

# Constipated All His Life.

MR. and MRS. WILBERT THOMPSON,  
801 Main St., Peoria, Ill.  
MULL'S GRAPE TONIC CURED HIM.

Wilbert Thompson never knew a well day until last June—he had been constipated all his life—many doctors treated him, but all failed to even help him—his health failed rapidly and on January 21, 1903, Mrs. Thompson asked us to suggest a treatment for her husband—We thought the case too serious and recommended that a specialist be consulted—but he also failed to help the patient—NOW HE IS WELL.

## Mull's Grape Tonic Cured Him

Mrs. Thompson first wrote us as follows: "My husband, aged 23, suffers from sharp pains in his stomach and sometimes thinks it is his heart. Let me know by return mail what causes the pain, if you can. Mr. Thompson has been treated by several doctors, but they have given him up."  
We promptly advised that a first-class specialist be consulted. We quote: "We want to sell Mull's Grape Tonic, because we know it will cure constipation, but 50c. a bottle is no object to us when a human life is at stake, and if your husband's case is as serious as you state, we suggest you consult a reliable specialist, not the advertising kind, promptly." At the same time, knowing that Mull's Grape Tonic could do no harm, we advised its use until a physician had been consulted. January 25 Mrs. Thompson wrote that a physician had been consulted. He diagnosed the case as being chronic constipation and dyspepsia. His treatment was followed faithfully, but there was no perceptible improvement in Mr. Thompson's health. Then he began taking Mull's Grape Tonic and on Sept. 2, 1904, we received the following letter from Mrs. Thompson:

"You will remember that I wrote to you last January in regard to my husband's health. It is four months since he quit taking Mull's Grape Tonic for constipation, which he suffered from since birth. He took just 24 bottles of it and is perfectly cured. He is much stronger and has gained considerably in flesh. I cannot thank you enough for Mull's Grape Tonic. It is worth its weight in gold. Just \$12 cured him and he has spent hundreds of dollars with doctors who did him no good. Now I want to state my case to you and expect your early reply. I also have constipation, have had for three years. Kindly let me know as I am sure it will cure me if you say it will, as it did all you claimed it would in my husband's case. I await an early reply."

Very respectfully yours, **MRS. W. H. THOMPSON, 801 Main St., Peoria, Ill.**

### FRAUD EXPOSED.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's remedies, as all others are mere imitations. H. E. Before having the old-time gold fillings put in your teeth come and see the newer and better porcelain inlays. This work, while comparatively new, has been in general use about six years, and by every test is found to be far superior to any other filling known. It preserves the teeth, preventing decay around the margin as sometimes happens in metallic fillings; are more durable and look very much better.

This work is not generally used in on account of the skill and time required to do as it should be done. We have been doing porcelain inlay work for over two years, besides taking a special course in this work while in Chicago under the best porcelain workers in the United States.

Do not confound this work with cement or artificial enamel, which is used by many. Porcelain fillings have come to stay, and is acknowledged to be so superior that in the East many people are having their gold fillings replaced by them.

All our work guaranteed.

### GUN EXPLODES BUT GETS CROW.

Judge McBride Has a Not Pleasant Experience.

A crow hunt with a brand new combination rifle and shotgun came near costing the life of Judge Thomas A. McBride of the fifth judicial district of Oregon a few days ago, reports the Portland Journal. The Judge killed his crow, but the rifle exploded and came near killing him. The breechlock and firing pin blew out, grazed his right temple and went entirely through a two-inch board back of him.

Judge McBride has a ranch on Deer Island, and as he is fond of hunting, stopped in Portland on his way to the ranch a few days ago and purchased one of the latest improved combination rifle and shotgun. He got a good supply of ammunition for both the rifle and the shotgun barrels of the weapon and betook himself to his ranch for a little outing. The Judge thought he would try his new gun before starting out after big game and a crow being the only thing in sight, he loaded the rifle barrel and prepared to test his skill at shooting. Fortunately he had the gun at such an angle that the stock lay parallel with the side of his face, for when he pulled the trigger the barrel exploded. Judge McBride's face was badly powder burned but the injuries are not considered serious.

### NOTED NEW ZEALANDER COMING

Prof. G. Spencer Clapham, author, lecturer and journalist, from New Zealand, who has been making a tour of the Colleges and Universities on the Pacific Coast, will be in Oregon City to deliver a lecture on New Zealand, its government and institutions.

It goes without saying that it will be a lecture of more than absorbing interest.

Not only does he give most delightful word paintings of the natural wonders and scenery of New Zealand, but the experiments in self-government, which they have been making has drawn the eyes of the whole world on New Zealand.

"We have no unemployed problem, no strikes and no poverty. No trusts and since the government has taken the business of lending money largely into its own hands and loans money at four and a half per cent, the prosperity of the island has been trebled."

Professor Schafer, of the University of Oregon, has characterized Prof. Clapham as the "Macaulay of New Zealand."

He will lecture in Willamette Hall on Tuesday evening, February 20. He will no doubt have a large hearing.

That since the call to rest is from the Divine Master we bow in humble submission to His will ever remembering that "Thy will be done."

Resolved, That this Grange has lost a good and faithful member whose name was enrolled on our charter and who was a Past-Master:

That the family has lost a loving father and the community a faithful neighbor and citizen.

Be it resolved, That a copy of these resolutions be sent to the bereaved relatives, a copy to the county papers and a copy placed on a page of our minutes and our charter be draped in black for thirty days.

### F. K. HARKENRIDER.

Some Reasons Why He Should Be Elected Commissioner.

His knowledge of county affairs is broad and he has a mind of his own. He is an honest, hard-working farmer and well liked by his neighbors.

He has a good knowledge of road and bridge construction.

He has been a resident citizen and taxpayer of this county for 23 years.

He has never asked for or held a county office.

Commissioners should be located in the various parts of the county so that local needs of all parts may be known of by the County Court.

The northeast part of the county has not had a representative on that body for years.

He is located within two hours' journey of the county seat.

As proof that we are not antagonistic to the other parts of the county, we will say that we are only asking for what we deserve; that we are reasonable since we only want one of the various county and state offices and that we were advised by some of the leading representatives of the other parts of the county to pick out and settle upon some one man for this place.

Signed: Taxpayers of Estacada and vicinity.

## GINSENG

Information Relating to the Richest Product of the Soil

Prof. Howard of the Missouri State Agricultural College says: "I advise American farmers to cultivate Ginseng. Big profits are realized. It is easily grown." A bulletin by the Pennsylvania State College says: "The supply of native Ginseng Root is rapidly diminishing and the price per pound is correspondingly increasing, while the constant demand for the drug in China stands as a guarantee of a steady market for Ginseng in the future." American Consul General Wildman at Hong Kong writes: "There will be little difficulty in disposing of this coast of all the Ginseng that is grown in America."

Ginseng is a staple on the market the same as corn, wheat, and cotton. The present market price varies from \$6 to \$8 per pound, while the cost of production is less than \$1.50. There is room in one's garden to grow several hundred dollars worth each year. The plant can be grown throughout the United States and Canada in any soil or climate that will grow ordinary garden vegetables.

There are two planting seasons, spring and fall. We are buyers and exporters of the dried product, and grow roots and seeds for planting purposes. Let us show you how to make money growing Ginseng. You can get a practical start in the business for a small outlay and soon have a nice income. Send two-cent stamp today for our illustrated literature telling all about it. Write at once; you may not see this ad again.

A large crowd attended the public speaking last Monday night, February 12. The speakers were Mr. G. B. Dimick and Mr. C. Schuebel. If Mr. Dimick does what he promises he is the man we want in for County Judge.
