### HOW TO CURE CORNS AND BUN-IONS.

First, soak the corn or bunion in luke warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. ### SOME SEASONABLE ADVICE.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only

be done by keeping the remedy at Several of the young girls called hand. This remedy is so widely known on the "bachelors" Sunday evening and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by Geo. A. Harding.
