## BORING.

Jan. 23.-Rain and mud are the principal things going on at present The roads are in very bad condition in this section at present and the prospects for them to be a great deal worse. The new plank road from Boring to Sandy has been said to be an ideal plank road, but we are under the impression that if those that said

this were to have to travel it they would change their minds. The lumper put on the road was first class, but the way that it was put down was very poor work. The stringers were laid on top of the ground and in some places the plank are twelve inches from the ground. The boards are all laid to one side of the road and when cams meet the team going east has get off the plank and if it is heaviloaded it is impossible for them to get on the road without unloading. If this is an ideal plank road we do not want any more of these ideals.

# We vouch for this-absolutely.

It has been proven to us beyond the possibility of doubt that a new medicament known as D. D. D. clears up the worst skin affections quickly. Its work seems astonishing, amazing, almost miraculous. (It is a specific formula which, because of its discovery by Dr. Decator Dennis, is known as 'D. D. D.'). Its actual record sounds like a story of magic. But there is no room for doubt about it whatever, full proofs indisputable in every respect, have been submitted to us regarding hundreds of cases -among them the one case shown here of the boy (Sammy Minkey), who was cured in 21 days. The results are not only complete, but permanent; in this case it is now nearly two years since the disease was cleared out of the skin, and no taint of it has
