You Will Be Satisfied

WITH YOUR JOURNEY It your tickets read over the Denver and Rio Grande Railroad, the" Seenic Line of the World"

BECAUSE

There are so many scenic attractions and points of interest along the line between Ogden and Denver that the trip never becomes tiresome.

If you are going Bast, write or informa sion and get a pretty book that will tell you all about it.

W. C. McBRIDE, General Agent PORTLAND.

"Know anything about golf?" "I used to play shinny." "Then all you will have to lear is the language."

WOULD MAKE LAWS (Continued from Page 1.)

Among those whose names have been suggested as suitable men to represent this county as Representatives are John H. Gibson and J. W. Grasle, both of Harmony precinct.
Mr. Gibson is a substantial citizen
and has many friends who will work
hard in his behalf that he may secure this honor. Mr. Grasle is well known throughout the county as the present justice of the peace for the precinct of Milwaukie. He is one of the leading and most progressive fruit growers in the state. This year Mr. Grasle raised apples that brought the top notch figure and he is just as up-todate as a man and citizen..

J. W. Reed, of Estacada, has also been talked of for the place. Since the founding of that enterprising town in the eastern part of the county, Mr. Reed has taken an active part in the affairs of that municipality and has a wide acquaintance in the section of the county in which he resides. Bud Thompson, a successful and

progressive young farmer from the Needy district, is being urged by his many friends to become a candidate for the legislature. Mr. Thompson is known as an honest and reliable man, possessing the necessary qualifications for the making of a depend-able legislator when the interests of the people are involved.

There is also a rumor to the effect that if the outlook appears sufficently encouraging at the proper time, J. U. Campbell, former chairman of the Republican County Central Committee, and C. Schuebel, present Deputy District Attorney under District Attorney ney Allen, may decide to enter the race for this nomination. In the different positions these gentlemen have held or are now holding they have formed an extensive acquaintance throughout the county that will be to their advantage if they decide to enter the contest.

Candidate for Sheriff. In discussing the large number of candidates for the Republican nomination for sheriff last week, the En-terprise unintentionally failed to make mention of the candidacy of R. E. Woodward, who is making an active canvass for that nomination. As a member of the celebrated Maccabee quartet Mr. Woodward during a num-ber of campaigns visited practically every precinct in the county and was successful in forming a large acquaintance. These friends have assured him of their loyal support in his contest for the nomination he now

Bright's Disease and Diabetes News.

The John J. Fulton Co. of San Fran cisco, First in the World to Announce the Cure and present a Definite Percentage of Recoveries (87 per cent) and Give Out Lists of the Cured.

Here are some of the San Francisco recov eries. All of them were declared by physicians to be incurably ill with Bright's Disease or Diabetes: N. W. Spaulding, President Spaulding Saw Co.; Adolph Weske, founder Cal. Cracker Co.; Carl D. Zeile, pioneer druggist; Chas. Engelke, editor San Francisco Journal; R. M. Wood, editor Spirit Review; Edward Short, of the Call; C. A. Newton, yardmaster S. P. Co. (Sacramento); John A. Phelps, Hotel Repeller; Mrs. M. Empey, 130 Steiner St.; Mrs. S. E. Cline, 1737 Broadway; Mrs. P. Goyheneix, 928 Fillmore St. (tapped 33 times); R. C. Pell, Manager Pacific Coast Biscuit Co.; F. J. Bachelder, Pacific Coast Agt. Seth Thomas Clock Co.; E. B. Cutler, Attorney, 330 Pine St.; Wm. Hale, Real Estate, 215 Sansome St.; Mrs. C. C. Matthewson Proprietor Hotel Clifton; Thos. Haskins, Merchant (Petaluma); Col. Wm. Hawkins, U. S. Quartermaster's Department; Chas. F. Wacker, Merchant, 131 6th St.; Mrs. Thos. Christol, 436 27th St., and hundreds of others. Some were at death's door when put on the compounds, but many such recovered. That many were in extremis may be learned from this: Some recovered who had been tapped dozens of times; others were already in the twitchings of urasemic poisoning; many had from four to six physicians confirm the fatal diagnosis; several had relatives called in for last interviews, and a few recovered who were in a state of absolute coma.

In a word about 87% of all cases of Bright's Disease and Diabetes, heretofore positively incurable, are now curable under the new Fulion Compounds. The Renal Compound for Bright's and Kidney Disease is \$1; for Diabetes, \$1.50. Pamphlet free. We have just established a depot in your city where you will find the Compounds and pamphlets, viz: Thos. Christol. 426 27th St., and hundreds of

A NEW DEPARTURE

"Taking Time by The Forelock."

All observing people must have alcohol both for extracting and pre-noticed a growing sentiment in this country in favor of using only put-up foods and medicines of known composition. It is but natural that can position. It is but natural that one should have some interest in the composition of that which he is expected to swallow, whether it be food, drink or medicine. This sentiment has resulted in the introduction in the legislatures of many of the States, as also in the Congress of the United States, bills providing for the publication of formula or ingredients on wrappers and labels of medicines and foods put up for general consumption.

Recognizing this growing disposition on the part of the public generally, and satisfied that the fullest publicity can only add to the well-earned reputation of his proprietary medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast, and were, and is publishing broadcast, and on each bottle wrapper, a full and complete list of all the ingredients entering into his medicines, "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, debilitated, nervous, invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Doctor Pierce's medicines and recommending these ingredients for the cure of the diseases for which Dr. Pierce's medi-cines are advised. A copy of this little booklet is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. A request, by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., will bring this little booklet by return post. It tells exactly what ingredients are used in the making of Dr. Pierce's famous medicines. This striking departure of Dr. Pierce

from the usual course pursued by the manufacturers of proprietary medi-cines, at once takes his medicines out of the class generally known as "patent" or secret medicines, neither of which term is at all applicable to them, as their formula now appears on the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y. It places them in a class all by them-selves. Neither of them contains any alcohol, which fact alone should cause them to be classed all by themselves and as entirely harmless vegetable extracts, made and preserved by the use of glycerine and not with the usually employed strong alcohol, which works so much injury, especially in cases where treatment, even though of the best, must be continued for considerable periods of time, in order to make the cure permanent

in manufacturing his medicines. Some of these medicinal roots have, since Dr. Pierce first commenced to use since Dr. Pierce first commenced to use them, advanced so in price, that they may be cultivated with great profit by our farmers. This is especially true of Golden Seal root, which enters into both the Doctor's "Golden Medical Discovery" and his "Favorite Prescription." It now brings upward of \$1.30 a pound, although formerly selling at from 15 to 20 cents a pound. Many tons of this most valuable root are annually consumed in Doctor Pierce's Laboratory.

From "Organic Medicines," by Grover

From "Organic Medicines," by Grover Coe, M. D., of New York, we extract the following concerning Hydrastis (Golden Seal root), which enters largely, as we have already stated, into the com-position of both "Golden Medical Discovery" and "Favorite Prescription."
Dr. Coe says: "Hydrastis exercises an especial influence over mucous surfaces. Its action in this respect is so manifest that the indications for its employment cannot be mistaken. (Hence the efficiency of "Golden Medical Dis-covery," which is rich in Golden Seal root, in all catarrhal affections, no matter in what part of the system located.) Upon the liver it acts with equal cer-tainty and efficacy. As a cholagogue (liver invigorator), it has few equals. Also in scrofula, glandular diseases generally, cutaneous eruptions, indi-gestion, debility, diarrhea, and con-stination."

Doctor Coe continues: "Hydrastis (Golden Seal root), has been successfully employed in the cure of lencorrhea. It is of singular efficacy when that complaint is complicated with hepatic (liver) aberration (derangement). Hy-drastis is also of inestimable value in the treatment of chronic derangements of the liver. It seems to exercise an especial influence over the portal vein and hepatic (liver) structure generally, resolving (dissolving) biliary deposits, removing obstructions, promoting se-cretion, and giving tone to the various functions. It is eminently cholagogue (liver accelorator), and may be relied upon with confidence for the relief of hepatic (liver) torpor. It promotes di-gestion and assimilation, obviates constipation, and gives tone to the depurating (cleansing) functions generally."

Dr. Coe further says: "We would here add that our experience has demonstrated Hydrastis to be a valu-

and other affections of the respirators After reading the foregoing extracts who can doubt the great efficacy, in a long list of diseases, of "Golden Medical Discovery," one of the principal ingredients of which is Golden Seal root (Hydrastis)? And this applies with equal force to Doctor Pierce's Favorite Prescription for weak, wornout, over-worked, nervous invalid women. organs."

Plain Clothes Men. In a small South American state which had recently undergone a change of administration the new potentate summoned an artist and ordered new designs for all the official uniforms. "I wish showy costumes-very

showy," he said, "for the people are impressed by them. I have here some aketches that I myself have made. Look them over and be guided by these deas as far as possible."

The artist examined the sketches carefully.

"This," he said, turning the pages, "is evidently for the navy and this for the army, but, if you please, what is thisa long plume on a three cornered bat, yellow dress coat trimmed with purple, and"-

"That," replied the chief of state gravely, "is for the secret police."

Be Kind Today.

Less spent on the dead and more spent on the living would bring about many happy results. Hearts are breaking, loved ones wait and tears flow all because of the withholding of kind words unspoken and letters never sent. The aged father and mother far off in the country would often be cheered did the son or daughter more frequently send them a letter. Behold the sad mistakes of others, their remorse, and profit by the same before it is too late. Today, how, speak the loving word, send the tender message, write the letter you put off day by day, and don't walt until you forget it or until hitter memorles haunt you.

A Brazilian Household Pet. Brazilians train a snake called the gibola as a rat catcher. It is fifteen feet long, is harmless to the human being, becomes quite a household pet is lazy in the daytime, but at night roams about the house in quest of its prey-rats. These animals it promptly kills by twisting their necks. When Brazilians have to pass from room t oom in the dark they first put on the slippers. It would not be pleasant to plant one's bare feet on a cold slims

From many selections from Marcus Aurelius we choose this as showing his keen insight into this weak human nature of ours: "I have often wond how it is that every man loves himse: more than all the rest of men, but ye

sets less value on his own opinion of bimself than an the opinion of others."

snake of that size.
