as the average farm laborer dislikes a dairy. To operate a dairy successfully good milkers are necessary. It is a strenuous branch of agriculture and requires most careful attention to details and regular intervals for milking operations. The farmer who conducts a dairy is an early riser and generally works late hours.

The average hired man despises milking. It is the first and last function of the day's work. It frequently comes at e of an arduor field, and many hired men will not engage to work on a farm where one of the duties wil be to work in the dairy. With hired laborers to milk who dislike to milk the cows soon go dry, or they refuse to pay any profit on the cost of mainten-The modern hired man wants short hours and easy service. Some farm help demand the maintenance of a horse, and are more gentlemen of leisure than is their employer.

The average farm employe wants Sundays to himself. To arise on Sunday morning on schedule time and milk a few cows and to be under contract to help milk the herd on Sunday evening is where the protest comes in. The cows need as cuch care an attention one day as another, while Sunday specifically claimed by ordinary farm help as time reserved for themselves.

Germany, Belgium, Norway and Sweden and many other European countries, women do part or all of the milking, but to milk a cow is an accomplish ment that but few American women have mastered. The dairyman finds his business every year more difficult to operate and in many cases he is compelled to change the dairy to some other system of agriculture.-Cheese and Dairy Jour-

The happy combination of quality and quantity is what the dairyman is looking for when he is buying a cow. There are cows combining these two properties to an astonishing degree, and these tendencies are strongly hereditary. If we have a cow that gives an extra large per cent of butter fat her helfer calves are very apt to take after her in that respect; likewise if she is a big milker in weight or quantity of milk. Who has not heard of or known a strain of extra milkers that originated away back years ago from some old black or brindle cow of unknown breeding? These good cows seem to have inherited a milking quality. The saving of the good, wellbder heifer calves is the cheapest and possibly the surest way of getting a good State of Oregon, described as follows, to-

It is now well known that dropsy is not in itself a disease but is commonly a symptom of discovery of the Fulton Compounds, dropsy was incurable. It is now, however, curable in nearly nine tenths of all cases. Here is an interesting recovery, to which we refer by permission.

Mrs. Peter Goyheneix of 928 Fillmore street, San Francisco, became alarmingly dropsical. Her physician had finally to tap her every few days. She was tapped nearty forty times and grew worse from day to day. The physician finally told her husband that she had Bright's Disease of the Kidneys, that it was in an advanced chronic state and beyond medical aid. Her heart also gave her the usual trouble and she was in such a serious condition the relatives were sent for. They put her on Fulton's Compound. It stayed on her stomach, the first thing that had done so for a week. The second week the dropsy declined a little and the improvement was then gradual until her recovery was complete. This case was examined into by representatives of the San Francisco Star and the Overland Monthly, and the genuineness of the case and the recovery were fully attested in their columns. Her heart also gave her the usual trouble and

Mrs. Thomas Christol of 426 Twenty-seventh street, San Francisco, was also swollen with dropsy, as a result of chronic Bright's Disease, to more than seventy-five pounds beyond her normal weight, and had to be moved in sheets and was close to death's door aithough she had four physicians. She was put on the Fulton Compounds. Three weeks showed improvement and in six months she was well, and permits this reference.
