THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

sick several days is fast recovering. Several of the most prominent farmers met at the Grange Hall last Tuesday night, to hear Dr. Withycombe, but were disappointed somewhat, as the Dr. did not arrive, but sent Mr. Bailey, the Dairy Commissioner, to give us a talk.

The meeting was called to order by the Grange Master, Mr. Zeek, and Mr. J. H. Ried, county fruit inspector, was first introduced. He gave a short address on the line of fruit and then introduced the Dairy Commissioner, Mr. Bailey who gave us a talk for a short time on dairying, and then turned the meeting over to Prof. Cordley, who talked a short time on fruit and fruit pests, but owing to the speakers having such a short time to stay they left about 9 o'clock to reach the car for Portland. They did not have time to answer many questions, but we would like to see more interest taken in the line of fruit raising in this section and would be pleased to have a two or three days' session of Farmers' Institutes at the Eagle Creek Grange Hall in the near future, hoping more good may be done in the future.
