

CANDIDATE FOR COMMISSIONER.

F. J. Harkenrider, of Estacada, Will Ask for This Nomination.

Estacada, Or., February 7, 1906.

Editor Enterprise:—

In view of having been solicited by the representative Republicans of my home and three adjoining precincts to allow myself to become a candidate for nomination to the office of County Commissioner, I therefore say that the citizens of this county will find my name upon the ballot as a Republican candidate for nomination to that office.

In placing my name before the people of this county I want it distinctly and emphatically understood prior to this I have not asked any one in my vicinity or county to support me; that I will be, if chosen at the next two elections a Commissioner for the whole county and not of any neighborhood alone, and that I neither have nor will have any political debts or bargains to pay should I be elected.

In view of these facts, I trust that the people of this county will give me their support at the next two elections.

F. J. HARKENRIDER. WOULD BE COMMISSIONER.

W. S. Rider, of New Era, Candidate For This Nomination.

New Era, Or., February 7, 1906.

Editor Enterprise:—

I hereby announce my candidacy for the Republican nomination for County Commissioner of Clackamas County.

I am a resident of New Era, and by occupation a farmer, and if nominated and elected to the position of County Commissioner, I promise to treat all parts of Clackamas County alike and not show partiality in favor or against any portion of the County.

1st. I believe that all of the affairs of the County should be conducted with the utmost economy.

2d. I believe that all of our improved County roads should be kept in good repair during all seasons of the year.

3d. I believe that all roads that are improved by the County in the future should be the main thoroughfares leading back into the County.

4th. I believe in getting the County out of debt and keeping it out, so as to be able to decrease the rate of taxation and thereby make the County more inviting to the investor of capital.

We have fine prospects in store for Clackamas County by reason of its large forests in the foot-hills and mountains and owing to its rich soil, and in order to develop those resources properly we must have a lower rate of taxation and better roads leading into the County, and if nominated and elected Commissioner, I promise the citizens of Clackamas County a careful administration of County affairs.

Respectfully yours, W. S. RIDER.

F. J. HARKENRIDER.

Some Reasons Why He Should Be Elected Commissioner.

His knowledge of county affairs is broad and he has a mind of his own.

He has a good knowledge of road and bridge construction.

He has been a resident citizen and taxpayer of this county for 23 years.

He has never asked for nor held a county office.

Commissioners should be located in the various parts of the county so that local needs of all parts may be known of by the County Court.

The northeast part of the county has not had a representative on that body for years.

He is located within two hours' journey of the county seat.

As proof that we are not antagonistic to the other parts of the county, we will say that we are only asking for what we deserve; that we are reasonable since we only want one of our own county and state officers; and that we were advised by some of the leading representatives of the other parts of the county to pick out and settle upon some one man for this place.

Signed: Taxpayers of Estacada and vicinity.

SOCIALISTS ATTENTION.

The county convention of the Socialist Party will be held in the early part of April (date to be announced later) and all persons will be permitted to take part in its proceedings who have complied with the following conditions.

You must be a member of Local Clackamas County, which is the only official organization of the Socialists in the county, in good standing.

If you are not now a member you can join the day of the convention and place yourself in good standing by the payment of one month's dues.

Second condition is that you register as a Socialist or do not give your politics at all.

The direct Primary election is only for those parties which have polled 25 per cent of the vote at the last election.

Consequently only the Republican and Democratic parties will nominate their candidates in this election and it is not honorable for the Socialists to register as a Republican or Democrat and take part in nominating their candidates.

Any Socialist who does so will be debarred from taking part in the county convention. If you are registered already the law provides that you may change your declaration of party affiliation any time before the poll books close before the Primary Election.

After the Primary Election the poll books will be opened for the general election and any one can register then without declaring their party affiliation.

The principle of allowing the members to nominate their candidates direct has been used for years in the Socialist Party and they need not try and help the Republicans and Democrats to drive out their grafters.

Any well posted Socialist knows that grafting is a system of a disease which can only be cured when the disease is

cured. The malady now afflicting the body politic is capitalism and only remedy for it is Socialism.

Very truly yours, CLAUDE S. HOWARD, Secretary Socialist Party.

TO WHOM IT MAY CONCERN.

Oregon City, Or., February 7, 1906.

It has been rumored around that in case J. K. Morris was nominated and elected Sheriff in this county at the coming election, I would be his manager, deputy, etc.

Now, the fact is Mr. Morris never intimated nor suggested any such promise. On the other hand I have always had a very kind feeling for him knowing he has always been a strong Republican. I never thought nor would I accept an offer of the kind even if tendered me.

True, some people must predict and give some one a round-up. When our Savior was on this earth they maligned and abused him and they are at it yet. It seems all good men are abused in some way.

I hope this will be a solace to a few fault finders and I further hope that the time will come when the people hunt the man and not the man the people.

Yours truly for forty days, W. W. H. SAMSON.

SALVATION ARMY MEETINGS.

When it was asked General Booth in the early days of the Salvation Army where he was going to recruit his army from, his answer, "from the saloon, the dive, and other such places," was received with scorn and ridicule. Yet today in 49 different countries the Army flag is flying, held up by consecrated men and women from the palace and the college, as well as by men and women from the gutter.

The want of men and women today is the only reason why the work is not carried into Russia proper, Brazil, West Africa, and other parts of the world, as well as pushed more to the front in our own land, in Oregon City.

The Salvation Army in the United States is making a united effort for the Salvation of 8000 souls between the 11th of February and the 11th of March, an increase in the number of their soldiers and a number of candidates for officership.

Some must come from the backsliders and sinners, respectable and disreputable ones of Oregon City. Will you be one? God wants you! The Salvation Army wants you; your brothers and sisters around you, your own flesh and blood, the unsaved members of your own family want you to help them to Heaven and God. Qualify for service. Repent. Believe. Obey. Confess and forsake your sin. Get endowed with the power of the Holy Ghost, and in its strength go forward.

Meetings every night at the Salvation Army Hall, You are invited to come; bring your friends. Pray and work. Add faith to your work and remember "that they that turn many to righteousness, shall shine forth as

stars for ever more." "The drunkard may come, and the Swearer may come Backsliders and sinners are all Welcome home." "There's a place in the Army for you."

SCHOOL NOTES OF THE COUNTY

Several New Terms of School are Begun— School Report.

Little L. Lemman, late of Missouri, has succeeded Miss Toom as one of the teachers in the West Oregon City schools.

Miss Ethel Waters has begun a term in District No. 82.

In the Concord district, C. O. Swipe has begun a spring term.

Dagmar Ames is teaching a term of school at Welch's, near Mt. Hood.

The results of the Eight grade examinations are being returned to Superintendent Zinser for grading by the examining board.

About fifty of the public school students of the county took the examination.

The following is a report of School District No. 99, Clackamas county, for month ending January 26, 1906:

No. of pupils in attendance.....32 No. of days present.....568 No. of days absent.....19 No. of times tardy.....21 Average daily attendance.....28 1/2

Those who were neither tardy nor absent during the month: Royal Zinser, Elmer Zinser, Lydia Zinser, Julia Held, Hannah Becker, Melita Rushford, Glen Rushford, Ray Rushford, Gertrude Ulrich, Pearl Revstock.

Yours respectfully, CHARIE E. STOKER, Lents, Ore., R.F.D. No. 2.

REAL ESTATE TRANSFERS

Furnished Every Week By the Clackamas Abstract Company.

C. H. Dye to R. Burbank 5 acres in section 2-2 E; \$400.

E. F. Forbes to F. Thornton lot 1, block 10, Oregon City; \$1.

Hibernia Savings Bank to M. A. Buzan, lots 7 and 8, block 23, Milwaukee Park; \$90.

J. L. Eri to M. C. Donahue west half of SW quarter, section 2, 2-4, E; \$2,000.

Williamette Falls Co. to J. L. Rook, S half of lot A, tract 64, Williamette Falls Tracts; \$75.

W. W. Webster to W. P. Chilcote to tract P and part of J. Clark, Riverside; \$2,000.

J. W. Rook to A. Strucken S half of NW quarter section 8, 2-4, E; \$2,000.

H. T. Sladen to O. E. Conway, lots 4 and 5 Apperson's Subd Gladstone; \$80.

J. H. Broetje to A. Gertsen 5 acres in Crow Cl., 2-1, E; \$1,500.

Hibernia Savings Bank to C. J. Garrows lot 1 and 2, block 5, Milwaukee Park; \$100.

Hibernia Savings Bank to O. Lassard lots 1 and 2, block 12, Milwaukee Park; \$56.

E. W. Downing to L. M. Downing 1.57 acres in Risley; \$1.

O. W. P. T. S. Co. to M. C. Adkins lots 1, 2, 3 and 4, block 33, Estacada; 1,000.

T. A. Seaman to Beck & Seaman, block 120, Gladstone; \$1.

M. L. Root to I. G. Burgess lot 2, block J, Clackamas Heights; \$150.

R. F. Caulfield to V. Caulfield et al, lots 1 and 2, block 63, Oregon City; 1,000.

M. F. Rees to F. Rees NW quarter of SE quarter of NE quarter section, 8, 4-3, E; \$5.

F. Rees to M. Telford, part section 2, 4-3, E; \$500.

O. W. P. T. S. Co. to M. G. Oakley lot 4, block 17, Estacada; \$75.

M. C. Oakley to N. Welter lot 4, block 17, Estacada; \$90.

A. F. Shultz to F. L. Heyleyman lot 22, block 32, 1st Add. to Estacada; \$300.

E. Deckmann to H. K. Deckmann W half of the N quarter section 13; E half of NW quarter section 14, 3-1, W; \$1,000.

A. Jaeger to H. K. Deckmann W half of NW quarter 13; E. half NW quarter 14, 3-1, W; \$1,000.

Hibernia Savings Bank to O. S. Lessard lots 14, 15 and 16, block 7, Milwaukee Park; \$157.

F. M. Forman to F. Webster 10 acres in section 14, 2-3, E; \$200.

H. L. Stratton to D. Olds, lots 2 and 3 in block 2, Falls View; \$30.

S. E. Head to L. M. Bly 50 acres in section 29, 3-2, E; \$2,600.

C. H. Dye to A. Smith 8 acres in section 2, 2-2, E; \$600.

J. H. Johnson to A. Herz S half of E half of NW quarter section 5, 2-4, E; \$325.

J. H. Johnson to J. Borde N half of E half of NW quarter section 5, 2-4, E; \$3,600.

J. Zobrist to B. W. Read lot 6, block 11, Zobrist Add.; \$70.

T. H. Ruddy to F. P. Hallinan 2 acres in tract 25, Oak Grove; \$550.

E. Wells to T. F. Ryan lots 5, 6, 7 and 16, block 11 Gladstone; \$750.

A. R. Church to Applegate & Gratton part Whitcomb Cl.; \$8,000.

Williamette Falls Co. to B. P. Kanney tract 2, 1st add. to Williamette Falls Tracts; \$10.

FRANK BUSCH The House Furnisher 5 and 10 cent Sale

We're enthusiastic about this sale—we never had an idea that there were so many really good things that could be sold for a nickel or a dime. You'll be surprised, too, when you come in to see what these little peices of money will buy. Look at the list below and then take a peep at our windows—you'll see things that you never had an idea could be bought for so little money. There are Night Lamps, Knives, Hammers, Dinner Plates, Cups and Saucers, Cake Plates, Berry Bowls and many other things just as good. The list below gives you a faint idea of what your money is worth, but remember that of some items we have only small quantities so don't wait too long or what you especially want may be gone.

Heavy Fire Shovel Here's a Bargain if there ever 10c was one

Rolling Pin The Best we ever saw for 5c

A Picture a fine colored one at that—size 12x16 inches FREE if you buy a full weight box of tacks 5c

Cake Plate 9 and 1-2 inch, cut glass pattern, 5c extra heavy

Berry Bowl 6 and 1-2 inch. If you like nice glass-ware here's another bargain for 5c you that beats the record

Wallpaper 500 Rolls—double ones—each 5c Do not wait until it is all sold

A nickel isn't much of a coin, but it will buy a fine big Salt Box You have never seen its equal for less than 20c. While twenty-five of them last we will sell them each at 5c

The Enameled Sauce Pan That we're selling now for 10c cannot be duplicated for less than twice the money. Only one to a customer.

THE GOOD THINGS OF EARTH Are Not All Far-Fetched.

That our American forests abound in plants, the roots of which possess the most valuable medicinal and curative virtues, is abundantly attested by scores of the most eminent medical writers and teachers of our age.

Even the untutored Indians had, by intuition and experience, discovered the usefulness of many native plants before the advent of the white race on this continent. This information, crude though it was, imparted freely to the friends of the whites, led to the discovery of the medicinal value of many of our native medicinal plants and herbs.

It is no longer thought necessary that a medicinal agent, in order to be good and useful, must have been brought across the ocean or that "being carried seven times across the Sahara Desert on the backs of fourteen camels" makes it the more valuable.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most of our physicians and most fatal diseases, if we would properly investigate them; and, in confirmation of this firm conviction, he points with pride to the almost marvellous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Not less marvellous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it.

Both these world-famed medicines are wholly made up from the glyceric extracts of native medicinal roots, found in our American forests. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each of their wrappers. They are both made of such native medicinal roots as have received the strongest endorsement and praise for their curative virtues from the most prominent writers on Materia Medica in this country. What is said of their power to cure the several diseases for which they are advised may be easily learned by sending your name and address to Dr. R. V. Pierce, Buffalo, N. Y., for a little booklet which he has compiled, containing copious extracts from numerous standard medical books, which are consulted as authorities by physicians of the several schools of practice for their guidance in prescribing. It is FREE to ALL. A postal card request will bring it.

You don't have to rely solely upon the manufacturer's say-so as to the power of Dr. Pierce's medicines to cure, as with other medicines sold through druggists. You have the disinterested testimony of a host of the leading medical writers and teachers. Send for this copious testimony. It can be relied upon to be truthful because it is entirely disinterested.

From the little booklet above mentioned, you will learn what a marvellous curative action Stone root, one of the prominent ingredients of Dr. Pierce's Golden Medical Discovery, exerts over the heart and its diseases, especially those valvular affections which are attended with diffi-

cult breathing, smothered sensations, palpitation or irregular heart action. Dr. Faigie, author of Faigie's Epitomy of Medicine, considered Stone root specific in these cases, and cited bad cases cured by it in his extensive practice Golden Seal root, another prominent ingredient of Dr. Pierce's "Discovery," is also a valuable heart tonic as also Black Cherry bark, another ingredient. You will also learn that the eminent Drs. Hale, Ellingwood, Johnson, Hare, Cox and others recommend Golden Seal root, and several of them Stone root, Queen's root, Bloodroot and Black Cherry bark for bronchial, throat and lung affections attended with hoarseness, persistent cough, night-sweats and kindred symptoms indicating approaching consumption. All these agents are faithfully and fully represented in Dr. Pierce's Golden Medical Discovery, and it can be confidently relied upon to produce their combined curative effects, not only in the above mentioned affections, but also in all catarrhal diseases, no matter whether affecting the nasal passages or other regions of the body.

In nasal catarrh, while relying on the "Discovery" as the best constitutional remedy known to medical science, Dr. Sage's Catarrh Remedy should be used to cleanse the nasal passages. Together they constitute the most thorough and effective course of treatment which can be employed for the cure of that troublesome disease.

No other medicines sold through druggists for like purposes, have any such professional endorsement as Dr. Pierce's, and, in consequence, none are so largely prescribed by physicians who know what they are made of and that their composition is of the best ingredients regardless of cost. Send for the little free book now.

The "Golden Medical Discovery" must not be expected to produce miracles. While it is especially suited for the cure of all chronic, lingering coughs, it is curable, it is not so effective in acute colds and coughs unless slippery elm mullage, flaxseed tea, solution of gum arabic, and other demulcents are used. It should be drunk freely in connection with its use. Nor must the "Discovery" be expected to cure consumption in its advanced stages. In its early stages it will stay its progress and often effect a cure if its use be persisted in for a reasonable length of time. Send for the little book noted above and learn what those most eminent in the medical profession say of the ingredients out of which Dr. Pierce's medicines are made and thereby learn why they cure obstinate diseases.

Doctor Pierce's Pleasant Pellets cure biliousness, sick and bilious headache, dizziness, constiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, tightly corked, therefore perfectly safe and reliable. One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels.

Your good medical book, written in plain English, and free from technical terms, is a valuable work for frequent consultation. Such a work is Dr. Pierce's Common Sense Medical Adviser, in plain English, and free from technical terms, is a valuable work for frequent consultation. Such a work is Dr. Pierce's Common Sense Medical Adviser, in plain English, and free from technical terms, is a valuable work for frequent consultation.

Send for this copious testimony. It can be relied upon to be truthful because it is entirely disinterested.

From the little booklet above mentioned, you will learn what a marvellous curative action Stone root, one of the prominent ingredients of Dr. Pierce's Golden Medical Discovery, exerts over the heart and its diseases, especially those valvular affections which are attended with diffi-

USING HAND SEPARATORS.

Practically all of the well known makes of hand separators now on the market will do good work under favorable conditions. The machine which will do satisfactory work under unfavorable conditions is the best one for the farmer, but few hand separators will do this. It remains for the user of the machine to make the conditions just as favorable as possible.

The loss caused by improper skimming is enormous in the aggregate. Undoubtedly the loss in butterfat, through improper skimming, among the users of hand separators in the northwest exceeds the interest on all the money invested in these machines.

We believe this is a conservative estimate; far too conservative, but there are no figures to base a correct statement upon. The majority of farmers conclude that their separator is doing satisfactory work if no cream raises to the surface of the skim milk upon standing for several hours. This is no criterion whatever to go by. Skim milk must contain at least one-fourth of a pound of butterfat to every hundred pounds of the milk, before any cream can be detected upon its surface after standing.

The skim milk should not contain over one-tenth of a pound of butterfat in one hundred pounds of milk, and any of the best separators will do even better work under favorable conditions.

The average hand separator user can not be expected to be an expert with the machine. He should, however, what kind of work his machine is doing. He can always arrange to have a sample of milk tested and if the machine is not doing good work he should try and locate the trouble. Send a sample of the skim milk to the local creamery, to the dairy school or the dairy and food department. This information can be secured if desired. The sample sent should be collected from several skimmings of the machine.

Study the directions furnished by the manufacturer of the machine you are using. In general, the causes for improper skimming may be summed up as follows:

1. Unnatural vibrating or shaking of the machine, causing a partial remixing of the skim milk and cream. This may be caused by worn bearings or boxings, bent spindle, too high or too low speed, unstable foundation upon which the machine is placed, and the fact that the separator is not standing level. If the boxings are worn the fact may be easily detected by examining or by noting whether the spindle fits them perfectly. A bent spindle is not so easily detected, but if all the other conditions are right and the machine continues to "wobble" it is safe to conclude that the spindle is bent. The separator should stand on a good solid foundation, and must be perfectly level. Use a good level across the top of the bowl cavity, when the bowl is out of the machine. It is an easy matter to decide whether the machine is level.

2. Too low temperature. When the

milk is skimmed immediately after being drawn from the cow there will be no trouble about temperature. Some farmers make a practice of holding the night's milk over until morning. When this is done (and it should not be done) the milk should be warmed to at least 185 degrees Fahrenheit before separating.

3. Too low or too high speed. Every good separator is intended to be run at a certain speed and should be run at that rate. A too low speed produces thin cream, but more of it, and a great loss in the skim milk. A too high speed is not so dangerous, but is often the cause of loss of butterfat. The "happy medium" is the speed at which the machine was intended to be run.

A little common sense care in the handling of a separator will produce satisfactory results. It is a delicate machine and cannot be handled as some of the other articles of farm machinery.—N. W. Agriculturist.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement. To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.
