

BOIL YOUR WATER.

Dr. Carri Discusses Best Methods of Preventing Typhoid Fever.

The prevalence of innumerable cases of typhoid fever in upper Willamette Valley towns naturally suggests the taking of every reasonable precaution to prevent the introduction of a similar epidemic in this city.

Dr. W. E. Carri has sounded a warning note to the people of this city about the danger of drinking water that has not been boiled.

"The filtration system is very good so far as it goes," he said in an interview, "and takes out all of the vegetable matter from the water, but will not eradicate fever germs, which will soon be coming down from the sewage of up river towns by the millions.

"Unslaked lime is an excellent disinfectant, and is better than chloride of lime and cheaper. People who use wells should throw down a lump as big as one's head at least twice during the season.

"Residents of this city cannot exercise too much care in looking after their sewage. One of the best things to disinfect sewer pipes is common coal oil, and a cup of oil should be poured into the waste pipe of the sink very often.

"There is only one way to make sure of preventing typhoid and that is by boiling the water. Many people object to boiled water because it tastes flat, as the air has been boiled out of it, and it is no longer full of oxygen.

"I want to emphasize the statement that the only safe way to avoid the typhoid germs is by drinking only water that has been boiled. The fever-stricken people of the Valley are pouring their polluted water into the river, and already there have been several cases in Oregon City that are kindred to typhoid."

FRANK BUSCH THE HOUSE FURNISHER

Do you remember the "sight unseen" trades or "swaps" of boyhood? One of the parties to the transaction usually got the worst of it, didn't he? And it wasn't usually the one who proposed the deal, was it? There's a lot of the same sort of "sight unseen" trading going on to-day. Only nowadays it is called Buying by Mail. The pictures in the advertisements of the mail order houses look nice; the talk sounds nice and sometimes the deal turns out all right. But even supposing it does—wherein is the buyer any better off than if he bought of a home merchant? Take any article you chose from the long list of things sold by mail, and you can buy it just as cheaply and just as well here at home. The expense of selling it by mail is just as great, if not greater, than the expense of selling it over the counter.

WHOSE SAY-SO IS BEST?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone and exclusively as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their owners' and makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines. Amongst these writers we find such medical lights as Prof. Pinney Ellingwood, M. D., of Bennett Medical College, Chicago; Prof. Hale of the same city; Prof. Jno. M. Scudder, M. D., late of Cincinnati, Ohio; Prof. Jno. King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholow and scores of others equally eminent.

tion cures the worst cases of female weakness, prolapus, anti-venation and retro-venation and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh, and why innumeration of the ovaries and a multitude of other diseases peculiar to women, readily yield to its marvelous curative potency. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of women's peculiar ailments, who frankly and cheerfully takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for women's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

The writings of these have been for the various medical journals and for publication in standard medical books. Professional reading and instruction, and hence are the more valuable as they relate to Dr. Pierce's medicines, since the writers did not know that they were endorsing and recommending articles that enter into the composition of these medicines and had no personal interest whatever therein. Hence, their great value as endorsements. A brief synopsis, of a small part only, of these extensive writings, which apply to the several ingredients entering into Dr. Pierce's Golden Medical Discovery—the world-famed remedy for weak stomach, or dyspepsia, torpid or congested liver, biliousness, ulceration of stomach and bowels and kindred ailments—has been compiled for publication in book form. These extracts also treat of the several ingredients entering into the composition of Dr. Pierce's Favorite Prescription for weak, over-worked, "run-down," debilitated, nervous women, who find in it a priceless boon. Send your name and address by postal card or letter, with request for this little book, to Dr. R. V. Pierce, Buffalo, N. Y., and it will be mailed free to your address. From it you will learn why "Golden Medical Discovery" cures catarrh of the nasal passages, even though of years' standing. It is a most potent constitutional remedy for this terribly common and generally unsuccessfully treated malady. The cure will be facilitated if Dr. Sage's Catarrh Remedy be employed to cleanse out the nasal passages at the same time that the "Discovery" is employed for the constitutional treatment. The "Discovery" is equally efficient in the cure of catarrh of the stomach and bowels, and in cases of ulceration of these organs. Read what Doctors King, Scudder, Grover Coe, and others say of the curative properties of Golden Seal root and of Stone root in cases of the above diseases. Both these roots are important ingredients of "Golden Medical Discovery." From the writings of these same authors you will learn why the "Golden Medical Discovery" cures chronic, or lingering ailments of the throat and bronchitis attended with hoarseness, cough, soreness and kindred symptoms. Several of the ingredients in the "Golden Medical Discovery" are highly recommended for their specific, curative effects in laryngitis, or "speakers' sore throat," as well as in incipient consumption and obstinate, lingering coughs, which, if neglected or badly treated, are apt to end in consumption. From the same little book you may learn why Dr. Pierce's Favorite Prescription

in favor of Dr. Pierce's medicines is the frank, confident, open statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines. Dr. Pierce's medicines are made from harmless but efficient medicinal roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities. The little free book mentioned in the preceding column will tell you all about the properties and uses of these most valuable medicinal roots. Send for it now. Your druggist sells the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician. It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Doctor Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them. Dr. Pierce's 1000-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of one-cent stamp to pay the cost of mailing only. For 31 stamps the bound volume will be sent. It was formerly sold for \$1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.
